## Table of contents

-----

Preface .....	v
Scientific Committee .....	xiii
Local Organizing Committee .....	xiv
List of participants (per country) .....	xv
<b>SESSION A : Large Interaction Parameter .....</b>	<b>1</b>
Liquid metal in a strong magnetic field ( <i>General Lecture</i> ) .....	3
O. LIELAUSIS	
Numerical solutions of three-dimensional MHD flows in strong non-uniform transverse magnetic fields .....	13
T.Q. HUA and J.S. WALKER	
MHD-flows at high $R_m$ , $N$ and $Ha$ .....	21
I.V. LAVRENT'EV	
MHD pressure drop of liquid metal flow in circular and rectangular ducts under transverse magnetic field .....	29
K. MIYAZAKI, S. INOUE and N. YAMAOKA	
Linear approximation application limits in MHD-flow theory for strong magnetic fields. Experimental results .....	37
A.V. TANANAEV, T.N. AIKOV, A.V. CHUDOV and V.A. SHMATENKO	
<b>SESSION B : Fusion Related Flows .....</b>	<b>45</b>
Application of the core flow approach to MHD fluid flow in geometric elements of a fusion reactor blanket .....	47
M.S. TILLACK	
Experimental and theoretical work on MHD at the kernforschungszentrum Karlsruhe. The MEKKA-program .....	55
L. BARLEON, V. CASAL, K.J. MACK and H. KREUZINGER	
Liquid metal turbulent flow phenomena and their implications on fusion reactor blanket design .....	63
S. SUKORIANSKY, H. BRANOVER and E. GREENSPAN	
Experimental investigation of 3-D MHD flows at high Hartmann number and interaction parameter .....	71
B.F. PICOLOGLOU and C.B. REED	
Magnetohydrodynamics in nuclear energetics ( <i>General lecture</i> ) .....	79
V.A. GLUKHIKH	

<b>POSTER SESSION 1 : DC Fields .....</b>	<b>89</b>
<b>Liquid metal flows with polydispersed solid and gaseous inclusions .....</b>	<b>91</b>
V.I. BLINOV, N. Kh. EHRKENOV, Yu. M. GORISLAVETS, A.F. KOLESNICHENKO, A.A. KUCHAEV and A.V. LJUTKEVICH	
<b>Dispersion of small particles in MHD flows .....</b>	<b>97</b>
G. GERBETH and D. HAMANN	
<b>Two-phase flows studies in mercury-air liquid metal MHD generators .....</b>	<b>103</b>
P. SATYAMURTHY, N.S. DIKIT, T.K. THIYAGARAJAN, N. VENKATRAMANI and V.K. ROHATGI	
<b>Liquid metal MHD generators in two-phase flow systems .....</b>	<b>111</b>
A. EI-BOHER, S. LESIN and H. BRANOVER	
<b>Modelling of magnetohydrodynamic two-phase flow in pipe .....</b>	<b>119</b>
J.P. THIBAUT and B. SECK	
<b>Melt magnetohydrodynamics of single crystal growth .....</b>	<b>127</b>
A. BOJAREVICS, Yu. M. GEL'FGAT and L.A. GORBUNOV	
<b>The effect of electromagnetic field on semiconductor single crystal growth and characteristics .....</b>	<b>135</b>
El. P. BOCHKAREV, V.M. FOLIFOROV, Ju. M. GEL'FGAT, L.A. GORBUNOV, V.S. GOROVIC, O.V. PELEVIN and G.N. PETROV	
<b>Gas bubbles motion during vacuum treatment of liquid aluminium in MDV- type devices .....</b>	<b>145</b>
Yu. GEL'FGAT, V. POLISHCHUK, L. PUZHAYLO and M. SORKIN	
<b>MHD turbulence decay behind spatial grids .....</b>	<b>153</b>
A.A. KLJUKIN and Ju. B. KOLESNIKOV	
<b>The effect of a uniform magnetic field on stability, transition and turbulence as a control means for liquid metal flow mixing .....</b>	<b>161</b>
V.M. IEVLEV, A.S. KOROTEV, and V.B. LEVIN	
<b>SESSION C : Current Carrying Melts .....</b>	<b>167</b>
<b>Electrically induced vortical flows (General lecture) .....</b>	<b>169</b>
Ed. V. SHCHERBININ	
<b>Liquid metal flow near magnetic neutral points .....</b>	<b>179</b>
R.G. KENNY	
<b>Modelling of electrically induced flows for studying current carrying melts of electrometallurgical devices .....</b>	<b>187</b>
A. Ju. CHUDINOVSKY, S.B. DEMENT'EV, E.V. SHCHERBININ, V. Kh. VLASJUK and L.A. VOLOKHONSKY	

