

Principles of Drug Information and Scientific Literature Evaluation

**Frank J. Ascione
Carol Colvin Manifold
Mary A. Parenti**

Contents

SECTION I	Background and Organization of Drug Information Services	1
Chapter 1	Definition and History of Drug Information Services	3
Chapter 2	Need for and Functions of Drug Information Services	7
Chapter 3	Role of the Pharmacist and Impact of Drug Information Services .	21
Chapter 4	Drug Information Facilities, Personnel, and Funding	24
Chapter 5	Poison Control Centers: Difference from Drug Information Centers	31
Chapter 6	Quality Assurance	32
Chapter 7	Ethics and Liability	36
Chapter 8	References and Resource Materials	38
SECTION II	Responding to Drug Information Questions	47
Chapter 9	Question Analysis	49
Chapter 10	The Systematic Search	56
Chapter 11	How to Formulate and Communicate a Response	64
SECTION III	Scientific Literature Evaluation	67
Chapter 12	Overview of Scientific Literature Evaluation	69
Chapter 13	Abstract and Introduction	78
Chapter 14	Study Design and Methods: Patients and Research Setting	91
Chapter 15	Study Design and Methods: Use of Experimental Controls	100
Chapter 16	Study Design and Methods: Measurement of Results	119
Chapter 17	Results and Data Analysis	130
Chapter 18	Discussion and Conclusions	181
SECTION IV	Appendices	193
Appendix A.	United States Drug Information Centers	195
Appendix B.	Canadian Drug Information Centers	206
Appendix C.	European Drug Information Centers	209
Appendix D.	Forms for Reporting Adverse Drug Reactions and Drug Product Problems: FDA Form 3500	213
Appendix E.	Supplemental Standards and Learning Objectives for Residency Training in Drug Information Practice of the American Society of Hospital Pharmacists	215
Appendix F.	Quality Assurance Guidelines for Responding to Drug Information Questions	219
Appendix G.	Rating Scales for Quality Assurance Evaluation of Drug Information Responses	220
Appendix H.	Sample Drug Information Data Collection Form	221
Appendix I.	Sample Written Consultations	222
INDEX	227
