

Electrochemical Methods

in

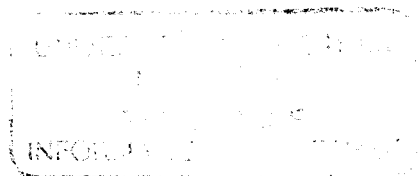

Corrosion Research

✓ 222-1111
Proceedings of the 4th International Symposium
held in Espoo, Finland, July 1-4, 1991

Editor

Olof Forsén

Laboratory of Corrosion and Material Chemistry
Helsinki University of Technology
SF-02150 Espoo
Finland

TRANS TECH PUBLICATIONS

Switzerland - Germany - UK - Australia - USA

TABLE OF CONTENTS

I. APPLICATION OF ELECTROCHEMICAL TECHNIQUES TO VARIOUS CORROSION PROBLEMS

Test Methods for Microbiologically Influenced Corrosion (MIC) in Marine Environments

B. Little, P. Wagner and F. Mansfeld 1

Frequency and Time Resolved Measurements at Rotating Ring-Disc Electrodes for Studying Generalized and Localized Corrosion

F. Huet, M. Keddam, X.R. Nova and H. Takenouti 25

Use of the Ring-Disk Electrode for the Study of Soluble Corrosion Products

T. Laitinen, K. Salmi, G. Sundholm and A. Yli-Pentti 43

Modelling Local Mass-Transfer Controlled Corrosion at Geometrical Irregularities

J. Postlethwaite, S. Nescic and G. Adamopoulos 53

Cathodic Reduction of Oxygen on Passivated Fe, Ni, Cr and Stainless Steels in Borate Solutions

M. Okuyama and S. Kambe 63

Inhibition of Corrosive Processes in Wet Atmosphere

K. Saurbier, J.W. Schultze and J. Geke 73

Initial Steps in the Microbially Influence Corrosion (MIC) of Metallic Surfaces in a Natural Marine Environment

M.A. Estes, C.N. Estrella, M. Dolores de la Rosa and R. Mortínez-Trujillo 85

Galvanokinetic Polarization Method Applied to the Pitting Corrosion Study of Stainless Steels

Q. Le Xuan and K. Vu Quang 91

The Copper Pitting Corrosion Mechanism in Sodium Perchlorate Solutions of Different pH Values and the Influence of Benzotriazole as Corrosion Inhibitor

S. González, R.M. Souto, M. Pérez Sánchez, M.M. Laz, M. Barrera, R.C. Salvarezza and A.J. Arvia 103

Study of Repassivation Behavior of Ni-P Amorphous Alloy in 3.5% NaCl Solution

D. Sun, Y. Zhu, D. Yang and R. Zhu 123

II. PHOTOELECTROCHEMISTRY AND ELECTROCHEMICAL NOISE

Semiconductive Properties of Passive Films on Amorphous Fe-base Alloys

S. Virtanen, P. Schmuki and H. Böhni 129

Effect of Long Term Ageing on the Photoelectrochemical Properties and Composition of Passive Films

C. Goux, D. Liu, D. Gorse, J.C. Joud and B. Baroux 139

A Study of Passivation/Depassivation of Carbon Steel; Electrochemical Impedance Spectroscopy vs. Potential Noise Fluctuations

P.R. Roberge, E. Halliop and V.S. Sastri 147

Photoelectrochemical Studies on Passive Films of Stainless Steels

P. Schmuki and H. Böhni

Investigation of the Electrochemical Noise Generated during the Stress Corrosion Cracking of a 42CD4 Steel Electrode	
A. Benzaid, C. Gabrielli, F. Huet, M. Jerome and F. Wenger	167

III. STUDIES OF ORGANIC AND INORGANIC COATINGS

Free Standing and Applied Polyimide Films as Studied by Electrochemical Impedance Spectroscopy	
E.K. Tan, F. Bellucci, M.J. Kloppers and R.M. Latanision	177
Approaches towards the Development of a "Stainless Aluminum"	
F. Mansfeld, Y. Wang and H. Shih	191
Characterisation of Organic Coatings using Artificial Laser Defects and Impedance Measurements	
F.M. Geenen, M.M.M. Dings, E.J. Koot, R. de Jonge, S.M. Peters and J.H.W. de Wit	201
Impedance Studies on Thin Inorganic Coatings	
J. Piippo, B. Elsener and H. Böhni	219
The Structure of Epoxy Coatings Studied with Impedance Measurements	
F.M. Geenen, H.J.W. Lenderink and J.H.W. de Wit	231
The Electrochemical Behaviour of Steel Coated with Plasma Sprayed Coatings	
O. Forsén, J. Aromaa, J-J. Kukkonen and M. Tavi	245
The Mechanism of Protection of Zinc-Rich Inorganic Coatings. A Study Based on Electrochemical Impedance Spectroscopy (EIS)	
M. Izquierdo, X.R. Nóvoa, G. Pena and L. Espada	257

