

**Internal Friction and
Ultrasonic Attenuation in Solids**
including
High T_c Superconductors

v 2431 R108140
Proceedings of the Sixth European Conference
Academy of Mining and Metallurgy
Krakow, Poland
4-7 September 1991

Editors

L. B. Magalas

S. Gorczyca

CONTENTS

INVITED PAPERS

Damping in Composites R.D.Adams	3
Magnetomechanical Damping and Related Phenomena D.N. Beshers	17
Snoek Type Relaxations and Trapping of Hydrogen G. Cannelli, R. Cantelli, F. Cordero and F. Trequatrini	29
On the Controversy about Grain Boundary Relaxation B.J. Molinas and F. Povolo	39
Applications of the Coupling Model to some Problems in Mechanical Spectroscopy of Metals K.L. Ngai and L.B. Magalas	49
Computer Modeling of the Interaction of Dislocations with Point Defects in Regard to Internal Friction T.O. Ogurtani	61
Fatigue and Internal Friction of fcc Metals A. Vincent and R. Fougères	69

POINT DEFECTS

Isothermal Internal Friction Study of the Zener Relaxation in Cu-Al Single Crystals S. Belamri, A. Rivière and J. Woïrgard	83
Hopping Processes of Interstitials in fcc Binary Alloys and Models for Associated Anelastic Relaxations A. Biscarini, B. Coluzzi and F.M. Mazzolai	89
Magnetic After-Effects in Microcrystalline Fe-Si Ribbons W. Ciurzynska, J.W. Moron, J. Zbrozarczyk, B. Wyslocki, S. Szymura, J. Rasek and Y. Yamashiro	95
Internal Friction Studies of Carbon-Carbon Interaction in Iron G. Hanczok, M. Weller and J. Diehl	101
Hydrogen Relaxation Processes in Diluted Pd-Y Alloys G. Hauptmann, W. Ulfert and H. Kronmüller	109
Low-Temperature Anomalies of Ultrasound and Velocity in High-Purity Niobium Single Crystals P.P. Pal-Val, V.D. Natsik, H.-J. Kaufmann and A.S. Sologubenko	117
High Temperature Relaxation in Aluminium Studied by Low Frequency Mechanical Spectroscopy A. Rivière and J. Woïrgard	125
Internal Friction Study of the Oxygen Snoek Relaxation in NbH_x (0 < x < 0,83) R. Schmidt and H. Wipf	133
Hydrogen-Induced Internal Friction in Amorphous and Crystalline Intermetallic Phases H.-R. Sinnig	139
Internal Friction Measurement of 20MeV Proton Irradiated Mo H. Tanimoto, H. Mizubayashi, M. Nagasawa, S. Okuda and Y. Tagishi	145

Internal Friction Associated with Surface Oxidation of Vanadium, Niobium and Tantalum	
O. Yoshinari, H. Kakimoto and K. Tanaka	151

DISLOCATIONS

Effect of γ Irradiation on Dislocation Relaxation Peaks in Polycrystalline Molybdenum at 10 MHz Frequency	
W.E. Alnaser, M. Zein and L.B. Magalas	159
Internal Friction Investigation of γ-Peak Irreversibility in High Purity Tantalum and Niobium	
G. D'Anna and W. Benoit	165
Bordoni Relaxation and Hydrogen in Deformed Pd Single Crystals	
G. Hauptmann, W. Ulfert and H. Kronmüller	171
A New Internal Friction Peak and the Kink Pair Formation of Dislocations in Aluminium	
T. Kosugi and T. Kino	177
Lubrication Agents of Dislocation Motion at Very Low Temperature in Cold-Worked and Irradiated Aluminium	
J. Lauzier, G. Gremaud and W. Benoit	183
Ultrasonic Attenuation and Modulus Defect Associated with the Bordoni Peak in Copper Single Crystals	
A.O. Moreno Gobbi and J.A. Eiras	189
The Relation between the Stacking Fault Energy and the Bordoni Relaxation in fcc Metals	
M.L. Nó and J. San Juan	195
Study of the Kink Dynamics in Lead by the Two Waves Acoustic Coupling Method	
B. Quenet, I. Cuche, G. Gremaud and W. Benoit	201
Dislocation Relaxation Peaks in Molybdenum Single Crystals at Megahertz Frequencies	
M. Zein and W.E. Alnaser	207

