

# APPLICATION OF ADVANCED MATERIAL TECHNOLOGY IN FLUID MACHINERY

Papers presented at a Seminar organized by the Fluid Machinery Committee of the Power Industries Division of the Institution of Mechanical Engineers, and held at the Institution of Mechanical Engineers on 27 February 1990.

## CONTENTS

Process pump design for hot abrasive service <i>R. Palgrave</i>	1
Application of wear resistant materials, coatings, and surface treatments to fluid machinery <i>A. A. Grant and L. M. Phillips</i>	11
Combating wear and corrosion in fluid machinery by using thermal spraying <i>K. A. Harrison</i>	23
The combating of cavitation erosion by the use of cold applied tough coatings <i>C. J. Morton</i>	33
A new erosion resistant high chromium white iron <i>C. I. Walker and P. G. Huggett</i>	41
Cold applied coatings <i>R. Campbell</i>	49
