

Rivers Over Rock: Fluvial Processes in Bedrock Channels

Keith J. Tinkler

Ellen E. Wohl

Editors

American Geophysical Union
Washington, DC

Preface
Keith Tinkler and Ellen Wohl vii

A Primer on Bedrock Channels
Keith Tinkler and Ellen Wohl 1

Hydraulics, Sediment Transport, and Erosional Processes

Conditions for the Entrainment of Cuboid Boulders in Bedrock Streams: An Historical Review of Literature with Respect to Recent Investigations
Paul Carling and Keith Tinkler 19

Beyond Power: Bedrock River Incision Process and Form
Gregory S. Hancock, Robert S. Anderson, and Kelin X Whipple 35

Modeling Considerations for Simulation of Flow in Bedrock Channels
Andrew J. Miller and Brian L. Cluer 61

Morphological Features of Bedrock Channels

Depositional Processes and Sediment Supply in Resistant-Boundary Channels: Examples from Two Case Studies
Daniel A. Cenderelli and Brian L. Cluer 105

Bedrock Channel Morphology in Relation to Erosional Processes
Ellen E. Wohl 133

The Role of Extreme Floods in Shaping Bedrock Channels
Victor R. Baker and Vishwas S. Kale 153

Channel Gradient and Longitudinal Profile

Recent Adjustments to the Long Profile of Cooksville Creek, an Urbanized Bedrock Channel in Mississauga, Ontario
Keith J. Tinkler and John Parish 167

Inland Propagation of Erosional Escarpments and River Profile Evolution Across the Southeast Australian Passive Continental Margin
Jeffrey K. Weissel and Michele A. Seidl 189

Bedrock Fluvial Incision and Longitudinal Profile Development Over Geologic Time Scales Determined by Fluvial Terraces
Frank J. Pazzaglia, Thomas W. Gardner, and Dorothy J. Merritts 207

River Longitudinal Profiles and Bedrock Incision Models: Stream Power and the Influence of Sediment Supply
Leonard Sklar and William E. Dietrich 237

Methods of Studying Bedrock Channels

Field Studies of Bedrock Channels

Keith Tinkler and Ellen Wohl 261

Flume Experimentation and Simulation of Bedrock Channel Processes

Douglas Thompson and Ellen Wohl 279

**Long Profile Development of Bedrock Channels: Interaction of Weathering, Mass Wasting,
Bed Erosion, and Sediment Transport**

Alan D. Howard 297

Subject Index 321
