

EARTH SCIENCES IN THE 21ST CENTURY SERIES

**GEOMORPHOLOGY:
PROCESSES, TAXONOMY
AND APPLICATIONS**

CONTENTS

Preface		vii
Chapter 1	Sustainable Decision Making in a Complex 3D Environment of an Urban Area: Design of an Auditable Decision Process Based on Multicriteria Analysis	1
	<i>M. T. Lamelas, O. Marinoni, J. de la Riva and A. Hoppe</i>	
Chapter 2	Integration of Fluvial Geomorphology and Hydrobiology - Example of Small Streams Invertebrates Study	45
	<i>Zuzana Pastuchová, Milan Lehotský and Anna Grešková</i>	
Chapter 3	Geomorphic Adjustment, Geographic Context, and Disturbances	87
	<i>Jordan A. Clayton</i>	
Chapter 4	Assessing Soil Erosion in Semi-Arid Check Dam Watersheds Using GeoWEPP (South-East Spain)	115
	<i>R. García-Lorenzo, C. Conesa-García and A. Martínez-Salvador</i>	
Chapter 5	The Impact of Tidal Energy Barrages on Estuarine Geomorphology	147
	<i>Roger K. A. Morris</i>	

Chapter 6	Soils, Hydrology, and Geomorphology of the Lisa Matthews Memorial Bay, Bamberg, South Carolina	183
	<i>Charles J. Everett and W. Lee Daniels</i>	
Index		205