IV. ELECTROCHEMICAL IMPEDANCE SPECTROSCOPY

The Estimation of Corrosion Rate from AC Impedance Measurements	
R.A. Cottis and S. Turgoose	269
Corrosion Studies on Anodized Aluminum Alloys by EIS	
L. Stockert and B. Huber	281
Application of Impedance Spectroscopy to Study the Atmospheric Corrosion of Galvanized Steel coated with Epoxy Paint	
A. Amirudin, C. Barreau, D. Massinon and D. Thierry	291
Study of Passive Films by Capacitance Measurements	
A.M.P. Simoes, M.G.S. Ferreira, B. Rondot and M. da Cunha Belo	303
Investigation of Steel Passivation in Inhibited Cooling Waters by Electrochemical Impedance Spectroscopy	
G. Gusmano, G. Montesperelli and E. Traversa	313
Effect of 3,5-dinitrosalicylic Acid on Passivation of Copper during Electrorefining	
C. Compère, E. Fréchette, and E. Ghali	329
Copper Dissolution in 1M Sulphate Media Studied by Electrochemical Impedance	
G.G.O. Gordeiro, E. D'Elia, O.E. Barcia and O.R. Mattos	345
Electrochemical Impedance Spectroscopy and Electron Microscopies Applied to the Structure of Anodic Oxide Layers on Pure Aluminium	
A. Baltat-Bazia, N. Celati, M. Keddami, H. Takenouti and R. Wiat	359

Application of the Cluster Model to the Identification of Impedance Spectra on Oxide Films	
C. Bataillon and S. Brunet	369
On the Reliability of EIS Technique for the Evaluation of Iron Corrosion Rate in Inhibited Acid Solutions	
A. Frignani, M. Tassinari, C. Monticelli and G. Trabanelli	379
EIS Study of the Pitting Process of AISI 304 Stainless Steel in Sulphuric Acid Media Containing Chloride	
P.Q. Zhan, J.X. Wu, W.Q. Zhang, X.Y. Lu and K. Wang	389

V. ELECTROCHEMICAL ASPECTS OF LOCALIZED CORROSION

Localized Corrosion - Mechanisms and Methods	
H. Böhni	401
The Application of Micro Electrodes to the Study of Pit Development	
J.L. Luo, Y.C. Lu and M.B. Ives	415
Detailed Investigation of Current Transients from Metastable Pitting Events on Stainless Steel - the Transition to Stability	
P.C. Pistorius and G.T. Burstein	429
The Effect of Sulphite on Crevice Corrosion and Pitting on Various Steels in 0.5 M Sodium Chloride	
T. Hemmingsen, L.V. Nielsen and E. Maahn	453
Limiting Temperatures for Rapid Pit Propagation in Stainless Steels	
T.J. Hakkarainen and O.A. Varjonen	471
Investigation of the Applicability of Some Pre Expressions for Austenitic Stainless Steels	
E. Alfonsson and R. Qvarfort	483
Localized Corrosion of High Alloyed Austenitic Stainless Steel	
R. Morach, P. Schmuki and H. Böhni	493
Repassivation Studies on Austenitic Stainless Steel in Chloride Solution	
R. Zhu, D. Sun, D. Li and Y. Zhu	507
The Use of Different Techniques for Determination of Pitting Corrosion Potential of Austenitic Stainless Steel	
P. Eskelinen, O. Forsén, H. Hänninen and S. Yläsaari	515

VI. NOVEL AND COMBINED TECHNIQUES FOR CORROSION RESEARCH

Simultaneous Chemical and Electrochemical Measurements of Corrosion Rates: CMT and EC	
G. Bech-Nielsen	525
Pulse Techniques in Corrosion Research	
U. König and J.W. Schultze	537
Contact Electroresistance Method for in situ Investigation of Metal Surfaces in Electrolytes	
V.A. Marichev	549
Optical and Impedance Characteristics of Passive Films on Pure Aluminum	
R. Krishnakumar and Z. Szklarska-Smialowska	565
In Situ Raman Identification of Stainless Steels Pitting Corrosion Films	
N. Boucherit, A. Hugot le Goff and S. Joiret	581

Photo Acoustic and Impedance Method to Evaluate Degradation of Coated Steels	
T. Tsuru, A. Usami and A. Nishikata	589
Determination of the Electrochemical Parameters by the Best-Fitting with Exponential Polynomials	
G. Rocchini	599
In Situ Raman Identification of Corrosion Products on Galvanized Steel Sheets	
M.C. Bernard, A. Hugot le Goff, D. Massinon, N. Phillips and D. Thierry	617
X-Ray Photoelectron Spectroscopy (XPS) and Electrochemical Analysis of the Irradiation Effects on Passive Film of Stainless Steels	
G. Capobianco, A. Glisenti, G. Granozzi and G. Palma	621
Corrosion Behaviour of 1050 Al in Dilute Acid Solutions and Acid - 3.5 % NaCl Mixtures	
P.K. Spathis	629

VII. CORROSION OF STEEL IN CONCRETE

Electrochemical Methods for the Inspection of Reinforcement Corrosion in Concrete Structures - Field Experience	
B. Elsener and H. Böhni	635
Corrosion State Evaluation of Steel in Concrete by Resistivity and Polarization Resistance Measurement	
F. Carassiti, E. Proverbio and T. Valente	647
Macro Cell Corrosion of Steel in Chloride Containing Concrete	
J. Nöggerath and H. Böhni	659
Use of Polarization Curves in the Study of the Corrosion Mechanism of the Steel in Concrete	
R. Cigna, O. Garcia, G. Rocchini and M. Broglia	677
Author Index	689
Subject Index	691
