

Fibre Optics '84

Organised by Sira Limited

May 1-3, 1984
London, England

SPIE Volume 468

J. M. Tait
Editor

Sponsored by
Electronic Components Industry Federation
Institution of Electronic and Radio Engineers
UK Optical Sensors Collaborative Association
Institute of Measurement and Control

This SPIE publication is one of a series of proceedings of conferences, seminars, and symposia organised by Sira Limited.

Published and Distributed Worldwide by
SPIE—The International Society for Optical Engineering
P.O. Box 10, Bellingham, Washington 98227-0010 USA
Telephone 206/676-3290 (Pacific Time) • Telex 46-7053

SPIE (The Society of Photo-Optical Instrumentation Engineers) is a nonprofit society dedicated to advancing engineering and scientific applications of optical, electro-optical, and optoelectronic instrumentation, systems, and technology.

Contents

| | |
|---|------------|
| Conference Committee | v |
| Introduction | vi |
| SESSION 1. FIBRES, CABLES AND CONNECTORS | 1 |
| 468-01 ALPD: axial lateral plasma deposition: from step to graded index structure , D. Boucher, Fibres Optiques Industries (France) | 2 |
| 468-02 Optical cable design , I. D. Aggarwal, Valtec (USA) (Abstract only) | 6 |
| 468-03 The development and testing of a field applied connector , T. Kingham, AMP of Great Britain Ltd. (England) | 9 |
| 468-04 Development of a high performance optical connector for monomode systems , H. Haag, ITT Cannon Electric GmbH (West Germany) | 15 |
| 468-05 Silicon multifiber connector and multifiber splicing—two possibilities for quick and simple connection of a large number of fibers , R. Sammueller, Siemens AG (West Germany) | 19 |
| 468-06 Fibre optics inventions assigned to the British Technology Group from universities in the United Kingdom , D. J. Grover, British Technology Group (England) | 28 |
| SESSION 2. OPTO-ELECTRONIC DEVICES | 49 |
| 468-07 Encapsulation of semiconductor lasers (fibre optic coupled types) , R. W. H. Whittle, STC Components (England) | 50 |
| 468-08 Variation of coupling ratio in graded-index couplers as a function of physical characteristics of fibre , J. M. P. Rodrigues, T. S. M. Maclean, B. K. Gazey, J. F. Miller, Univ. of Birmingham (England) | 55 |
| 468-09 The development of long-wavelength optical receivers , K. L. Monham, J. W. Burgess, P. G. McTiernan, Plessey Research (Caswell) Ltd. (England) | 62 |
| 468-10 The development of bidirectional-wavelength-multiplexing integrated module , M. Tanaka, O. Watanabe, K. Inada, Fujikura Ltd. (Japan) | 68 |
| 468-11 Recent developments in integrated optics , G. Stewart, Univ. of Glasgow (Scotland) | 74 |
| SESSION 3. SHORT AND MEDIUM DISTANCE COMMUNICATIONS | 81 |
| 468-12 A multifunction optical fibre communication system for connection between a radar head and display area , J. P. Dakin, C. K. Bovey, Plessey Electronic Systems Research Ltd. (England) | 82 |
| 468-13 MACROLAN: a high performance network , R. W. Stevens, International Computers Ltd. (England) | 88 |
| 468-14 An interactive local distribution network using fiber optic technologies , M. Triboulet, LTT/Thomson CSF (France) | 94 |
| 468-15 Fibre optics in coal mining , P. Cooper, National Coal Board (England) | 100 |
| 468-16 A progress report on the introduction of fibre optics into rugged environments , P. H. Bourne, STC Telecommunications Ltd. (England) | 104 |
| 468-17 Fibre optic data links for military applications , M. H. Coden, Codenoll Technology Corp. (USA); P. A. Blott, Systron Donner Ltd. (England) | 112 |
| 468-18 The fibre optic solution to 1553B-1773 databus , J. Hankey, K. L. Monham, J. W. Burgess, A. C. Carter, Plessey Research (Caswell) Ltd. (England) (Abstract only) | 122 |
| SESSION 4. TELECOMMUNICATIONS | 123 |
| 468-19 Single-mode fibre systems—the answer for trunk telecommunications , M. J. Gibson, BICC Telecommunication Cables Ltd. (England); P. Morris, Plessey Telecommunications Ltd. (England); A. C. Carter, Plessey Research (Caswell) Ltd. (England) | 124 |
| 468-20 Four-channel wavelength division multiplexing and its application to the BIGFON project of the German post office , W. Rohrbeck, Quante Lasertechnik GmbH (West Germany) | 132 |
| 468-21 A study of core concentricity error measurement and the implications for monomode systems , G. Warnes, C. A. Millar, British Telecom Research Labs. (England) | 138 |
| 468-22 Installation testing of optical telecommunication cable systems , S. J. Fielding, F. M. Murphy, BICC Telecommunication Cables Ltd. (England) | 145 |
| 468-23 Line coding for 140 Mb/s optical fibre digital line systems , G. A. M. Abbas, L. J. Rysdale, Plessey Telecommunications Ltd. (England) | 150 |

| | |
|--|-----|
| SESSION 5. INDUSTRIAL APPLICATIONS | 159 |
| 468-24 Coherent sources in optical fibre gyroscopes , I. P. Giles, D. Uttam, Univ. of Strathclyde (Scotland); D. Vickers, University College London (England); B. Culshaw, Univ. of Strathclyde (Scotland) | 160 |
| 468-25 Optical fiber signal processing , B. Culshaw, Univ. of Strathclyde (Scotland) | 167 |
| 468-26 Fibre optics in automobiles , A. L. Harmer, Battelle-Geneva (Switzerland) | 174 |
| 468-27 The potential for fibre-optic sensors in the nuclear power industry , A. Hooper, A.E.R.E., Harwell (England) | 186 |
| 468-28 The applications of fibre optics in gas turbine engine instrumentation , I. Davinson, Rolls-Royce Ltd. (England) .. | 190 |
| 468-35 Application of fibre optics in the computer graphics revolution , C. P. Wyles, Walmore Electronics Ltd. (England) | 201 |
| SESSION 6. FIBRE OPTIC TRANSDUCERS | 207 |
| 468-29 Fibre optic sensors—will they be fact or fiction? P. McGeehin, CEC Instrumentation Ltd. (England) | 208 |
| 468-30 Developments of intensity, frequency and wavelength-modulated optical fibre sensors using incoherent light and multimode fibres , B. E. Jones, Univ. of Manchester Institute of Science and Technology (England) | 210 |
| 468-31 Analogue and digital extrinsic optical fibre sensors based on spectral filtering techniques , J. P. Dakin, Plessey Electronic Systems Research Ltd. (England) | 219 |
| 468-34 The use of extrinsic optical sensors in process control applications , P. Duesbury, Optronics Ltd. (England) | 227 |
| 468-32 Fibre optic laser Doppler velocimetry , J. D. C. Jones, R. K. Y. Chan, M. Corke, A. D. Kersey, D. A. Jackson, Univ. of Kent (England) | 229 |
| 468-33 A passive all-dielectric field probe for rf measurement using the electro-optic effect , J. P. Dakin, M. G. Holliday, Plessey Electronic Systems Research Ltd. (England) | 237 |
| Author Index | 241 |
| Subject Index | 242 |
