Contents

Invited Papers:

Microstructural evolution during straining of discontinuously reinforced metal matrix composites C.Y. Barlow	1
Elevated temperature morphological instabilities in metal matrix composites T.H. Courtney	17
Thermal cycling of metal matrix composites B. Derby	31
The microstructure and strength of particulate metal-matrix composites F.J. Humphreys, A. Basu and M.R. Djazeby	51
Thermomechanical processing of Al-SiC composites microstructure and texture Y.L. Liu, N. Hansen and D. Juul Jensen	67
Factors influencing the properties of particulate reinforced composites produced by molten metal mixing D.J. Lloyd	81
Solidification processing of reinforced metals A. Mortensen	101
Mechanisms of fracture and failure in metal matrix composites K. Schulte and K. Minoshima	123
Long term properties of metal matrix composites M. Taya, M. Dunn, and H. Lilholt	149
On the numerical modelling of metal matrix composites V. Tvergaard	173
The effect of internal stresses on deformation at room temperature. P.J. Withers, T. Lorentzen and O.B. Pedersen	189

Contributed Papers

Interfaces in cast Al-SiC composites. Effects of alloying elements and oxide layers A. Bardal and R. Høier	205
Homogenization of the constitutive law for metal matrix composite materials A. Béakou and M. Touratier	211
Fracture toughness of alumina reinforced steel produced by hot isostatic pressing J. Bendixen and A. Mortensen	217
Athermal gliding of flexible dislocations in case of precipitation hardening by means of simulation calculations M. Beyer and D. Rönnpagel	223
Residual stresses in matrix and reinforcement phases of SiC short fiber reinforced aluminum matrix composite, application of X-Ray diffraction to their determination J.P. Bonnafé and J.L. Lebrun	229
Modelization of microstructure influence on the macroscopic properties of discontinuously reinforced MMCs N. Bourgeois, J. Kryze, D. Baptiste and D. François	235
The effect of particle size and volume fraction on deformation and recrystallisation textures in Al-SiC metal-matrix composites A.W. Bowen, M. Ardakani and F.J. Humphreys	241
Extrusion of SiC_p reinforced Al-alloys S. Brusethaug and O. Reiso	247
Corrosion resistance of fibre reinforced aluminium N.K. Bruun and K. Nielsen	257
Mechanical Properties and abrasion resistance of some MMC's produced by Hip U. Bryggman and J.O. Linqvist	265
Diffusion bonding of metal matrix composites R.S. Bushby, V.D. Scott and R.L. Trumper	271
Texture in neodymium-iron-boron permanent magnets P. Bøjsøe-Jørgensen, D. Juul Jensen, K.N. Clausen, K.A. Thorsen and S. Hiroseawa	277
The onset of yielding in a $\text{SiC}_{(p)}$ reinforced Al alloy S.F. Corbin and D.S. Wilkinson	283

Development of microsphere reinforced metal matrix composites M.J. Couper and K. Xia	291
Mechanical properties of zinc-aluminium matrix composites reinforced by unoriented fibres M.A. Dellijs, H. Schobbens, M. Van Den Neste, B. Lips, J. Wégria and F. Delannay	299
The effect of SiC particle size on the fracture toughness of a metal matrix composite T.J. Downes and J.E. King	305
Forging of safil reinforced aluminium alloy G. Durrant, V.D. Scott, S.E. Clift and R.L. Trumper	311
Damage accumulation in an Al-SiC composite J.D. Embury, J. Newell and S. Tao	317
Creep behavior of SiC/Al composite at elevated temperatures T. Endo, M. Chang, N. Matsuda and K. Matsuura	323
Residual stress in Al-alloy matrix-short fiber composites and their possible effect on mechanical properties T. Ericsson, C. Persson and A. Ohlsson	329
A study of the recrystallization behaviour of a deformed aluminium composite reinforced with alumina particles M. Ferry, P. Munroe, A. Crosky and T. Chandra	337
Effects of thermomechanical processing on the mechanical properties of a silicon carbide particulate reinforced aluminium alloy S.M. Flitcroft, R. Moreton and C.J. Peel	343
Thermal cycling creep of short fibre MMC's-measurement and modelling of the strain cycle J.A.G. Furness and T.W. Clyne	349
Effect of particle distribution on internal stresses in a fibre-reinforced composite: an analytical approach H. Gehanno and Y.J.M. Brechet	355
Transport properties of titanium-based short fibre composites F.H. Gordon and T.W. Clyne	361

