

C.R. Jesshope and A.V. Shafarenko (Eds)

UK Parallel '96

**Proceedings of the BCS PPSG
Annual Conference, 3-5 July 1996**

Published in collaboration with the
British Computer Society

Springer

CONTENTS

Simulation Modelling of Parallel Systems in the EDPEPPS Project <i>T Delaitre, F Spies & S Winter</i>	1
On Potential Software Support for a Three-Phase Development Process for Parallel Large-Scale Applications <i>W H F J Körver & J P Geschiere</i>	14
Achieving Scalability, Portability and Efficiency in a High-Level Programming Model for Parallel Architectures <i>P Morrow, D Crookes, J Brown, Y Dong, G McAleese, D Roantree & I Spence</i>	29
A FORTRAN 90 to F-Code Compiler <i>H C Slusanschi & C Jesshope</i>	40
A Strict occam Design Tool <i>D Beckett & P Welch</i>	53
CSP / Occam on Networks of Workstations <i>K J Vella</i>	70
Model Generation Using Genetic Programming <i>A Salhi, H Glaser & D De Roure</i>	92
A Comparison of Developing Codes for Distributed and Parallel Architectures <i>S A Williams & G E Fagg</i>	110
Capturing Branch-and-Bound using Shared Abstract Data-types <i>D Goodeve, R Briggs & J Davy</i>	119
Some Geographical Applications of Genetic Programming on the Cray T3D Supercomputer <i>I Turton, S Openshaw & G Diplock</i>	135
Parallel Genetic Programming <i>D C Dracopoulos & D Self</i>	151

Designing and Instrumenting a Software Template for Embedded Parallel Systems <i>M Fleury, H P Sava, A C Downton & A F Clark</i>	163
Dynamic Data Management for Parallel Volume Visualisation <i>C Köse & A Chalmers</i>	181
A Case Study in Pipeline Processor Farming: Parallelising the H.263 Encoder <i>H Sava, M Fleury, A C Downton & A F Clark</i>	196
Index	207
