	Introduction	page 1
1	The Lévy Laplacian	05
1.1	Definition of the infinite-dimensional Laplacian	05
1.2	Examples of Laplacians for functions on infinite-	
	dimensional spaces	09
1.3	Gaussian measures	13
2	Lévy-Laplace operators	22
2.1	Infinite-dimensional orthogonal polynomials	23
2.2	The second-order differential operators generated	
	by the Lévy Laplacian	30
2.3	Differential operators of arbitrary order generated	
	by the Lévy Laplacian	33
3	Symmetric Lévy-Laplace operator	40
3.1	The symmetrized Lévy Laplacian on functions from the domain	
	of definition of the Lévy–Laplace operator	40
3.2	The Lévy Laplacian on functions from the domain of definition	
	of the symmetrized Lévy–Laplace operator	44
3.3	Self-adjointness of the non-symmetrized	
	Lévy–Laplace operator	48
4	Harmonic functions of infinitely many variables	53
4.1	Arbitrary second-order derivatives	54
4.2	Orthogonal and stochastically independent second-order	
	derivatives	59
4.3	Translationally non-positive case	64

5	Linear elliptic and parabolic equations with Lévy Laplacians	68
5.1	The Dirichlet problem for the Lévy–Laplace	
	and Lévy–Poisson equations	68
5.2	The Dirichlet problem for the Lévy–Schrödinger	
	stationary equation	84
5.3	The Riquier problem for the equation with iterated	
	Lévy Laplacians	86
5.4	The Cauchy problem for the heat equation	88
6	Quasilinear and nonlinear elliptic equations	
	with Lévy Laplacians	92
6.1	The Dirichlet problem for the equation $\Delta_L U(x) = f(U(x))$	92
6.2	The Dirichlet problem for the equation	
	$f(U(x), \Delta_L U(x)) = F(x)$	94
6.3	The Riquier problem for the equation	
	$\Delta_L^2 U(x) = f(U(x))$	96
6.4	The Riquier problem for the equation	
	$f(U(x), \Delta_L^2 U(x)) = \Delta_L U(x)$	99
6.5	The Riquier problem for the equation	
	$f(U(x), \Delta_L U(x), \Delta_L^2 U(x)) = 0$	103
7	Nonlinear parabolic equations with Lévy Laplacians	108
7 7.1	Nonlinear parabolic equations with Lévy Laplacians The Cauchy problem for the equations $\partial U(t, x)/\partial t =$	108
		108 108
	The Cauchy problem for the equations $\partial U(t, x)/\partial t =$	
7.1	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t =$	
7.1	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$	108
7.1 7.2	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$	108
7.1 7.2	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$	108 115
7.1 7.2 7.3	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) =$	108 115
7.1 7.2 7.3 7.4	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial t) = 0$	108 115 121
7.1 7.2 7.3 7.4	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t, \Delta_L U(t, x)) = 0$ endix. Lévy–Dirichlet forms and associated	108 115 121 126
 7.1 7.2 7.3 7.4 Appo 	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t) = 0$ endix. Lévy–Dirichlet forms and associated Markov processes	108 115 121
7.1 7.2 7.3 7.4	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t) = 0$ endix. Lévy–Dirichlet forms and associated Markov processes The Dirichlet forms associated	108 115 121 126 133
 7.1 7.2 7.3 7.4 App A.1 	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t) = 0$ endix. Lévy–Dirichlet forms and associated Markov processes The Dirichlet forms associated with the Lévy–Laplace operator	108 115 121 126
 7.1 7.2 7.3 7.4 Appo 	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t) = 0$ rendix. Lévy–Dirichlet forms and associated Markov processes The Dirichlet forms associated with the Lévy–Laplace operator The stochastic processes associated	108 115 121 126 133 133
 7.1 7.2 7.3 7.4 App A.1 	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t) = 0$ endix. Lévy–Dirichlet forms and associated Markov processes The Dirichlet forms associated with the Lévy–Laplace operator	108 115 121 126 133
 7.1 7.2 7.3 7.4 App A.1 	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t, \Delta_L U(t, x)) = 0$ endix. Lévy–Dirichlet forms and associated Markov processes The Dirichlet forms associated with the Lévy–Laplace operator The stochastic processes associated with the Lévy–Dirichlet forms	108 115 121 126 133 133
 7.1 7.2 7.3 7.4 App A.1 	The Cauchy problem for the equations $\partial U(t, x)/\partial t = f(\Delta_L U(t, x))$ and $\partial U(t, x)/\partial t = f(t, \Delta_L U(t, x))$ The Cauchy problem for the equation $\partial U(t, x)/\partial t = f(U(t, x), \Delta_L U(t, x))$ The Cauchy problem for the equation $\varphi(t, \partial U(t, x)/\partial t) = f(F(x), \Delta_L U(t, x))$ The Cauchy problem for the equation $f(U(t, x), \partial U(t, x)/\partial t) = 0$ rendix. Lévy–Dirichlet forms and associated Markov processes The Dirichlet forms associated with the Lévy–Laplace operator The stochastic processes associated	108 115 121 126 133 133 137
