Fundamentals of Discrete Math for Computer Science

A Problem-Solving Primer

Contents

1	Algo	orithms	, Numbers, and Machines	1
	1.1	What]	Is an Algorithm?	4
	1.2	Intege	r Algorithms and Complexity	8
		1.2.1	Prime Testing	9
		1.2.2	Real Numbers	11
		1.2.3	More Prime Testing	12
		1.2.4	Prime Factorization	14
		1.2.5	Logarithms	16
		1.2.6	Greatest Common Divisor	18
	1.3	Machi	ne Representation of Numbers	21
		1.3.1	Approximation Errors	23
		1.3.2	Base 2, 8, and 16	26
	1.4	Numer	rical Solutions	35
		1.4.1	Newton's Method for Square Roots	35
		1.4.2	The Bisection Algorithm	37
	Exer	cises		41
2	Sets	, Seque	nces, and Counting	43
	2.1	Naïve	Set Theory	43
		2.1.1	The Diabolical Librarian	46
		2.1.2	Operations on Sets and Cardinality	47
		2.1.3	The Pigeonhole Principle	49
	2.2	Seque	nces	51
		2.2.1	The Characteristic Sequence of a Subset	53
	2.3	2.2.1 Counti	The Characteristic Sequence of a Subset	53 54
	2.3	2.2.1 Counti 2.3.1	The Characteristic Sequence of a Subset ing Number of <i>k</i> -Sequences on an <i>n</i> -Set	53 54 55
	2.3	2.2.1 Counti 2.3.1 2.3.2	The Characteristic Sequence of a Subset ing. Number of k-Sequences on an n-Set. Number of Subsets of an n-Set	53 54 55 56
	2.3	2.2.1 Counti 2.3.1 2.3.2 2.3.3	The Characteristic Sequence of a Subset ing. Number of k-Sequences on an n-Set. Number of Subsets of an n-Set Number of k-Permutations on an n-Set.	53 54 55 56 56
	2.3	2.2.1 Counti 2.3.1 2.3.2 2.3.3 2.3.4	The Characteristic Sequence of a Subset ing. Number of k-Sequences on an n-Set. Number of Subsets of an n-Set Number of k-Permutations on an n-Set. n-Factorial.	53 54 55 56 56 57
	2.3	2.2.1 Counti 2.3.1 2.3.2 2.3.3 2.3.4 2.3.5	The Characteristic Sequence of a Subset ing. Number of k-Sequences on an n-Set. Number of Subsets of an n-Set Number of k-Permutations on an n-Set. n-Factorial. Number of k-Subsets of an n-Set	53 54 55 56 56 56 57 58
	2.3	2.2.1 Counti 2.3.1 2.3.2 2.3.3 2.3.4 2.3.5 2.3.6	The Characteristic Sequence of a Subset ing. Number of k-Sequences on an n-Set. Number of Subsets of an n-Set Number of k-Permutations on an n-Set. n-Factorial. Number of k-Subsets of an n-Set Pascal's Triangle	53 54 55 56 56 56 57 58 61
	2.3	2.2.1 Counti 2.3.1 2.3.2 2.3.3 2.3.4 2.3.5 2.3.6 2.3.7	The Characteristic Sequence of a Subset ing. Number of k-Sequences on an n-Set. Number of Subsets of an n-Set Number of k-Permutations on an n-Set. n-Factorial. Number of k-Subsets of an n-Set Pascal's Triangle Counting Algorithmically (Without a Formula).	53 54 55 56 56 56 57 58 61 64

	2.4	Infinite Sequences and Complexity Functions	. 67
		2.4.1 The Towers of Hanoi	. 70
		2.4.2 Bad Complexity Functions	. 73
	Exe	cises	. 74
3	Boo	lean Expressions, Logic, and Proof	. 77
	3.1	The Greedy Algorithm and Three Cookie Problems	. 77
		3.1.1 The Greedy Algorithm	. 78
	3.2	Boolean Expressions and Truth Tables	. 82
		3.2.1 The Negation Operator	. 82
		3.2.2 The Conjunction Operator	. 82
		3.2.3 The Disjunction Operator	. 83
		3.2.4 The Conditional Operator	. 85
		3.2.5 The Biconditional Operator	. 87
	3.3	Predicates and Quantifiers	. 88
	3.4	Valid Arguments	. 89
	3.5	Examples of Proofs	. 93
		3.5.1 Direct Proof	. 96
		3.5.2 Indirect Proof	. 97
		3.5.3 Cantor's Diagonalization Process	. 100
	3.6	Mathematical Induction	. 102
		3.6.1 Strong Induction	. 113
	3.7	Proofs Promised in Chap. 1	. 115
		3.7.1 Russian Peasant Multiplication Is Correct	. 115
		3.7.2 Resolving the Cake Cutting Conundrum	. 117
		3.7.3 Casting Out Nines	. 119
		3.7.4 Euclid's Algorithm for GCD Is Correct	. 121
	3.8	The Proof Promised in Chap. 2	. 124
	Exer	cises	. 126
4	Sear	ching and Sorting	131
	4.1	Searching	. 131
		4.1.1 Searching an Arbitrary List	. 131
		4.1.2 Searching a Sorted List	. 133
	4.2	Branching Diagrams	. 139
		4.2.1 A Second Version of Binary Search	. 139
	4.3	Sorting	. 147
		4.3.1 Selection Sorts	. 147
		4.3.2 Exchange Sorts	. 150
	4.4	Binary Trees with (at Least) n! Leaves	. 157
	4.5	Partition Sorts	. 165
	4.6	Comparison of Sorting Algorithms	. 178
		4.6.1 Timings and Operation Counts	. 178
	Exer	cises	. 179

5	Gra	phs and	d Trees	183
	5.1	Introd	uction	183
		5.1.1	Degrees	188
		5.1.2	Eulerian Graphs	188
		5.1.3	Hamiltonian Graphs	189
	5.2	Paths,	Circuits, and Polygons	190
		5.2.1	Subgraphs Determined by Paths	192
	5.3	Trees.	~ 1	194
		5.3.1	Traversals	195
	5.4	Edge-	Weighted Graphs	209
		5.4.1	Shortest Paths	213
