<i>The Argument in Outline</i>	xi
Introduction	1
Part One An Overview	
1 The Challenge of Laplace's Demon	13
2 The Continuing Failure to Explain Life Mechanistically	41
3 Reasons for Thinking that Life is Non-Laplacean	50
Part Two The Ascent of Intelligence through Life	
4 The Logic of Life	65
5 The Behaviour of Lower Organisms	81
6 The Infinite Resourcefulness of Human Intelligence	98
7 The Logic of Learning	117
8 The Mind	132
9 Indeterministic Causality	149
Part Three Non-Laplacean Biology	
10 Vitalism Reappraised	167
11 The Non-Laplacean Underpinnings of Embryogenesis	174
12 Non-Laplacean Evolution	190
<i>Appendix: On Brains and Codes</i>	204
<i>Notes and References</i>	209
<i>Bibliography</i>	218
<i>Index</i>	223