<b>SESSION D : Aluminium Reduction Cells .....</b>	<b>195</b>
<b>Amplitude evolution of interfacial waves in aluminium reduction cells .....</b>	<b>197</b>
R.J. MOREAU, S. PIGNY and S.A. MASLOWE	
<b>Physical and mathematical modeling of MHD-processes in aluminium reduction cells .....</b>	<b>205</b>
V. BOJAREVICS, A.I. CHAIKOVSKY, E.V. GORBACHEV, H. KALIS, R. MILLERE and Eh. V. SHCHERBININ	
<b>On the analysis by perturbation methods of the anodic current fluctuations in an electrolytic cell for aluminium production .....</b>	<b>213</b>
J. DESCLOUX and M.V. ROMERIO	
<b>SESSION E : AC Stirring .....</b>	<b>221</b>
<b>Fluid flows induced by alternating magnetic (<i>General lecture</i>) .....</b>	<b>223</b>
Y. FAUTRELLE	
<b>Fluid metal flow study in an induction furnace based on numerical simulation .....</b>	<b>233</b>
Yu. MIKELSONS, L.L. BULYGIN and A.T. JAKOVICS	
<b>A high frequency induction furnace for oxide melting .....</b>	<b>241</b>
B. CAILLAULT, Y. FAUTRELLE, R. PERRIER and J.J.AUBERT	
<b>Directional melt-flow in channel induction furnaces .....</b>	<b>247</b>
A. MUEHLBAUER, R. FRICKE and A. WALTHER	
<b>Characteristic properties of MHD flow in magnetodynamic pumps .....</b>	<b>255</b>
V. POLISHCHUK, R. HORN, V. DUBODELOV, V. POGORSKY, V. TREFNYAK and M. TSIN	
<b>SESSION F : Electromagnetic Shaping .....</b>	<b>263</b>
<b>Deflection of a stream of liquid metal by means of an alternating magnetic field .....</b>	<b>265</b>
J. ETAY, A.J. MESTEL, and H.K. MOFFATT	
<b>The shape of liquid metal jets under a uniform transverse magnetic field .....</b>	<b>273</b>
S. OSHIMA and R. YAMANE	
<b>Electromagnetic control of liquid metal free surfaces .....</b>	<b>281</b>
M. GARNIER, J. ETAY, A. GAGNOUD, and F. GARNIER	
<b>Deformation of an electrically conducting drop in a magnetic field .....</b>	<b>287</b>
G. GERBETH, M. KAUDZE, and A. GAILITIS	
<b>Controlled decomposition of liquid metal jets and films in technological and power devices .....</b>	<b>293</b>
V.N. DEM'JANENKO, E.V. MURAVEV, Yu. GORISLAVETS, I.V. KAZACHKOV, A.F. KOLESNICHENKO, N.V. LYSAK and V.O. VODJANJUK	

