SUPERACIDS AND ACIDIC MELTS AS INORGANIC CHEMICAL REACTION MEDIA

Thomas A. O'Donnell

Contents

| 1. | Self-ionization and Acid-base Equilibria | 1 |
|-----------|---|-----|
| | in Protonic and Nonprotonic Liquids | |
| 2. | Experimental Determination of Solute | 27 |
| | Speciation and of Acidity and Basicity in | |
| | Highly Acidic Media | |
| 3. | Lewis Acidity in Protonic Superacids | 55 |
| 4. | Polyatomic Cations of Nonmetallic | 81 |
| | Elements | |
| 5. | Homopolyatomic Cations of Metallic | 117 |
| | Elements | |
| 6. | Transition Element Cations in "Normal" | 129 |
| | Oxidation States in Protonic Superacids | |
| | and Acidic Melts | |
| 7. | Cations of Transition Elements in Low | 161 |
| | Oxidation States | |
| 8. | Polyatomic Anions in Basic Media | 189 |
| 9, | Principles Underlying Stabilization of | 199 |
| | Cationic Species in Acidic Media | |