Deformation and fracture of an $\text{Al}_2\text{O}_3/\text{Al}$ metal matrix composite I.W. Hall	367
A model for the microplastic strains of particulate reinforced metal matrix composites R. Hamann and R. Fougères	373
Micromechanical crack analysis for metal-matrix fibrous composites with partially plastified matrix materials K.P. Herrmann and Y.Q. Wang	379
Die Casting of duralcan composites W.R. Hoover	387
A study of the fibre failure in a single fibre metal matrix composite by using an elastoplastic finite element method F. Hugot, M. Boivin and R. Fougères	393
Structure and plasticity of aluminum reinforced with continuous alumina fibres J.A. Isaacs and A. Mortensen	399
Particulate reinforced aluminium mmc's produced by spray deposition P.S. Jensen and W. Kahl	405
Internal stresses and the cyclic deformation of a discontinuous fibre reinforced aluminium composite B. Johannesson, S.L. Ogin and P. Tsakiropoulos	411
Hot extrusion of Al-SiC. Texture and microstructure D. Juul Jensen, Y.L. Liu and N. Hansen	417
Properties of PM manufactured 6061 Al-base composite materials strengthened with δ -alumina fibres J. Kaczmar and K.U. Kainer	423
Alloying effects on the properties of alumina-magnesium-composites K.U. Kainer	429
Extrusion of short fibre reinforced magnesium composites K.U. Kainer and A. Tertel	435
Wetting - dewetting phenomena in pressure infiltrated Al-composites H. Kaufmann, Th. Schmitt and H.P. Degischer	441

Microstructure and creep properties of an Al alloy/ Al_2O_3 fibre composite J. Komenda and P.J. Henderson	449
Elaboration of a coextruded graphite fibers-aluminium MMC; experimental and analytical relationship between microstructure and sensitivity to damage initiation J. Kryze, P. Bréban, D. Baptiste and D. François	455
An overview on intermetallic matrix composites Y. Le Petitcorps, F. Della Martina and J.M. Quenisset	461
Thermal cycling of discontinuously reinforced SiC/Al composites A. Levy and J.M. Papazian	475
Transformation-induced stress relief in aluminium-zirconia MMCs C.A. Lewis, W.M. Stobbs and P.J. Withers	483
A new device for in-situ loading of samples during neutron diffraction strain measurements T. Lorentzen and N. Sørensen	489
Corrosion resistance of aluminium-silicon carbide composite materials E. Maahn and S. Roepstorff	497
6061 processing alloy- Al_2O_3 platelets aluminium composite and mechanical properties V. Massardier, D. Dafir, M. R'Mili, P. Merle, R. Barchelard and A. Faure	503
Optimization of the processing parameters and mechanical behaviour of a carbon fibre reinforced aluminium matrix composite J.J. Masson, K. Weber, M. Miketta and K. Schulte	509
Effect of strain rate on mechanical properties of aluminum-silicon carbide composites P. Mayer	515
Damage of metal matrix composites during thermal cycling P.Y. Menet, Y.J.M. Bréchet and X.Dumont	523

