

2nd German-Chinese Electronics Week

October 7th to 11th, 1991

Shanghai

Organized by:

Bundesministerium für Forschung und Technologie (BMFT)
Ministry of Machinery and Electronics Industry (MMEI)

Proceedings of Congress: Innovative Developments and Applications of Microelectronics and Information Technology

Edited by: Prof. Dr. E. Raubold

UB/TIB Hannover 89
111 845 823

vde-verlag gmbh · Berlin · Offenbach

Contents

Plenary

Friedrich, H., et.al., Siemens AG, Munich <i>The European Microelectronics Industry and its Challenge for the Nineties</i>	15
Lien, Y. Edmund, et. al., Beijing Integrated-Circuit Design Center <i>Panda – An Integrated CAD System for VLSI Design</i>	27
Giloi, Wolfgang, Prof. Dr., GMD Research Center for Innovated Computer Systems and Technology, Berlin (to be presented by Dr. Peter Behr, GMD, Berlin) <i>Trends in Computer Development from Superworkstations to Massively Parallel Supercomputers</i>	35
Reichl, H., Prof. Dr.-Ing., Techn. Univ. Berlin <i>Simulation Techniques and Technologies for Multi-Chip-Modules</i>	57

Sessions: Information Technology

Böhme, Johann F., Prof. Dr., et .al., Ruhr-Universität Bochum <i>Highly Parallel and Pipelined Computing Using CORDIC Processors and Applications to Computer Graphics, Signal Processing and Linear Algebra</i>	65
Braeuning, Günther, Dipl.-Phys. Siemens AG, Representation Office, Beijing <i>New Trends in PABX Technology</i>	75
Brüdigam, Claus, Dipl.-Ing., et. al., Universität der Bundeswehr München, Neubiberg <i>Autonomous Road Vehicle Guidance by Machine Vision</i>	87
Dong, Zhendong, CS&S, Beijing <i>Machine Translation: An attractive research in Information Techniques</i>	95
Fang, Di-Tang, et. al., Tsinghua University, Beijing <i>Introduction to a speech-to-text system</i>	105
Gu, Guanqun, et. al., Southeast University, Nanjing <i>CIMS in China</i>	111
Haeneit, Karin, Dr., GMD, Darmstadt <i>A Text Model Based View On Machine Translation</i>	117
Hegering, Heinz-Gerd, Prof. Dr., University of Munich and Leibniz-Computing Center, Munich <i>High Speed Communication Networks for the German Scientific Community</i>	125
Jing, Yun Zou, et. al., Institute of Acoustics, Academia Sinica <i>A Speech Output System Based on Parallel Formant Synthesizer and Chinese Syllable Library</i>	139
Kaufmann, Peter, Dr., DFN-Verein, Berlin <i>Deutsches Forschungsnetz – DFN – A Brief Description</i>	143
Kunze, Jürgen, Prof. Dr., Zentralinstitut für Sprachwissenschaft, Akademie der Wissenschaften, Berlin <i>Some Actual Issues in Computational Linguistics</i>	155
Linnemann, Heinz, Dipl.-Ing., IPK, Berlin <i>Distributed Fault-Tolerant CIM-Structures – The BERCIM-Project</i>	161
Liu, Jinde, et. al., University of Electronic Science and Technology, Chengdu <i>Making UNIX System Process Chinese Information</i>	173

Neugebauer, Klaus, Dr., Softlab, Munich <i>The International Emergence of Enterprise CASE</i>	183
Rieger, Burghard B., Prof. Dr., University of Trier <i>Reconstructing Meaning from Texts. A Computational View on Natural Language Understanding</i>	193
Runde, Zhou et .al., Tsinghua University, Beijing <i>An Architectural Survey and Simulation of RISC Processors</i>	201
Sengen, Roland, PSI, Hamburg <i>CIM – state-of-art in Germany</i>	207
Schneider, Wolfgang, GMD, Darmstadt <i>Security in Networking</i>	209
Tong, Zhipeng, Prof. Dr., CAEIT, Beijing <i>OSI Network Study and Standardization in China</i>	221
Wang, Xuan, Prof., Peking University <i>Special Hardware and Software for Chinese Electronic Publishing System</i>	229
Wang, Jia-yun, NCI, Beijing <i>Development of Array Processor (AP) in China</i>	237
Wray, Francis, Dr., Parsytec Computer, Aachen <i>The European Style of High Performance Computing</i>	247
Xia, Peisu, et. al., Institute of Computing Technology, Academia Sinica, Beijing <i>The Parallel Architecture of BJ Computer Series</i>	265
Xie, Zhiliang, et. al., Shanghai Jiao Tong University <i>Development of Prolog Programming Environment and Architecture for AI Application</i>	271
Yang, Tianxing, Prof., MMEI, Beijing <i>A brief Review of China's Computer Industry</i>	281
Yang, Fu-qing, et. al., Beijing University <i>An Integrated Software Engineering Support Environment</i>	291
Yongqiang, Sun, et. al., Shanghai Jiao Tong University <i>Algebraic Transformation for the Synthesis of Systolic Arrays</i>	299
Zhao, Xiaofan, NCI, Beijing <i>Research and Application of OSI Standards in China</i>	309
Zheng, Weimin, et. al., Tsinghua University, Beijing <i>PGR: an Extended Parallel Graph Reduction Architecture</i>	315

