

THIN FILM FERROELECTRIC MATERIALS AND DEVICES

edited by

R. Ramesh

University of Maryland at College Park

KLUWER ACADEMIC PUBLISHERS
Boston/Dordrecht/London

TABLE of CONTENTS

Preface	vii
Chapter 1: (Ba,Sr)TiO₃ Thin Films for DRAM's S. Summerfelt	1
Chapter 2: (Ba,Sr)TiO₃ Films and Process Integration For DRAM Capacitor N. Mikami	43
Chapter 3: Elastic Domains in Ferroelectric Epitaxial Films A.Roytburd	71
Chapter 4: Study of Growth Processes in Ferroelectric Films and Layered Heterostructures via <i>In Situ</i>, Real-Time Ion Beam Analysis O. Auciello, A. Krauss, J. Im	91
Chapter 5: Layered Perovskite Thin Films and Memory Devices J. F. Scott	115
Chapter 6: Pb(Zr,Ti)O₃ Based Thin Film Ferroelectric Nonvolatile Memories B. A. Tuttle	145
Chapter 7: Chemical Vapor Deposition of Ferroelectric Thin Films C. M. Foster	167
Chapter 8: Degradation Mechanisms and Reliability Issues for Ferroelectric Thin Films D. Dimos, W.L. Warren, H.N. Al-Shareef	199
Chapter 9: Low Voltage Performance in Lead Based Ferroelectric Thin Film Memory Elements With (La,Sr)CoO₃ Electrodes S. Aggarwal, B. Yang, R. Ramesh	221
Index:	243
