

J. Cleymans (Ed.)

Phase Structure of Strongly Interacting Matter

Proceedings of a Summer School
on Theoretical Physics,
Held at the University of Cape Town,
South Africa, January 8–19, 1990

With 190 Figures

Springer-Verlag

Berlin Heidelberg New York London
Paris Tokyo Hong Kong Barcelona

Contents

Part I	Lectures on Strongly Interacting Matter and Its Phase Structure	
---------------	--	--

Introduction to Perturbative QCD By R.L. Thews (With 12 Figures)	2
Phase Transitions in Nuclei at Low Temperatures By A.L. Goodman (With 22 Figures)	26
Chiral Symmetry By M.D. Scadron (With 9 Figures)	53
Dynamical Evolution and Particle Production in Relativistic Nuclear Collisions By U. Heinz, P. Koch, K.S. Lee, E. Schnedermann, and H. Weigert (With 23 Figures)	81
Strings in Ultrarelativistic Collisions By K. Werner (With 42 Figures)	133

Part II	Topical Lectures	
----------------	-------------------------	--

The Fractal Structure of Multihadron Production at High Energies By H. Satz (With 7 Figures)	192
Q-Stars By B.W. Lynn (With 4 Figures)	204
Specific Heat of Strongly Interacting Matter By N.J. Davidson, H.G. Miller, R.M. Quick, B.J. Cole, R.H. Lemmer, and R. Tegen (With 13 Figures)	216
QCD Transport Coefficients By D.W. von Oertzen	251
Strangeness Production in Heavy-Ion Collisions By J. Cleymans, H. Satz, E. Suhonen, and D.W. von Oertzen (With 7 Figures)	264
Dilepton Production in Nuclear Collisions By C.A. Dominguez and M. Loewe (With 12 Figures)	277

Quantum Chromodynamics and the Nucleon–Nucleon Interaction By A. Faessler (With 6 Figures)	290
Resonant Dimeson Decay Mechanism in $K \rightarrow \pi\pi$ Decays By R.D. Viollier and P. Zimak (With 2 Figures)	307
All That RAZ – An Overview of Radiation Amplitude Zeros By J.H. Reid and G. Tupper (With 6 Figures)	317
Quark and Gluon Structure of Nuclei By J.P. Vary (With 25 Figures)	331
Index of Contributors	369
