

Yurii A. Kravtsov (Ed.)

# Limits of Predictability

With 62 Figures

Springer-Verlag  
Berlin Heidelberg New York  
London Paris Tokyo  
Hong Kong Barcelona  
Budapest

# Contents

<b>1. Introduction</b>	
By Yu. A. Kravtsov .....	1
References .....	5
<b>2. Forecasting Weather and Climate</b>	
By A. S. Monin and L. I. Piterbarg (With 3 Figures) .....	7
2.1 Weather and Climate .....	7
2.2 Dynamical Systems and Their Properties .....	9
2.3 Weather Predictability .....	16
2.4 Elements of Stationary Random Process Prediction Theory .....	23
2.5 Predictability of Climatic Processes .....	27
2.6 Ways to Improve Statistical Forecasting .....	35
2.7 Utilization of Forecasting Results .....	39
2.8 Conclusion .....	42
References .....	42
<b>3. How an Active Autowave Medium     Can Be Used to Predict the Future</b>	
By G. R. Ivanitskii (With 16 Figures) .....	45
3.1 Prediction .....	45
3.2 Active Autowave Media .....	46
3.3 Autowave Propagation in Energy-Restoring Active Media .....	49
3.4 Dynamics of Autowave Interaction .....	54
3.5 The External Medium Model and Its Fourier Image ....	59
3.6 Non-isochronism of Cyclic Processes .....	60
3.7 Harmonious Modulation and Modulation of Harmonics .	63
3.8 The Fourier Image Cleared by the Active Autowave Medium .....	68
References .....	73
