Contents

PART 1: THE SKY

Chapter 1: The Scale of the Cosmos 1

Chapter 2: The Sky 9

2-1 The Stars 10

2-2 The Celestial Sphere 14

Window on Science 2-1

**Frameworks for Thinking About Nature:
Scientific Models** 15

Window on Science 2-2

**Understanding Versus Naming:
The True Goal of Science** 19

Chapter 3: Cycles of the Sky 21

3-1 The Cycle of the Sun 22

Window on Science 3-1

**Astrology and Pseudoscience:
Misusing the Rules of Science** 26

3-2 The Cycles of the Moon 27

3-3 Astronomical Influences on Earth's
Climate 36

Window on Science 3-2

The Foundation of Science: Evidence 38

Chapter 4: The Origin of Modern Astronomy 41

4-1 Pre-Copernican Astronomy 42

4-2 Copernicus 45

Window on Science 4-1

**Creating New Ways to See Nature:
Scientific Revolutions** 49

4-3 Tycho Brahe 49

4-4 Johannes Kepler 51

Window on Science 4-2

**Levels of Confidence:
Hypothesis, Theory, and Law** 54

4-5 Galileo Galilei 55

4-6 Isaac Newton and Orbital Motion 59

Window on Science 4-3

**The Unstated Assumption of Science:
Cause and Effect** 61

Window of Science 4-4

Testing a Theory by Prediction 63

Chapter 5: Astronomical Tools 66

5-1 Radiation: Information from Space 67

5-2 Optical Telescopes 69

Window on Science 5-1

Resolving Power and Accuracy of a Measurement 74

5-3 Special Instruments 79

5-4 Radio Telescopes 81

5-5 Space Astronomy 84

PART 2: THE STARS

Chapter 6: Atoms and Starlight 90

6-1 Atoms 92

Window on Science 6-1

**Quantum Mechanics: The World of the Very
Small** 93

6-2 The Interaction of Light and Matter 94

6-3 Stellar Spectra 100

Chapter 7: The Sun—Our Star 109

7-1 The Solar Atmosphere 110

Data File One:

The Sun 110

7-2 Solar Activity 115

Window on Science 7-1

**Building Confidence by Confirmation and
Consolidation** 120

Chapter 8: The Properties of Stars 126

8-1 Measuring the Distances to Stars 127

8-2 Intrinsic Brightness 130

8-3	The Diameters of Stars	132
8-4	The Masses of Stars	136
	Window on Science 8-1	
	Learning About Nature Through Chains of Inference	138
8-5	The Family of Stars	143
	Window on Science 8-2	
	Information About Nature: Basic Scientific Data	144

Chapter 9: The Formation and Structure of Stars 150

9-1	The Birth of Stars	151
	Window on Science 9-1	
	Understanding Science: Separating Facts from Theories	157
9-2	How Stars Generate Nuclear Energy	161
	Window on Science 9-2	
	Avoiding Hasty Judgments: Scientific Faith	165
9-3	Stellar Structure	166
	Window on Science 9-3	
	Quantitative Thinking with Mathematical Models	170
9-4	Main-Sequence Stars	171
9-5	The Orion Nebula	173

Chapter 10: The Deaths of Stars 180

10-1	Giant Stars	181
	Window on Science 10-1	
	Causes in Nature: The Very Small and the Very Large	184
10-2	The Deaths of Low- and Medium-Mass Stars	185
10-3	The Deaths of Massive Stars	191
	Window on Science 10-2	
	Astronomical Images, False Color, and Reality	196
10-4	The Evolution of Binary Systems	198

Chapter 11: Neutron Stars and Black Holes 204

11-1	Neutron Stars	205
	Window on Science 11-1	
	The Impossibility of Proof in Science	213
11-2	Black Holes	214
	Window on Science 11-2	
	Natural Checks on Fraud in Science	218

PART 3: THE UNIVERSE OF GALAXIES

Chapter 12: The Milky Way Galaxy 223

12-1	The Discovery of the Galaxy	225
	Window on Science 12-1	
	The Calibration of One Parameter to Find Another	228
12-2	The Origin of the Milky Way	233
	Window on Science 12-2	
	Understanding Nature as Processes	235
12-3	Spiral Arms and Star Formation	237
12-4	The Nucleus	243

Chapter 13: Galaxies 249

13-1	Three Types of Galaxies	250
	Window on Science 13-1	
	Searching for Clues Through Classification in Science	251
	Window on Science 13-2	
	Selection Effects in Science	255
13-2	Measuring the Properties of Galaxies	255
13-3	The Evolution of Galaxies	262

Chapter 14: Galaxies with Active Nuclei 271

14-1	Active Galactic Nuclei	272
	Window on Science 14-1	
	It Wouldn't Stand Up in Court: Statistical Evidence	277
	Window on Science 14-2	
	Scientific Arguments	279
14-2	Quasars	281

Chapter 15: Cosmology 290

15-1	The Structure of the Universe	291
	Window on Science 15-1	
	Thinking About an Abstract Idea: Reasoning by Analogy	295
	Window on Science 15-2	
	Why Scientists Speak Carefully: Words Lead Thoughts	297
15-2	The Big Bang	298
15-3	Refining the Big Bang: Theory and Observation	305

PART 4: THE SOLAR SYSTEM

Chapter 16: The Origin of the Solar System 314

16-1 The Great Chain of Origins 315

Window on Science 16-1

Two Kinds of Theories: Evolution and Catastrophe 316

Window on Science 16-2

Scientists: Skeptical Storytellers 319

16-2 A Survey of the Solar System 319

Window on Science 16-3

Reconstructing the Past Through Science 328

16-3 The Story of Planet Building 328

Chapter 17: The Earthlike Planets 337

17-1 The Early History of Earth 338

Data File Two:

Earth 339

17-2 The Moon 344

Data File Three:

The Moon 345

Window on Science 17-1

Understanding Planets: Follow the Energy 347

17-3 Mercury 350

Data File Four:

Mercury 350

Window on Science 17-2

How Hypotheses and Theories Unify the Details 351

17-4 Venus 352

Data File Five:

Venus 353

17-5 Mars 358

Data File Six:

Mars 358

Window on Science 17-3

The Present Is the Key to the Past 364

Chapter 18: Worlds of the Outer Solar System 369

18-1 Jupiter 370

Window on Science 18-1

Science, Technology, and Engineering 371

Data File Seven:

Jupiter 372

18-2 Saturn 380

Data File Eight:

Saturn 380

Window on Science 18-2

Who Pays for Science? 381

18-3 Uranus 385

Data File Nine:

Uranus 386

18-4 Neptune 389

Data File Ten:

Neptune 390

18-5 Pluto 393

Data File Eleven:

Pluto 394

Chapter 19: Meteorites, Asteroids, and Comets 398

19-1 Meteorites 399

Window Science 19-1

Enjoying the Natural World 401

19-2 Asteroids 403

19-3 Comets 406

PART 5: LIFE

Chapter 20: Life on Other Worlds 416

Window on Science 20-1

The Nature of Scientific Exploration 417

20-1 The Nature of Life 417

20-2 The Origin of Life 421

20-3 Communication with Distant Civilizations 429

Window on Science 20-2

UFOs and Space Aliens 430

Afterword 436

Appendix A: Units and Astronomical Data A-1

Appendix B: Observing the Sky B-1

Glossary G-1

Answers to Even-Numbered Problems Ans-1

Index I-1