DISLOCATION - DEFECTS INTERACTIONS

Low Temperature Plastically Cycled Aluminium Studied by Means of the Ultrasonic Coupling Technique	
F. Charvieux, R. Fougères and A. Vincent	215
Amplitude Dependent Internal Friction and Plasticity of Crystals	
B.K. Kardashev and S.P. Nikanorov	221
The Nature of the Low-Temperature Plasticity of Solids	
V.P. Kisel	227
On the Dislocation Motion and Multiplication under Successively Applied Compressive and Tensile Stresses	
V.P. Kisel	233
The Amplitude and Frequency Dependences of Amplitude-Dependent Internal Friction and Inelastic Deformation in Alkali-Halide Crystals	
S.B. Kustov, S.N. Golyandin and B.K. Kardashev	239
The Temperature Dependences of Internal Friction and Yield Stress in Al Alloys	
A.B. Lebedev and V.I. Ivanov	245
Complex Analysis of Interaction between Dislocations and Pinning Points in Mo with Low Carbon Contents	
D.M. Levin and S.A. Golovin	251

The Influence of the Microstructure on the Anelastic Behaviour of the 99,999% Aluminium	
M.L. No, J. San Juan, J.I. Pérez-Landazabal and C. Esnouf	255
Dislocation Internal Friction in Silicon Bronze during and after Plastic Deformation	
S. Pilecki, P. Kopania, S.B. Kustov, B.K. Kardashev, K.V. Sapozhnikov and V.M. Chernov	261
Effects of Yttrium and Hydrogen on Internal Friction in Alloys Based on Commercially-Pure Titanium	
H. Wei, Geng Dianqi, Geng Dianyu, J. Zhang and Ch. Han	267

GRAIN-BOUNDARY RELAXTION

Investigation of the Influence of Impurities on the Grain Boundary Relaxation in Thin Al-Films on Si-Substrates	
H.G. Bohn and C.M. Su	273
The Nature of the Internal Friction Grain Boundary Peak	
Yu.A. Fedorov and B.M. Darinsky	279
Interface Constraint on Grain Boundary Relaxation in Thin Al- and Al-Alloy Films on Si-Substrates	
C.M. Su and H.G. Bohn	285
Grain Boundary Relaxation under Irraditation	
A.Yu. Totsky	291

PHASE TRANSFORMATIONS

Transient Internal Friction and Martensitic Phase Transformations	
J.-E. Bidaux, G. Gremaud and W. Benoit	299
Elastic Constant Softenings and Damping Anomalies in the Vicinity of the Spin Reorientation Phase Transition in Cobalt Single Crystals	
J.-E. Bidaux and B. Cao	305
Temperature Shift of the Internal Friction Peak and the Dynamic Modulus during the Martensitic Transformation in Cu-Zn-Al Alloys	
J. Ilczuk, R. Kuska and H. Morawiec	311
Peculiarities of Internal Friction during Martensitic Transformation in N18K9M5T Steel	
J. Pastor	317
Internal Friction and Microdeformation on Cu-Al-Ni Shape Memory Alloys	
V. Recarte, J. Herreros, M.L. No and J. San Juan	323

INTERFACE EFFECTS

Rheological Properties of Metals Coated with Organic Layer	
E. Denga and B. Augustyniak	331
Acoustic Microscopy of the Growth of Intermetallic Compound at Copper/Lead-Tin Alloy Interfaces	
E. Drescher-Krasicka, H.T. Yolken, B.R. Tittmann, A.J. Shapiro and G. Lucey	337
High Temperature Anelastic Relaxation of Dense Zircon Bodies	
M. Giménez, G. Fantozzi, R. Torrecillas, S. Moya and S. de Aza	347

