# Contents

|   |           |
|---|-----------|
| Contributors .....  | ix        |
| Preface .....   | xiii      |
| <b>CHAPTER 1 Proteomic Studies of Isolated Lipid Droplets from Bacteria, <i>C. elegans</i>, and Mammals .....</b>               | <b>1</b>  |
| Huimin Na, Peng Zhang, Yunfeng Ding, Li Yang, Yang Wang, Huina Zhang, Zhensheng Xie, Fuquan Yang, Simon Cichello, Pingsheng Liu |           |
| Introduction .....  | 2         |
| 1.1 Equipment .....   | 3         |
| 1.2 Reagents .....  | 3         |
| 1.3 Methods .....   | 4         |
| 1.4 Discussion .....  | 10        |
| Acknowledgment .....  | 12        |
| References .....  | 12        |
| <b>CHAPTER 2 Analysis of Yeast Lipid Droplet Proteome and Lipidome .....</b>  | <b>15</b> |
| Claudia Schmidt, Birgit Ploier, Barbara Koch, Günther Daum  |           |
| Introduction .....  | 16        |
| 2.1 Materials .....   | 18        |
| 2.2 Methods .....   | 20        |
| 2.3 Results and Discussion .....  | 26        |
| 2.4 Notes .....   | 33        |
| Acknowledgments .....   | 33        |
| References .....  | 34        |
| <b>CHAPTER 3 Visualization of Lipid Droplets in <i>C. elegans</i> by Light and Electron Microscopy .....</b>                    | <b>39</b> |
| Ho Yi Mak   |           |
| Introduction .....  | 40        |
| 3.1 Transgenic Expression of Lipid Droplet Markers in <i>C. elegans</i> .....   | 41        |
| 3.2 Visualization of Lipid Droplet Associated Proteins by Laser Scanning Confocal Microscopy .....                              | 43        |
| 3.3 Visualization of Lipid Droplet Associated Proteins by Spinning Disk Confocal Microscopy .....                               | 45        |
| 3.4 Visualization of Lipid Droplets by TEM .....  | 46        |

|                  |  |            |
|------------------|--|------------|
| 3.5              | Visualization of Lipid Droplet Associated Proteins<br>by Immunoelectron Microscopy .....   | 47         |
|                  | Summary .....  | 48         |
|                  | Acknowledgments .....  | 48         |
|                  | References.....  | 48         |
| <b>CHAPTER 4</b> | <b>Analysis of Lipid Droplet Dynamics and<br/>Functions in <i>Drosophila melanogaster</i></b> .....                                  | <b>53</b>  |
|                  | Han Lee, Ying Peng, Yi Guo   |            |
| 4.1              | Genome-Wide RNA Interference Screens in <i>Drosophila</i><br>Cells to Identify Regulators for LD Biology .....                       | 54         |
| 4.2              | LD Dynamics in Different <i>Drosophila</i><br>Developmental Stages.....  | 59         |
| 4.3              | LD Functions in <i>Drosophila</i> Physiology.....  | 64         |
|                  | Acknowledgments .....  | 66         |
|                  | References.....  | 66         |
| <b>CHAPTER 5</b> | <b>Analysis of Oil Droplets in Microalgae</b> .....  | <b>71</b>  |
|                  | Chengshi Yan, Jilian Fan, Changcheng Xu  |            |
|                  | Introduction .....   | 71         |
| 5.1              | Nile Red as a Probe for Oil Droplets .....   | 72         |
| 5.2              | Confocal and Transmission Electron Microscopic<br>Observation .....  | 76         |
| 5.3              | Isolation and Purification of Oil Droplets.....  | 79         |
|                  | Summary .....  | 79         |
|                  | Acknowledgments .....  | 79         |
|                  | References.....  | 80         |
| <b>CHAPTER 6</b> | <b>Studying Lipolysis in Adipocytes by Combining<br/>siRNA Knockdown and Adenovirus-Mediated<br/>Overexpression Approaches</b> ..... | <b>83</b>  |
|                  | Xiaodong Zhang, Bradlee L. Heckmann, Jun Liu   |            |
|                  | Introduction and Rationale.....  | 84         |
| 6.1              | Materials and Reagents.....  | 87         |
| 6.2              | Methods .....  | 89         |
| 6.3              | Concluding Remarks.....  | 97         |
|                  | Acknowledgment .....   | 100        |
|                  | References.....  | 100        |
| <b>CHAPTER 7</b> | <b>Analysis of Lipid Droplets in Hepatocytes</b> .....   | <b>107</b> |
|                  | Huajin Wang, Ariel D. Quiroga, Richard Lehner  |            |
|                  | Introduction and Rationale.....  | 108        |

