Summary	I
1 Introduction: Statement of the Problem and Structure of the Study	1
1.1 Empirical and Theoretical Points of Departure	5
1.2 Preliminary Remarks on the Choice of the Field of Study	11
1.3 Structure of the Study	19
2 Determinants of Natural Resource Use: Theoretical Approaches from the Field of Economics and the State of Research	20
2.1 State of the Research: an Initial Overview	22
2.2 Sustainable Development	29
2.3 Environmental and Resource Economics	36
2.4 Ecological Economics	43
2.5 Economic Analyses of the Exploitation of Tropical Forests	60
2.5.1 Utilization of the Amazon Forest from the View of Ecological Economics: Edward Barbier	61
2.5.2 Natural-resource Extraction as an Economic Dead End: The Model of Alfredo Homma	63
2.5.3 Nutrient Mining on the Agrarian Frontier and Destruction of Tropical Forests: Studies by the World Bank and IMAZON	66
2.5.4 Tropical-timber Trade and Tropical-forest Protection: The Analysis Conducted by Edward Barbier's Working Group	76
2.5.5 Tropical-forest Exploitation and Protection from the View of Allocation Theory: Studies from the Kiel <i>Institut für Weltwirtschaft</i>	80

3	Alternative Approaches to Economic Action from the Fields of Sociology and Evolutionary Economic Theory	83
3.1	Sociological Approaches to Economic Action	83
3.1.1	Rational Action and the Determinants of Social Action	84
3.1.2	Is Sociology "Blind to Nature"? Nature in Giddens' Theory of Structuration	96
3.2	Theories of Technical Change: Innovation, Evolutionary Processes, and Path Dependency	98
3.2.1	Systematic Overview and Basic Concepts	99
3.2.2	Economic Action as Action in Routines	106
3.2.3	The Process of Economic and Technical Change as an Evolutionary Process	111
3.3	Conclusions for the Methodological Approach Pursued by the Present Study	119
3.3.1	Conclusions	119
3.3.2	Stages and Sources Involved in the Empirical Study	130
4	Tropical Ecology and Sustainable Forestry	131
4.1	Features of Forest Ecosystems in the Tropics	134
4.2	Sustainable Forestry in the Tropics	143
4.3	Effects of Sustainable Tropical-forest Management on Company Management	157
4.4	Ecological Certification of Forest Management	160
5	The World Market for Tropical Timber	171
5.1	Quantitative Developments in the World Timber Market	172
5.2	Qualitative Developments in the World Timber Market	187
6	The Timber Industry in Pará and in Brazil in the 1990s	194
6.1	The Economic Framework Conditions	197
6.2	The Timber Industry in Brazil and in Pará	207

6.3	Roundwood Production	217
6.4	Sales	223
6.5	Environmental Regulation of Forest Utilization and Timber-processing	230
6.6	Innovation Pressure and Innovativeness	244
6.7	Preliminary Conclusions on the Dominant Action Patterns in the Timber Industry	265
7	Historical Reconstruction of the Development of Pará's Timber Industry	266
7.1	The Economic Framework Conditions	269
7.2	Pará's Timber Industry between the 1960s and 1980s	279
7.2.1	The 1960s	279
7.2.2	The 1970s and 1980s	284
7.2.3	The Development of Pará's Timber Industry between 1959 and 1985, as Mirrored by Statistics	294
7.3	Roundwood Production	307
7.3.1	The 1950s and 1960s	307
7.3.2	The 1970s and 1980s	309
7.3.3	The Development of Roundwood Production between 1975 and 1991, as Mirrored by Statistics	312
7.4	Sales	317
7.4.1	The 1960s	317
7.4.2	The 1970s and 1980s	322
7.5	The Model for the Development of the Timber Sector	326
7.5.1	The 1960s	327
7.5.2	The 1970s	331
7.5.3	The 1980s	339
7.6	Conclusions	340
8	Patterns of Resource Utilization and Foreign Trade: Results of the Study and Conclusions	352
8.1	Results of the Study	352
8.2	The Results Seen in their Theoretical Context	357

8.3	Action Options	366
9	Conclusions for Development Cooperation	373
9.1	Development Cooperation and Sustainable Development in Pará	373
9.2	Promotion of a Sustainable Development of the Tropical-timber Industry	381
	Notes	384
	Bibliography	407
	Appendix	433
