

Universities and Industrial Research

Ewald Konecny

Medical University of Lübeck, Germany

Colin Quinn

Formerly Shell Research Ltd., UK

Kurt Sachs

Consultant, Stourbridge, UK

David Thompson

Consulting Chemist, Reading, UK

Contents

Chapter 1	Introduction	1
	1 The Mutual Interaction between Science and Technology	2
	2 How the Book was Assembled	4
	3 Interactions between Industry and Universities	5
	4 Promoting Collaboration	7
	5 Promoting Innovation in Advanced Nations	8
	6 Definitions	9
Chapter 2	The Differences between Academic Research and Industrial R & D	10
	1 About Technology	10
	2 Technical Service	12
	3 Development	13
	4 Research	16
	5 Activities Compared	18
	6 The Scope for Collaboration	20
	7 Conclusions	21
Chapter 3	Education and Training	23
	1 Introduction	23
	2 University Curriculum	24
	3 Continuous Education	26
	4 Mobility of Students between Countries	31
	5 Scarce Skills	33
	6 Recruitment Procedures	35
	7 Conclusions	39
Chapter 4	Window on Science	40
	1 Introduction	40
	2 University Consultants	41
	3 Conferences	45
	4 University Liaison Programmes and Liaison Offices	47
	5 Conclusions	50

Chapter 5	Upstream Research	51
1	Introduction	51
2	Government Influence on Upstream Research	55
	Europe	55
	North America	59
	Japan	60
3	Industrial Guidance for Upstream Research	61
	Europe	61
	North America	63
	China	63
4	Basic Research in Industry and Research Institutes	64
5	Private Funding of Upstream Research in Universities	65
6	Conclusions	67
Chapter 6	Co-operative and Contract Research	69
1	Introduction	69
2	Research Appropriate for Co-operative or Contract Arrangements	70
3	Practical Considerations	71
	Contracts	71
	Confidentiality	72
	Intellectual Property Rights	73
	Flexibility and Different Appreciations of Time	75
	Project Management	76
4	Research Institutes for Applied Research	76
5	Research Clubs	80
6	University-run Development Companies	82
7	Conclusions	83
Chapter 7	University and Industry Personnel	85
1	Introduction	85
2	University/Industry Staff Interchange	88
3	Visiting Professor Schemes. Dual Part-time Appointments, Direct Exchange of Staff, and Joint Laboratories	91
4	Industrial Training Periods for Students	94
5	The UK Teaching Company Scheme	96
6	Technology Transfer	98
7	Conclusions	99
Chapter 8	Small and Medium Enterprises	100
1	Introduction	100

2	Why are SMEs Important?	102
3	The Role of Technology and Innovation in the Success and Growth of SMEs	104
4	Science Parks	106
5	Different Forms of Contact with Universities	111
	Teaching Companies	111
	LINK	111
	Upstream Research	111
	Contract Research	112
	University Entrepreneurs	113
6	SMEs, University, and the Economy	114
7	Conclusions	116
Chapter 9	The Role of Government	118
1	Introduction	118
2	Side-effects of the Economic Climate	119
3	Academic Research	120
	Basic Research	120
	Science and Culture	124
	Upstream Research	125
	Getting the Balance Right	126
4	Academic Careers	127
5	Education and Recruitment	129
	Education and Formation	129
	Recruitment	131
6	Conclusions	131
Appendices		
A1	EC Funding Programmes	133
	A1.1 Introduction	133
	A1.2 List of EC-programmes	134
	A1.3 Description of some EC Programmes Relevant to University–Industry Relations	138
A2	University Systems in Europe	142
	A2.1 Introduction	142
	A2.2 Degree Courses	143
	A2.3 Academic Staff	143
	A2.4 Funding of University Research	144
	A2.5 Description of Systems of Higher Education in European Countries	144
A3	Innovation in Small and Medium Enterprises	159
	A3.1 Small is Beautiful	159
	Finance	159

	Speed of Response	161
	Efficiency	161
	Competition	161
	The Product Champion	162
A3.2	Innovation	162
A4	Some Abbreviations and Acronyms	167
A5	EIRMA — The European Industrial Research Management Association	170
Subject Index		171
