
Semiconductor Transport

David K. Ferry

Contents

<i>List of illustrations</i>	vi
<i>Preface</i>	ix
1 Introduction	1
2 Semiconductors are <i>not</i> metals	19
3 The Boltzmann equation and the relaxation time approximation	87
4 Inelastic scattering and non-equilibrium transport	164
5 Topics in high field transport	239
6 Optical properties	277
7 The electron–electron interaction	324
<i>Index</i>	364
