

CRC Handbook of Laser Science and Technology

Volume V
Optical Materials
Part 3: Applications, Coatings, and
Fabrication

Editor

Marvin J. Weber, Ph.D.

Lawrence Livermore National Laboratory
University of California
Livermore, California

CRC Press, Inc.
Boca Raton, Florida

HANDBOOK OF LASER SCIENCE AND TECHNOLOGY

VOLUME V: OPTICAL MATERIALS

Part 3: APPLICATIONS, COATINGS, AND FABRICATION

TABLE OF CONTENTS

SECTION 1: APPLICATIONS

1.1	Optical Waveguide Materials	3
1.2	Materials for High Density Optical Data Storage	65
1.3	Holographic Parameters and Recording Materials	203
1.4	Phase Conjugation Materials	261
1.5	Laser Crystals	281
1.6	Laser Glasses	339
1.7	Infrared Quantum Counter Materials	373

SECTION 2: THIN FILMS AND COATINGS

2.1	Multilayer Dielectric Coatings	389
2.2	Graded-Index Surfaces and Films	431

SECTION 3: OPTICAL MATERIALS FABRICATION

3.1	Fabrications Techniques	461
3.2	Fabrication Procedures for Specific Materials	485

Index	503
