# Ion Implantation in Diamond, Graphite and Related Materials

With 108 Figures

**Springer-Verlag**

Berlin Heidelberg New York

London Paris Tokyo

Hong Kong Barcelona

Budapest

# Contents

1. Introduction . . . . .	1
2. Carbon Materials: Graphite, Diamond and Others . . . . .	3
2.1 Structure and Materials . . . . .	5
2.1.1 Graphite . . . . .	5
2.1.2 Graphite-Related Materials . . . . .	6
2.1.3 Carbon Fibers . . . . .	8
2.1.4 Glassy Carbon . . . . .	9
2.1.5 Graphite Intercalation Compounds . . . . .	11
2.1.6 Diamond . . . . .	12
2.1.7 CVD Diamond Films . . . . .	13
2.1.8 Diamond-Like Carbon Films . . . . .	15
2.2 Properties of Graphite . . . . .	16
2.2.1 Lattice Properties . . . . .	16
2.2.2 Electronic and Transport Properties . . . . .	17
2.2.3 Optical Properties . . . . .	20
2.2.4 Thermal Properties . . . . .	20
2.2.5 Mechanical Properties . . . . .	21
2.3 Properties of Diamond . . . . .	21
2.3.1 Lattice Properties . . . . .	21
2.3.2 Electronic and Transport Properties . . . . .	21
2.3.3 Optical Properties . . . . .	23
2.3.4 Thermal Properties . . . . .	24
2.3.5 Mechanical Properties . . . . .	25
2.3.6 Chemical Properties . . . . .	25
3. Ion Implantation . . . . .	26
3.1 Energy Loss Mechanisms . . . . .	26
3.2 Parameters of Implantation . . . . .	29
3.2.1 Energy of Implantation . . . . .	30
3.2.2 Implantation Range . . . . .	31
3.2.3 Implantation Fluence (Dose) and Beam Current (Dose Rate) . . . . .	31
3.3 Radiation Damage . . . . .	32
3.4 Energy Loss Simulations . . . . .	34

4. Ion Beam Analysis Techniques . . . . .	38
4.1 Rutherford Backscattering Spectroscopy . . . . .	39
4.2 Nuclear Reaction Analysis . . . . .	42
4.3 Particle Induced X-Ray Emission (PIXE) . . . . .	43
4.4 Channeling . . . . .	44
4.5 Elastic Recoil Detection (ERD) . . . . .	48
4.6 Secondary Ion Mass Spectroscopy (SIMS) . . . . .	49
4.7 Channeling Studies in Graphite-Based Materials . . . . .	50
4.8 Stoichiometric Characterization of GICs by RBS . . . . .	54
4.9 Ion Channeling in GICs . . . . .	56
5. Other Characterization Techniques . . . . .	59
5.1 Raman Spectroscopy . . . . .	59
5.2 Other Optical and Magneto-Optical Techniques . . . . .	64
5.3 Electron Microscopies and Spectroscopies . . . . .	66
5.4 X-Ray-Related Characterization Techniques . . . . .	70
5.5 Electronic Transport Measurements . . . . .	71
5.6 Electron Spin Resonance (ESR) . . . . .	72
5.7 Hyperfine Interactions . . . . .	75
5.7.1 Mössbauer Spectroscopy . . . . .	75
5.7.2 Perturbed Angular Correlations (PAC) . . . . .	76
5.8 Mechanical Properties . . . . .	77
6. Implantation-Induced Modifications to Graphite . . . . .	78
6.1 Lattice Damage . . . . .	78
6.2 Regrowth of Ion-Implanted Graphite . . . . .	92
6.3 Structural Modification . . . . .	101
6.4 Modification of the Electronic Structure and Transport Properties . . . . .	104
6.5 Modification of Mechanical Properties . . . . .	107
6.6 Implantation with Ferromagnetic Ions . . . . .	108
6.7 Implantation-Enhanced Intercalation . . . . .	109
6.8 Implantation with Hydrogen and Deuterium . . . . .	110
7. Implantation-Induced Modifications to Graphite-Related Materials . . . . .	115
7.1 Glassy Carbon . . . . .	115
7.2 Carbon Fibers . . . . .	124
7.3 Disordered Graphite . . . . .	125
7.4 Carbon-Based Polymers . . . . .	127
8. Implantation-Induced Modifications to Diamond . . . . .	129
8.1 Structural Modifications and Damage-Related Electrical Conductivity . . . . .	130
8.2 Volume Expansion . . . . .	136
8.3 Lattice Damage . . . . .	141

8.4	Damage Annealing and Implantations at Elevated Temperatures . . . . .	143
8.5	Electrical Doping . . . . .	148
8.6	Impurity State Identification . . . . .	153
8.7	Electronic Device Realization . . . . .	155
8.8	New Materials Synthesis . . . . .	156
8.9	Improving Mechanical Properties . . . . .	158
9.	Implantation-Induced Modifications to Diamond-Related Materials . . . . .	159
9.1	Diamond-Like Carbon (a-C:H) Films . . . . .	159
9.1.1	DC Conductivity . . . . .	161
9.1.2	Optical Characterization . . . . .	164
9.1.3	Structural Modifications and Hydrogen Loss . . . . .	166
9.1.4	Attempts to Dope a-C:H by Ion-Implantation . . . . .	171
9.1.5	Discussion of Implantation-Induced Effects in DLC . . . . .	172
9.2	Diamond Films . . . . .	173
10.	Concluding Remarks . . . . .	175
	References . . . . .	177
	Subject Index . . . . .	189