A first report on the microstructural integrity and mechanical performance of friction welded Al-SiC composites O.T. Midling, Ø. Grong and M.Camping	529
Fracture in particulate-reinforced metal matrix composites P.M. Mummery and B. Derby	535
Age-hardening of the matrix in δ -alumina fibre reinforced A356 alloy composites A. Muñoz, J. Goñi and J.F. Liceaga	543
Revealing microstructures of MMC's J.A. Nielsen and K. Bille	551
Wettability of SiC fibers by liquid Al alloys and reaction between SiC fibres and liquid alloy K. Nogi, K. Ogino and N. Iwamoto	559
Numerical, analytical and physical modelling of deformation and stress relaxation in an MMC O.B. Pedersen and P.J. Withers	565
Vibration excited low pressure casting, a new route to produce preform based metal matrix composite materials L. Pennander and C-H. Andersson	575
Properties of liquid phase sintered stainless steel-particulate composites N. Petersen	581
Texture development in Cu-W composites W.J. Poole, U.F. Kocks, R.E. Bolmaro and J.D. Embury	587
Texture development in metal matrix composites after extrusion and subsequent annealing A. Poudens, T.Bretheau and B.Bacroix	595
The effect of internal stresses on precipitation behaviour in particulate reinforced Al matrix MMCs P.B. Prangnell and W.M. Stobbs	603
Effect of liquid metal processing parameters on microstructure and properties of alumina rein- forced Al base MMC L.V. Ramanathan and P.C.R. Nunes	611

Some properties of fibre reinforced aluminium produced by a high pressure die casting process N.W. Rasmussen, P.N. Hansen and S.F. Hansen	617
Aluminium based particulate composites for aerospace applications produced by different processes R. Rauh, P.-J. Winkler and P.R. Sahm	623
The effect of interfacial reaction on the mechanical behaviour of Ti reinforced with SiC and TiB ₂ particles A.J. Reeves, W.M. Stobbs and T.W. Clyne	631
Aluselect-MMC, property database for aluminium matrix composites R. Sandström and A. Årmann	637
Influence of annealing treatments upon the quality of carbon/magnesium prepgres L. Scheid, J.F. Pettier, H. Abiven, D. Valentin, J.C. Viala and G. Claveyrolas	643
Low-cycle fatigue behaviour of fibre-reinforced Al-Si-based alloys at ambient and elevated temperatures T. Seitz, J. Bär and H.-J. Gudladt	649
The effect of reinforcement shape on recrystallization in MMCs R.A. Shahani and T.W. Clyne	655
Dislocation punching from a spherical inclusion with isotropic eigenstrains S. Shibata, M. Taya, T. Mori and T. Mura	661
Effects of clustering on the creep properties of whisker reinforced aluminium N. Sørensen	667
Precipitation in a solid-quenched, particle-reinforced Al-Si-Cu-Mg alloy: phase identification and kinetics M.J. Starink, V. Jooris and P. van Mourik	675
Effect of thermomechanical processing on the microstructure and workability of multifilamentary NbTi composite superconductors R. Taillard, C.E. Bruzek, J. Focet and Hoang-Gia-Ky	683

Mechanical alloying in the fabrication of metal matrix composites T. Tiainen,	689
Dimensional changes and transient deformations affecting a metal matrix composite during thermo-mechanical loadings D. Toitot, E. Andrieu and P. Jarry	695
Diffusional relaxation model for dynamic stress-strain behavior of discontinuously reinforced metal matrix composite H. Tsukamoto, B.H. Choi and K. Wakashima	701
High temperature structural silicide composites A.K. Vasudevan, J.J. Petrovic and K. Sadananda	707
Mechanical properties of Al-SiC particulate composites produced by a vacuum plasma spray co-deposition technique M. Vedani and G. Piatti	713
Processing and properties of Zn-Al alloy matrix composites reinforced by bidirectional carbon tissues F. Vescera, J.P. Keustersmans, M-A. Dellis, B. Lips and F. Delannay	719
A mechanism of thermal cycling-induced superplasticity in discontinuous fiber reinforced metal matrix composites K. Wakashima, H. Tsukamoto and B.H. Choi	725
Interfacial reactions in titanium alloys reinforced with C/Tib ₂ -coated SiC monofilament C.M. Warwick and J.E. Smith	735
Cavitation during tensile deformation of powder route particle-reinforced aluminium A.F. Whitehouse, R.A. Shahani and T.W. Clyne	741
Author index	749