Internal Friction in Aluminium Alloys Reinforced with Short Saffil Fibers of Al₂O₃ Particles	
A. Lakki and R. Schaller	353
Elastic Characterization of AgNi Superlattices	
V. Pélosin, B. Rodmacq, J. Hillairet, G. Carlotti, D. Fioretto and G. Socino	359
Damping in Aluminium Alloys with Incoherent Particles	
A. Pichler, M. Weller, E. Arzt and J. Diehl	365
Heating Rate Dependent Internal Friction in the Microheterogeneous System Al 11.8% Si	
X. Zhou, R. Fougères and A. Vincent	371

APPLICATIONS TO PHYSICAL METALLURGY

Rayleigh Scattering of Ultrasonic Waves by Microstructures Obeying an Orientation Relationship with a Parent Phase	
F. Bergner and B. Köhler	379
Impurity Segregation and Precipitation - Effects on Modulus and Internal Friction	
B. Beyer, E.-M. Herbst and J. Wieting	385
Influence of Oxygen on the High Temperature Internal Friction in Ni-20 wt% Cr Alloys	
B. Cao, R. Schaller, F. Cosandey and W. Benoit	391
High Temperature Internal Friction Measurements in γ-Ni₃Al	
P. Gadaud and K. Chakib	397
Internal Friction Measurements in Ni Co Cr Al Y Ta Alloys	
P. Gadaud, A. Rivière and J. Woïrgard	401
The Loops of Modulus Defect and Internal Friction for "Loading-Unloading" in the Saturation Fatigue Stage of Iron and Steels	
S. Golovin and A. Puskár	407
The Dissipation Energy Mechanism of Mechanical Oscillations in High Chromium Ferritic Alloys in the Temperature Range -190 ... 780°C	
I.S. Golovin, V.I. Sarrak and S.O. Suvorova	413
Investigation of "475°C Embrittlement" of High-Chromium Ferritic Steels with the Use of Internal Friction	
I.S. Golovin, V.I. Sarrak and S.O. Suvorova	419
Physical Acoustics Applications of the Scanning Acoustic Microscope	
G. Gremaud, A. Kulik, P. Richard and O. Behrend	425
Low Frequency Peak of Internal Friction at $\alpha + \alpha' \rightleftharpoons \alpha + \beta$ Peritectical Reaction in Nb-H Systems	
M.H. Katz and L.V. Spivak	431
Structural Imperfections and Inelastic Properties of Boron Carbide	
D. Lezhava, G. Darsavelidze, M. Antadze and G. Tsagareishvili	437
Low Temperature Internal Friction in Reactor Pressure Vessel Steels	
A. Munier, M. Maamouri, R. Schaller and O. Mercier	443
The Influence of Hydrogen on the Anelastic Properties of High Purity Magnesium	
M.L. No, J. San Juan and C. Esnouf	449
A Correlation Among Elastic Modulus Defect, Plastic Strain and Fatigue Life of Metals	
A. Puskár	455
Investigation of the Helium Atoms Behavior in Aluminium and its Alloys by the Method of Internal Friction	
N.S. Zaritsky	461

Internal Friction of Hydrogen Charged Nickel and Ni-Base Alloys A. Zielinski and E. Lunarska	467
--	-----

