Contents

Foreword by H. Morkoc	ix
Introduction by J.H. Edgar	xi
Contributing Authors	xii
Acknowledgements	xv
Abbreviations	xvi

1 BASIC PHYSICAL PROPERTIES

1.1 Common crystal structures of group III nitrides <i>J.H. Edgar</i>	3
1.2 Crystal structure, mechanical properties and thermal properties of BN <i>J.H. Edgar</i>	7
1.3 Crystal structure, mechanical properties, thermal properties and refractive index of AlN <i>W.J. Meng</i>	22
1.4 Crystal structure, mechanical properties and thermal properties of GaN <i>I. Akasaki and H. Amano</i>	30
1.5 Crystal structure, mechanical properties, thermal properties and refractive index of InN <i>T.L. Tansley</i>	35

2 PHASE DIAGRAMS

2.1 Phase diagram of BN <i>V.L. Solozhenko</i>	43
2.2 Phase diagram of AlN <i>S. Porowski and I. Grzegory</i>	71
2.3 Phase diagram of GaN <i>S. Porowski and I. Grzegory</i>	76
2.4 Phase diagram of InN <i>S. Porowski and I. Grzegory</i>	82

3 ELECTRICAL TRANSPORT PROPERTIES

3.1 Electrical transport properties of BN <i>V.V. Lopatin</i>	89
3.2 Electrical transport properties of AlN, GaN and AlGaN <i>D.K. Gaskill, L.B. Rowland and K. Doverspike</i>	101
3.3 Electrical transport properties of InN, GaInN and AlInN <i>W.A. Bryden and T.J. Kistenmacher</i>	117

4 BAND STRUCTURE OF PURE GROUP III NITRIDES

4.1 General remarks and notations on the band structure of pure group III nitrides <i>W.R.L. Lambrecht and B. Segall</i>	125
4.2 Band structure of pure BN <i>W.R.L. Lambrecht and B. Segall</i>	129

4.3	Band structure of pure AlN <i>W.R.L. Lambrecht and B. Segall</i>	135
4.4	Band structure of pure GaN <i>W.R.L. Lambrecht and B. Segall</i>	141
4.5	Band structure of pure InN <i>W.R.L. Lambrecht and B. Segall</i>	151
5	BAND STRUCTURE OF GROUP III NITRIDE ALLOYS	
5.1	Band structure of InN, GaInN and AlInN <i>D. Jenkins</i>	159
5.2	Band structure of AlGaN, $(\text{AlN})_x(\text{SiC})_{1-x}$ and diamond/c-BN alloys <i>W.R.L. Lambrecht and B. Segall</i>	163
6	OPTICAL FUNCTIONS	
6.1	Optical functions of BN <i>G.L. Doll</i>	169
6.2	Optical functions of AlN <i>S. Loughin and R.H. French</i>	175
6.3	Optical functions of GaN <i>J.A. Miragliotta</i>	190
6.4	Optical functions of InN <i>J.A. Miragliotta</i>	195
7	PHOTOLUMINESCENCE AND CATHODOLUMINESCENCE	
7.1	Photoluminescence and cathodoluminescence of AlN <i>J.H. Harris and R.A. Youngman</i>	203
7.2	Basic optical properties, photoluminescence and cathodoluminescence of GaN and AlGaN <i>I. Akasaki and H. Amano</i>	222
7.3	Photoluminescence of InN and InGaN <i>T. Matsuoka</i>	231
8	RAMAN AND IR REFLECTION SPECTROSCOPY	
8.1	General remarks on Raman and IR spectroscopy of group III nitrides <i>L.E. McNeil</i>	239
8.2	Raman and IR reflection spectra of BN <i>G.L. Doll</i>	241
8.3	Raman and IR reflection spectra of AlN <i>L.E. McNeil</i>	249
8.4	Raman and IR reflection spectra of GaN <i>L.E. McNeil</i>	252
8.5	Raman and IR spectra of InN and ternary group III nitrides <i>L.E. McNeil</i>	254
9	DEFECTS AND IMPURITIES	
9.1	General remarks on defects and impurities in group III nitride films <i>S.C. Strite</i>	257
9.2	Extended structural defects in heteroepitaxial group III nitride films <i>S.C. Strite</i>	258
9.3	Polytypism and stacking faults in the group III nitrides <i>S.C. Strite</i>	262
9.4	Native defects in the group III nitrides <i>S.C. Strite</i>	268
9.5	Impurities and dopants in the group III nitrides <i>S.C. Strite</i>	272

10 MATERIAL INTERFACES WITH GROUP III NITRIDES

10.1	Material interfaces with BN <i>D.R. Gilbert and R.K. Singh</i>	279
10.2	Ohmic contacts to AlN, GaN and InN <i>L.L. Smith and R.F. Davis</i>	282
10.3	Schottky barriers and band offsets in AlN, GaN and InN <i>L.L. Smith and R.F. Davis</i>	288