<b>POSTER SESSION 2 : AC Fields .....</b>	<b>299</b>
<b>More accurate skin-depth approximation .....</b>	<b>301</b>
A.J. MESTEL	
<b>Overall and local thickness measurement of layers with differing electrical properties .....</b>	<b>309</b>
F.R. BLOCK, W. LESCH, and P.PALM	
<b>Determination of MHD machine parameters using the 1D model of a non-uniform flow .....</b>	<b>317</b>
I. GAVARE, R. KRISBERGS, O. LIELAUSIS, M. PUKIS, L. ULMANIS and R. VALDMANE	
<b>Experimental and theoretical studies on the stability of induction pumps at large <math>R_m</math> numbers .....</b>	<b>325</b>
J. RAPIN, Ph. VAILLANT and F. WERKOFF	
<b>3500 <math>m^3/h</math> MHD pump for fast breeder reactor .....</b>	<b>333</b>
B.G. KARASEV, I.R. KIRILLOV and A.P. OGORODNIKOV	
<b>Self-excitation of liquid metal MHD generators .....</b>	<b>339</b>
Ph. MARTY and A. ALEMANY	
<b>Comprehensive study on the MHD phenomena in the metal pool with the single-phase induction coil .....</b>	<b>347</b>
E. TAKEUCHI, J. SAKANE, H. YANO, I. MIYOSHINO, T. SAEKI and H. KAJOKA	
<b>Grain refinement in continously cast ingots of light metals by electromagnetic casting .....</b>	<b>355</b>
Ch. VIVES	
<b>Liquid metal flow control using AC fields .....</b>	<b>363</b>
D.C. LILICRAP	
<b>SESSION G : Measurements .....</b>	<b>371</b>
<b>Diagnostics of liquid metal flows using fibre-optic velocity sensor .....</b>	<b>373</b>
V.G. ZHILIN, K.V. ZYAGIN, Yu. P. IVOCHKIN, and A.A. OKSMAN	
<b>On local measurements of the up and downstream magnetic wake of a cylinder at low magnetic Reynolds number .....</b>	<b>381</b>
J. LAHJOMRI, Ph. CAPERAN, and A. ALEMANY	
<b>Metallurgical aspects of electromagnetic processing of materials .....</b>	<b>391</b>
(General lecture). S. ASAI	
<b>SESSION H : Dynamo Theory .....</b>	<b>401</b>
<b>Liquid metal MHD and the geodynamo (General lecture) .....</b>	<b>403</b>
H.K. MOFFATT	

<b>The helical MHD dynamo .....</b>	<b>413</b>
A. GAILITIS, O. LIELAUSIS, B.G. KARASEV, I.R. KIRILLOV and A.P. OGOROONIKOV	
<b>The Ponomarenko dynamo .....</b>	<b>421</b>
A.D. GILBERT	
<b>MHD phenomena in fast neutron reactors with a liquid metal heat carrier .....</b>	<b>425</b>
G.E. KIRKO	
 <b>SESSION I : Turbulence .....</b>	 <b>431</b>
<b>The effect of initial and boundary conditions upon the formation and development of MHD turbulence structure .....</b>	<b>433</b>
I. PLATNIEKS and S.F. SELUTO	
<b>Two-dimensional MHD turbulence .....</b>	<b>441</b>
J. SOMMERIA, J.M. N'GUYEN-DUC and Ph. CAPERAN	
<b>MHD instabilities and turbulence in liquid metal shear flows .....</b>	<b>449</b>
A.A. KLJUKIN and Ju. B. KOLESNIKOV	
 <b>SESSION J : Stability with Uniform Field .....</b>	 <b>455</b>
<b>Dispersion and chaos in linear arrays of vortices .....</b>	<b>457</b>
P. TABELING and O. CARDOSO	
<b>Stability of magnetohydrodynamic flow over a stretching sheet .....</b>	<b>465</b>
H.S. TOKHAR, M. ALI and A.S. GUPTA	
<b>Stability of closed azimuthal jet of liquid metal .....</b>	<b>473</b>
K.A. SERGEEV and V.N. SHTERN
