DEEP EARTHQUAKES

CLIFF FROHLICH

Institute for Geophysics, Jackson School of Geosciences University of Texas at Austin

Contents

	Prefac	e	page viii
[Backgr	ound and introductory material	
1	The big, the bad, and the curious		
	1.1	The big: 9 June 1994 Bolivia	4
	1.2	The bad: 4 March 1977 Romania and 25 January 1939 Chile	13
	1.3	The curious: 29 March 1954 Spain	21
	1.4	What we know and what we don't know	25
	1.5	References	27
2	What,	where, how, and why?	30
	2.1	What are deep-focus and intermediate-focus earthquakes?	30
	2.2	Where are deep earthquakes?	34
	2.3	How are deep and shallow earthquakes different?	36
	2.4	How cool is it where deep earthquakes occur?	38
	2.5	Why study deep earthquakes?	46
	2.6	Previous reviews of deep earthquake literature	47
	2.7	References	49
3	The hi	story of deep earthquakes	53
	3.1	Solid earth geophysics in 1900	53
	3.2	The depth of normal earthquakes	54
	3.3	The discovery of deep earthquakes	59
	3.4	The discovery of Wadati–Benioff zones	66
	3.5	The deep earthquake source	73
	3.6	The deep earthquakes of history	84
	3.7	References	88
II	Proper	ties of intermediate- and deep-focus earthquakes	95
4			
	4.1	What is focal depth?	97
	4.2	The global distribution of earthquake focal depths	101

vi Contents

	4.3	What is earthquake size?	116
	4.4	The global distribution of deep earthquake sizes	123
	4.5	References	133
5	Spatia	l and temporal clustering	138
	5.1	Spatial clustering	138
	5.2	Temporal clustering	162
	5.3	Correlations with other phenomena	175
	5.4	References	177
Ш	The 1	nechanism of deep earthquakes	
6	The d	eep earthquake source	191
	6.1	Source duration and size	191
	6.2	Directional properties of seismic radiation	222
	6.3	Focal mechanisms and Wadati-Benioff zone geometry	235
	6.4	References	244
7	The m	nechanics of deep earthquakes	252
	7.1	Fracture, friction, and flow	252
	7.2	Mechanisms that won't work	256
	7.3	Mechanisms that might work	267
	7.4	Are deep quakes caused by more than one mechanism?	292
	7.5	References	294
IV	Why	bother about deep earthquakes?	
8	Are d	eep earthquakes useful?	305
	0.1	Structure of the Earth	205
	8.1	Structure of the Latti	305
	8.1	Dynamics of the crust and mantle	305
	8.2	Dynamics of the crust and mantle	315
	8.2 8.3	Dynamics of the crust and mantle The earthquake source	315 321
9	8.2 8.3 8.4 8.5	Dynamics of the crust and mantle The earthquake source Perhaps deep earthquakes aren't the whole answer References ered and unanswered questions	315 321 325
9	8.2 8.3 8.4 8.5	Dynamics of the crust and mantle The earthquake source Perhaps deep earthquakes aren't the whole answer References	315 321 325 328
