TABLE OF CONTENTS

Preface	xi
Acknowledgements	xiii
Chapter 1. Introduction	1
Chapter 2. Dimensional reduction of fuzzy relations in multivariable control systems	4
2.1 Problem statement	4
2.2 Theoretical preliminaries	8
2.3 Control algorithms	12
2.4 Number of on-line computations	13
2.5 Numerical examples	13
2.6 Analysis of results	18
Chapter 3. Decomposition of multivariable systems for distributed fuzzy control	19
3.1 Problem statement	19
3.2 Theoretical preliminaries	19
3.3 Method of decomposition	21
3.3.1 Introductory considerations	21
3.3.2 Decomposition algorithms	26
3.4 Application to an electric power system	28
3.5 Analysis of results	34
Chapter 4. Hierarchical fuzzy control of multivariable systems	35
4.1 Problem statement	35
4.2 Theoretical preliminaries	35
4.3 Method of control	37
4.3.1 Introductory considerations	38
4.3.2 Control law theorems	39
4.3.3 Number of fuzzy relations	40
4.3.4 Control algorithms	41
4.4 Application to an urban traffic network	42
4.5 Analysis of results	49
Chapter 5. Decentralized fuzzy control of multivariable systems by passive decomposition	50
5.1 Problem statement	50
5.2 Theoretical preliminaries	53

5.3 Control algorithms	60
5.4 Numerical examples	62
5.5 Analysis of results	65
Chapter 6. Decentralized fuzzy control of multivariable systems by active decomposition	67
6.1 Problem statement	67
6.2 Theoretical preliminaries	67
6.3 Control algorithms	78
6.4 Numerical examples	80
6.5 Analysis of results	86
Chapter 7. Decentralized fuzzy control of multivariable systems by direct decomposition	87
7.1 Problem statement	87
7.2 Theoretical preliminaries	87
7.3 Control algorithms	97
7.4 Numerical examples	98
7.5 Analysis of results	103
Chapter 8. Multilayer fuzzy control of multivariable systems by passive decomposition	105
8.1 Problem statement	105
8.2 Theoretical preliminaries	106
8.3 Control algorithms	116
8.4 Numerical examples	118
8.5 Analysis of results	122
Chapter 9. Multilayer fuzzy control of multivariable systems by active decomposition	124
9.1 Problem statement	124
9.2 Theoretical preliminaries	124
9.3 Control algorithms	136
9.4 Numerical examples	138
9.5 Analysis of results	143
Chapter 10. Multilayer fuzzy control of multivariable systems by direct decomposition	144
10.1 Problem statement	144
10.2 Theoretical preliminaries	144
10.3 Control algorithms	154
10.4 Numerical examples	155

10.5 Analysis of results	160
Chapter 11. Distributed fuzzy fault diagnosis in multivariable control systems	162
11.1 Problem statement	162
11.2 Basic stages in fault diagnosis	164
11.3 Application of the distributed fuzzy approach	165
Chapter 12. Conclusions	168
Appendix	170
References	175
Index	183