|                   |  |            |
|-------------------|--|------------|
| 7.1               | Materials .....  | 111        |
| 7.2               | Methods .....  | 113        |
| 7.3               | Discussion .....   | 122        |
|                   | Conclusion.....  | 125        |
|                   | Acknowledgments .....  | 125        |
|                   | References.....  | 126        |
| <b>CHAPTER 8</b>  | <b>Analysis of Lipid Droplets in Cardiac Muscle.....</b>   | <b>129</b> |
|                   | Hong Wang, Ming Lei, Ru-ching Hsia, Carole Sztalryd  |            |
|                   | Introduction and Rationale.....  | 130        |
| 8.1               | Isolation of Cardiac LD Proteins and Preparation of<br>Cardiac LDs for Analysis by Western Blot .....          | 132        |
| 8.2               | Analysis of Cardiac LDs by 2D Analysis of LDs by<br>Conventional TEM.....                                      | 137        |
| 8.3               | Progress in 3D EM Technology May Provide New Tools<br>to Study Cardiac LDs and Mitochondria Interactions ..... | 142        |
|                   | Conclusions .....  | 145        |
|                   | Acknowledgments .....  | 146        |
|                   | References.....  | 146        |
| <b>CHAPTER 9</b>  | <b>Imaging Cytoplasmic Lipid Droplets in<br/>Enterocytes and Assessing Dietary<br/>Fat Absorption.....</b>     | <b>151</b> |
|                   | Aki Uchida, Hyeon Jeong Lee, Ji-Xin Cheng,<br>Kimberly K. Buhman   |            |
|                   | Introduction and Rationale.....  | 152        |
| 9.1               | Materials and Methods.....   | 153        |
| 9.2               | Discussion .....   | 162        |
|                   | Acknowledgment .....   | 165        |
|                   | References.....  | 165        |
| <b>CHAPTER 10</b> | <b>Lipid Droplets and Viral Infections .....</b>   | <b>167</b> |
|                   | Gregory Camus, Dorothee A. Vogt, Andrew S. Kondratowicz,<br>Melanie Ott  |            |
|                   | Introduction .....   | 168        |
| 10.1              | Materials.....   | 173        |
| 10.2              | Methods.....   | 175        |
| 10.3              | Discussion .....   | 186        |
|                   | Acknowledgments .....  | 187        |
|                   | References.....  | 188        |

|                   |  |            |
|-------------------|--|------------|
| <b>CHAPTER 11</b> | <b>Purification of Integral Membrane Proteins and Lipid-Binding Assays</b> ..... | <b>191</b> |
|                   | David A. Gross, David L. Silver  |            |
|                   | Introduction and Rationale.....  | 192        |
| 11.1              | Materials.....   | 195        |
| 11.2              | Methods.....   | 195        |
|                   | Conclusion and Applications.....   | 208        |
|                   | Acknowledgment.....  | 209        |
|                   | References.....  | 209        |
| <b>CHAPTER 12</b> | <b>Imaging of Neutral Lipids and Neutral Lipid Associated Proteins</b> .....     | <b>213</b> |
|                   | Lydia-Ann L. S. Harris, James R. Skinner, Nathan E. Wolins                       |            |
|                   | Introduction and Rationale.....  | 214        |
| 12.1              | Materials.....   | 214        |
| 12.2              | Methods.....   | 215        |
| 12.3              | Discussion.....  | 221        |
|                   | Summary.....   | 224        |
|                   | Acknowledgments.....   | 224        |
|                   | References.....  | 225        |
| <b>CHAPTER 13</b> | <b>Imaging Lipid Droplets by Electron Microscopy</b> .....                       | <b>227</b> |
|                   | Toyoshi Fujimoto, Yuki Ohsaki, Michitaka Suzuki, Jinglei Cheng                   |            |
|                   | Introduction.....  | 228        |
| 13.1              | Probing the LD Core.....   | 231        |
| 13.2              | Observation of the LD Surface.....   | 235        |
| 13.3              | Freeze-Substitution.....   | 237        |
| 13.4              | Immunoelectron Microscopy of LD-Associated Proteins.....                         | 238        |
| 13.5              | Freeze-Fracture Electron Microscopy.....   | 246        |
| 13.6              | Future directions.....   | 248        |
|                   | Acknowledgments.....   | 248        |
|                   | References.....  | 248        |
| <b>CHAPTER 14</b> | <b>Imaging Lipid Droplet Fusion and Growth</b> .....                             | <b>253</b> |
|                   | Zhiqi Sun, Jingyi Gong, Lizhen Wu, Peng Li                                       |            |
|                   | Introduction.....  | 254        |
| 14.1              | Quantitative Measurement of LD Size.....   | 256        |
| 14.2              | Measuring Neutral Lipid Exchange Through FRAP.....                               | 257        |
| 14.3              | Measuring LD Fusion Rate.....  | 262        |
|                   | Conclusions.....   | 265        |
|                   | Acknowledgments.....   | 265        |
|                   | References.....  | 265        |
|                   | <b>Index</b> .....   | <b>269</b> |