Sessions: Microelectronics

Bierhenke, H., et. al., Siemens AG, Munich <i>Impact of Physics on Process and Device Simulation</i>	323
Chen, Youjia, et. al., Wuxi Microelectronics Corporation <i>Quality Control and Yield Improvement in IC Production</i>	331
Chen Xing, Bi, University of Electronic Science and Technology, Chengdu <i>Power MOST and Merged Devices</i>	339
Elzenhöfer, Alfons, et. al., Philips, Nürnberg <i>GSM – A Paneuropean Digital Mobile Communication System</i>	347
Hauenschild, W., Siemens Nixdorf Informationssysteme AG, Paderborn <i>Frameworks and Design Environments</i>	355
Heckl, Herwig, Siemens Nixdorf Informationssysteme, Munich <i>CAD-Framework and Design Tool Integration Standards</i>	363

Kaschlik, Knut, Dr., Jenoptik Carl Zeiss Jena GmbH, Jena <i>Methods and Equipment of E-Beam Technology in Microelectronics</i>	371
Körner, W., Telefunken Systemtechnik, Ulm <i>Microelectronics for MM-Wave Applications</i>	381
Kroy, Walter, Messerschmitt Bölkow Blohm GmbH, Munich <i>Microsystems Technology: Principles and Applications</i>	389
Liang, Chunguang, Hebei Semiconductor Research Institute, Shijiazhuang, MMEI <i>Silicon Static Induction Transistors</i>	397
Liang, Jie, et. al., Beijing IC Design Center <i>ASIC Design with VENUS System</i>	403
Lin, Zhenghui, VLSI Research Institute, Shanghai Jiao Tong University <i>Integrated Circuit CAD Two-Way System</i>	407
Lin, Jinting, Nanjing Solid State Devices Research Institute <i>Progress of GaAs Devices and MMICs</i>	415
Lueder, Ernst, Stuttgart University <i>Fiat Active-Addressed LC-Displays for Direct View and Projection Systems</i>	419
Mucha, Joachim, Hannover University <i>Advanced Methods for Testing VLSI Circuits</i>	427
Pan, Feng, et. al., Zhejiang University <i>Description of a Length-3 Convolver and its Application in Image Processing</i>	435
Pirsch, Peter, Hannover University <i>VLSI Architectures and Implementations for Digital Video Coding</i>	439
Ryssel, Heiner, et. al., Fraunhofer-Arbeitsgruppe für Integrierte Schaltungen, Erlangen, Erlangen University <i>Process Modelling and Simulation</i>	447
Scade, Andreas, et. al., ZMD GmbH, Dresden <i>Microsystems based on VLSI integrated circuits</i>	457
Su, Li-Man, Beijing Electron Tube Factory <i>A Quasi-Planar InAlAs / InGaAs HBT with Two-Sided Base Stripes</i>	465
Tang, Gouliang, Prof., et. al., Wuxi Microelectronics Corporation <i>Real Time Image Processing and its VLSI Realizable Scheme</i>	471
Tang, Pushan, Prof., et. al., CAD Lab. of E.E.Dep. Fudan University, Shanghai <i>The Algorithmic Aspects of Fudan Integrated Circuit Computer-Aided Design and Verification System</i>	477
Tegtmeier, Gerhard, Dipl.-Ing., Siemens AG, Munich <i>Cleanroom Techniques</i>	485
Tihanyi, Jenő, Siemens AG, Munich <i>Power MOS Devices</i>	493
Wan, Qun, General Research Inst. for Nonferrous Metals, Peking <i>Some Progress in CZ Crystal Growth and Characterization in China</i>	501
Wang, Yangyuan, et. al., Inst. of Microelectronics, Peking University <i>A Submicrometer Cobalt Salicide Process for VLSI</i>	509
Wang, Shu-jun, et. al., Hebei Semiconductor Research Institute, Shijiazhuang, MMEI <i>0.4 μm Gate Length Pseudomorphic InGaAs HEMT's</i>	515
Xiangdong, Wei Daozheng, Inst. of Computing Technology, Academia Sinica, Beijing <i>Current Development of Design for Testability</i>	521
Yu, Zhongyu, Ministry of Machinery and Electronics Industries, Beijing <i>China's IC Industry</i>	529
Deutrich, Klaus-Dieter, Dipl.-Ing., Siemens AG, Munich <i>A modern Approach for Technology Transfer</i>	537
