CONTENTS

CHAPTER 1 INTRODUCTION	1
Swing	2
Accessibility	4
Summary	5
CHAPTER 2 LIGHTWEIGHT COMPONENTS	7
Structure of a Swing Component	8
Event Handling with Swing	19
Creating a User Interface	25
Summary	33
CHAPTER 3 LAYOUT MANAGERS, BOXES, AND BORDERS	35
Layout Managers	35
Boxes	48
Borders	53
Style Guidelines	73
CHAPTER 4 BUTTONS, ACTIONS, AND MOUSE EVENTS	75
Buttons	75
Action Events	86
MouseEvent	90
Style Guidelines	99
CHAPTER 5 COMBO BOXES AND LISTS	101
JComboBox	101
JList	121
Style Guidelines	139
CHAPTER 6 SLIDERS, WATCH EVENTS, AND SCROLL PANES	141
Sliders	141
Change Events	146
Scroll Panes	152
Style Guidelines	155
CHAPTER 7 HANDLING SIMPLE TEXT USING SWING	157
Labels	157
Text Components	162
Handling Text-Related Events with Swing	172
Style Guidelines	187

CHAPTER 8 MENUS AND TOOL BARS	189
Menu	190
Tool Bars	214
Style Guidelines	219
CHAPTER 9 DIALOGS AND OPTION PANES	221
JDialog	221
JOptionPane	222
Style Guidelines	244
CHAPTER 10 TIMERS AND PROGRESS BARS	245
Timers	245
Progress Bar	255
Style Guidelines	272
CHAPTER 11 TREES	273
Creating a Tree	274
Tree Selections	289
Tree Expansion Listeners	298
Tree Cell Renderers	303
Editable Trees	312
Tree Mouse Events	328
Style Guidelines	330
CHAPTER 12 TABLES	333
TableModel	334
Table Display Attributes	342
Selections	343
Editable Tables	349
Tables and JDBC	355
Table Framework	363
Style Guidelines	365
CHAPTER 13 TABBED AND SPLIT PANES	367
JTabbedPane	367
JSplitPane	377
Style Guidelines	389
CHAPTER 14 ROOT PANES, LAYERS, AND INTERNAL FRAMES	391
JRootPane	392
JLayeredPane	392
JInternalFrame	394
Style Guidelines	408
CHAPTER 15 STYLED TEXT	411
Basic Text Framework Design	411
How the Framework Works	420

JTextPane	422
JEditorPane	428
Style Guidelines	434
CHAPTER 16 CREATING CUSTOM JFC COMPONENTS	435
Step 1: Determine the Component's Functionality	436
Step 2: Decide on a UI Object and a Model Object	437
Step 3: Determine the Methods Provided by the Model and UI	438
Step 4: Define the Model as an Interface	439
Step 5: Define the UI as an Interface	440
Step 6: Implement the Main Component, Relying on Your UI and Model Interfaces	440
Step 7: Implement at Least One UI Object	455
Step 8: Implement at Least One Version of the Model	461
Step 9: Test Your Component	464
Conclusions	467
CHAPTER 17 OTHER JFC TOPICS	469
Pluggable Look-and-Feel Architecture	469
Animated Icons	474
Scroll Pane Headers	476
Custom List Models	483
SwingUtilities	487
The Undo Framework	487
Undo Example	490
Style Guidelines	494
CHAPTER 18 ZIP AND JAR VIEWER EXAMPLE	495
The JarViewer Application's Design	495
JarTableModel	496
Actions	500
JJarViewer Class	508
Summary	514
CHAPTER 19 SEARCH PROGRAM EXAMPLE	515
Design of DocSearch	515
The Index	517
Actions	527
Loaders	529
Main Class: DocSearch	533
Summary	544
APPENDIX A THE ACCESSIBILITY FRAMEWORK	545
APPENDIX B WHAT'S ON THE CD-ROM?	548
INDEX	551