POLYMERS AND AMORPHOUS MATERIALS

An Analysis of Internal Friction at the Glass Transition in a Thermoset Polymer D.P. Almond, O.G. Braddell and B. Harris	477
Connectivity, Fragility, and Non-Exponentiality of Mechanical Relaxations in Covalently Bonded Glassformers R. Böhmer and C.A. Angell	485
Viscoelastic Relaxations in Polyesters from Itaconic Acid with Cyclohexil Group in the Lateral Chain R. Diaz Calleja, L. Gargallo and D. Radic	491
Anomalous Elastic Constants in an Oriented Polymer J.Y. Duquesne and G. Bellessa	497
A Langevin Type Description of Shear Stress Fluctuations in Flows of Viscoelastic Liquids J.C. Dyre	503
Effect of H and Cu on the Damping and Modulus of Amorphous NiZr Alloys S. Kiss, Z. Cseresnyés, G. Posgay, K. Tompa and A. Lovas	505
Mechanical Spectrometry of β Relaxation of PMMA E. Muzeau and J. Perez	511
Interpretation of Lognormal Shape of Internal Friction Peaks in Amorphous Materials I. Pócsik	517
High Temperature Internal Friction in Glass Ceramic Matrix Composite A. Rivièrè, L. Fadel and J. Woïrgard	523
Investigation of Glycerol Phase Transition by the Internal Friction Method D. Samtowicz, A. Kulik and W. Benoit	529
Observation of the Glass Transition of Metallic Glasses by Low-Frequency Internal Friction Measurements with a Collette Pendulum H.-R. Sinning	535
Effects of Physical Ageing on Mechanical Relaxations of PET and PMMA G. Vigier, E. Muzeau, M.B.M. Mangion, J. Tatibouet R. Vassoille and J. Perez	541
Internal Friction Study on Phase Transition for K24 Liquid Crystal J.S. Zhu, M. Gu, Z.M. Sun, Z.F. Zhang, Y. Zhou and Z.Y. Zhou	547

MAGNETOMECHANICAL DAMPING

Interaction between Structural Defects and Magnetic Domain Walls in Fe-C Alloys B. Astie and J. Degauque	553
Magnetomechanical Damping Evaluation from Mechanical Barkhausen Effect B. Augustyniak	559
Anisotropy of Magnetomechanical Damping and Magnetic Properties of Oriented and Non-Oriented Fe-Si Alloys Y. Gannac, J. Degauque, B. Astie and J.L. Gaufier	565
Internal Friction and Magnetomechanical Coupling Dependences on Magnetic Field After Different Heat Treatments in the $Fe_{80}B_{12}Si_8$ Metallic Glasses Z. Kaczkowski	573

Thermostimulated Perpendicular Magnetic Anisotropy and "Giant" ΔE-Effect in the Amorphous Fe-B-P Alloys	
V.M. Kislov, N.P. Kobelev and Ya.M. Soifer	579
Internal Friction, Young's Modulus and Barkhausen Effect in Magnetostrictive Metallic Glasses	
L. Malkinski and B. Augustyniak	585
Magnetomechanical Interactions (Referee paper)	
Z. Kaczkowski	591

WORKSHOP ON HIGH T_c SUPERCONDUCTORS

INVITED LECTURES

Oxygen Mobility and Phase Transformations in $RBa_2Cu_3O_{6+x}$	
G. Cannelli, R. Cantelli, F. Cordero and F. Trequatrini	611
Mechanical After-Effect Studies of Oxygen Relaxation in $YBa_2Cu_3O_{7-\delta}$	
J.R. Cost and J.T. Stanley	623
Effect of Phase Transitions on Ultrasonic Velocity and Attenuation in Y-Ba-Cu-O	
E. Drescher-Krasicka	631
Sound Propagation in High T_c and Other Unconventional Superconductors	
M. Levy, S.W. Lin, B.K. Sarma, S. Adenwalla and J.B. Ketterson	643
Internal Friction Around T_c Connected with Superconductivity in High T_c Superconductors	
Y. Wang	659
Mechanical Loss Measurements on Y-Ba-Cu-O Superconductors	
M. Weller	667

CONTRIBUTED PAPERS

Internal Friction Observation of Flux-Line Assembly in High T_c Superconductors	
G. D'Anna, W. Benoit and J. Luzuriaga	683
Elastic Energy Dissipation Oxygen Mobility and Structural Stability in $YBa_2Cu_3O_{7-x}$	
E. Bonetti, E.G. Campari, V. Luprano, S. Mantovani, S. Casagrande and P. Cammarota	689
Inelastic Effects in High T_c Superconductors	
M. Gazda, B. Kusz, R. Barczynski, O. Gzowski, L. Murawski, I. Davoli and M. Berrettoni	695
Low-Temperature Relaxation and Elastic Properties of $YBa_2Cu_3O_x$ with Different Oxygen Content	
H.-J. Kaufmann, P.P. Pal-Val, L.N. Pal-Val, V.D. Natsik, J. Fickert and V.V. Demirskij	701
Dynamic Study of Oxygen Relaxations in $YBa_2Cu_3O_{7-\delta}$	
Y. Mi, D. Mari, R. Schaller and W. Benoit	707
Mechanical Loss Spectroscopy of Polycrystalline $YBa_2Cu_3O_{7-x}$ and $Y_{1-y}Ca_yBa_2Cu_3O_{7-x}$ Superconductors	
N. Ruffer, G. Kaiser, K. Schulze and M. Weller	713
Study of Oxygen Diffusion in Superconducting $YBa_2Cu_3O_{7-\delta}$ by Low Frequency Mechanical Spectroscopy	
J. Woïrgard, P. Gadaud, A. Rivière and B. Kaya	719

INTERNATIONAL SYMPOSIUM ON MECHANICAL SPECTROSCOPY

CONTENTS

FOREWORD	739
BASIC PHENOMENA	
Introduction to Mechanical Spectroscopy L.B. Magalas and R. De Batist	743
ATOMIC SIZE DEFECTS	
Snoek Relaxation L.B. Magalas	747
Directional Short-Range Ordering in Solid Solutions J. Hillairet	749
Quantum Effects in Point Defect Relaxations A.V. Granato	751
Atomic Rearrangements in Noncrystalline Solids J. Perez	755
DISLOCATIONS	
Intrinsic Properties of Dislocations W. Benoit	759
Inertial Effects of Dislocations A.V. Granato	767
Dislocation-Point Defects Interactions G. Gremaud	771
Anelastic Relaxations due to Grain Boundaries K. Iwasaki	775
APPLICATIONS OF MECHANICAL SPECTROSCOPY TO MATERIALS SCIENCE	
METALS AND ALLOYS	
Internal Friction and Phase Transformations M. Wuttig and T. Suzuki	781
Application of Mechanical Spectroscopy to Physical Metallurgy V.I. Sarrak	783
Study of Precipitation and Recrystallization R. Schaller	785

Application of Mechanical Spectroscopy to Study the Fatigue of Metals	
A. Puskar and S.A. Golovin	791
Internal Friction Associated with Hydrogen in Metals	
O. Yoshinari and M. Koiwa	795
Irradiation Damage	
S. Okuda	799
High Damping Materials	
R. Schaller and J. Van Humbeeck	803
NONCRYSTALLINE MATERIALS	
Study of Polymer Materials	
J. Perez	809
Mechanical Relaxations in Glasses	
C.A. Angell	813
Coupling-Model, Interpretations of Mechanical Spectroscopy in Materials Science	
K.L. Ngai	817
CERAMICS, COMPOSITE MATERIALS, FIBRES	
Defects in Oxide Ceramics	
M. Weller	819
Internal Friction in Ceramics	
G. Fantozzi	821
Damping Processes in Composite Materials and Fibres	
R.D. Adams	823
APPLICATIONS OF SPECIAL TECHNIQUES	
Very Low Frequency Mechanical Spectroscopy	
J. Woïrgard and A. Rivière	825
Special Applications of Very Low Frequency Mechanical Spectroscopy	
S. Etienne	827
Dynamic Mechanical Analysis and Defect Spectroscopy of Thin-Layer Materials	
B.S. Berry	829
Surface Acoustic Wave Measurements on Superconducting Films	
M. Levy	831
Guided Leaky Waves in Acoustic Microscopy	
E. Drescher-Krasicka and J.A. Simmons	833
Magnetomechanical Effects and Magnetomechanical Damping of Ferromagnetic Materials	
J. Degauque	839
Mechanical Spectroscopy and Quantitative Nondestructive Evaluation	
O. Buck and D.O. Thompson	847
Damping in Engineering Materials: its Measurements, Properties and Application to Limiting Structural Vibration	
R.D. Adams	849
AUTHOR INDEX	851
