Author.....	xxvii

## Section I Initiating Projects

<b>1. Project Flow and Obtaining Data .....</b>	<b>3</b>
Chapter Overview .....	3
Choosing the Right Imagery for the Job.....	3
Acquiring Imagery .....	8
References .....	8
Additional Reading .....	9
<b>2. Photointerpretation Tools and Techniques.....</b>	<b>11</b>
Chapter Overview .....	11
Tools.....	11
Light Tables .....	11
Magnifying Glasses.....	11
Stereoscopes.....	12
Transferscopes.....	12
Scales and Planimeters.....	14
Parallax Bars .....	14
Overlays.....	14
Base Maps.....	15
Filters.....	15
Image Characteristics .....	15
Photo Finish.....	15
Paper versus Film.....	15
Hard Copy versus Digital.....	16
Mechanics of Image Analysis .....	16
Image Interpretation.....	16
Influence of Scale.....	18
Influence of Color.....	19
Technique.....	19
Effect of Viewing Direction or Perspective .....	20
Foreshortening .....	20
Filtering .....	20
Viewing with “Fresh Eyes”.....	20
Multiple Images of the Same Area .....	20
Image Processing .....	21
Contrast Enhancement (and Suppression) .....	21
Filtering .....	21
Ratioing .....	24

Transforms and Spectral Band Merging .....	25
Color Manipulation .....	28
Density Slicing.....	28
Vegetation Indices .....	28
Classification.....	29
Geographic Information Systems .....	30
References .....	31
Additional Reading .....	32
<b>3 Remote Sensing Systems .....</b>	<b>33</b>
Chapter Overview .....	33
Instrument Systems.....	33
Cameras and Photography .....	33
Black-and-White Photography .....	35
Color Photography .....	36
Satellite Photography.....	39
Thermal Scanners and Imagery.....	39
Radar.....	41
Radar Profiling/Microwave Sounders.....	44
Radar Altimeters .....	45
Radar Interferometry.....	45
Passive Microwave Radiometry.....	46
Spectrometers, Spectrophotometers, and Interferometers.....	47
Multispectral and Hyperspectral Scanners .....	48
Imaging Absorption Spectrometers .....	51
Occultation Spectrometers.....	51
Michelson Interferometers.....	51
Lasers, Lidar, and Lidar Altimeters .....	51
Backscatter Lidar .....	55
Differential Absorption Lidar .....	55
Fluorescence Lidar .....	55
Doppler Lidar.....	55
Broadband Lidar.....	56
Potential Fields Systems (Gravity and Magnetics Instruments) .....	56
Gravimeters.....	57
Magnetometers.....	59
Gamma Ray and X-Ray Spectrometry .....	61
Airborne Electromagnetic Surveys .....	64
Airborne Very Low Frequency Electromagnetic Survey .....	64
Airborne Resistivity.....	65
Airborne Induced Polarization .....	65
Ground-Penetrating Radar .....	66
Other EM Systems.....	67
Side-Scan Sonar .....	68
Instrument Platforms .....	70
Airborne Scanner Systems.....	71
Thermal Infrared Multispectral Scanner.....	71
Airborne Imaging Spectrometer .....	71
Airborne Visible/Infrared Imaging Spectrometer .....	71

Compact Airborne Spectrographic Imager .....	72
Thematic Mapper Simulator.....	72
NS-001 .....	72
AIRSAR.....	73
Multispectral Infrared and Visible Imaging Spectrometer .....	73
Hyperspectral Digital Imagery Collection Experiment .....	73
Short Wavelength Infrared Full Spectrum Imager .....	73
Digital Airborne Imaging Spectrometer 7915.....	73
Portable Hyperspectral Imager for Low-Light Spectroscopy .....	74
MODIS/ASTER Airborne Simulator.....	75
IceBridge .....	77
DISCOVER-AQ.....	77
Airborne Microwave Observatory of Subcanopy and Subsurface .....	79
CARVE.....	79
Hurricane and Severe Storm Sentinel .....	79
Satellites and Their Primary Earth Observation Systems.....	79
United States of America (NASA, NOAA) .....	80
Orbiting Geophysical Observatory.....	80
Skylab.....	80
Landsat .....	80
Geostationary Operational Environmental Satellite.....	83
Laser Geodynamics Satellite 1 and 2.....	83
The National Oceanographic and Atmospheric Administration and MetOp-A ....	83
Heat Capacity Mapping Mission .....	84
SeaSat .....	84
Magnetic Field Satellite .....	86
Space Shuttle .....	86
Geodetic Satellite.....	87
TOPEX/Poseidon.....	87
Tropical Rainfall Measuring Mission.....	88
Geosat Follow-On.....	88
TERRA (EOS AM).....	88
Active Cavity Radiometer Irradiance Monitor III .....	91
Quick Scatterometer .....	92
New Millenium Program Earth Observing-1 Satellite .....	92
Scientific Application Satellite-C.....	92
Jason-1 .....	94
Jason-2 .....	95
AQUA (EOS PM 1).....	95
Gravity Recovery and Climate Experiment .....	96
Ice, Cloud, and Land Elevation Satellite .....	97
Solar Radiation and Climate Experiment.....	97
Aura.....	98
CBERS Series.....	98
Polar Operational Environmental Satellite N Series.....	98
CloudSat.....	100
CALIPSO .....	102
Aquarius/SAC-D .....	102
Suomi National Polar-Orbiting Partnership .....	103

Canada ..... 103  
 RADARSAT-1 ..... 103  
 RADARSAT-2 ..... 104  
 SCISAT-1 ..... 104  
 Chile ..... 105  
 FASat-Bravo ..... 105  
 SSOT ..... 106  
 China ..... 106  
 Yaogan 1 Series ..... 106  
 HaiYang-2A ..... 107  
 Ziyuan Series ..... 107  
 Denmark ..... 108  
 Ørsted ..... 108  
 DigitalGlobe ..... 109  
 Early Bird ..... 109  
 QuickBird ..... 109  
 WorldView-1 ..... 109  
 WorldView-2 ..... 109  
 European Organization for the Exploitation of Meteorological Satellites ..... 109  
 Meteosat Second Generation ..... 110  
 European Space Agency ..... 110  
 ERS-1 and -2 ..... 111  
 Cluster II Series ..... 112  
 Project for On-Board Autonomy ..... 112  
 ODIN ..... 112  
 Environmental Satellite ..... 112  
 FORMOSAT-2 ..... 114  
 COSMO-SkyMed ..... 115  
 Soil Moisture Ocean Salinity ..... 115  
 Gravity Field and Ocean Circulation Explorer ..... 116  
 CryoSat-2 ..... 116  
 Laser Relativity Satellite ..... 116  
 France ..... 117  
 STARLETTE and STELLA ..... 117  
 SPOT Series ..... 118  
 SPOT-6 ..... 118  
 Detection of Electro-Magnetic Emissions Transmitted from Earthquake  
 Regions ..... 119  
 Polarization and Anisotropy of Reflectances for Atmospheric Science  
 Coupled with Observations from Lidar ..... 119  
 Pléiades Series ..... 120  
 Pléiades 1B ..... 121  
 Germany ..... 121  
 Challenging Minisatellite Payload ..... 121  
 TerraSAR-X ..... 121  
 TanDEM-X ..... 121  
 GEOEYE, INC. ..... 122  
 IKONOS-1 and IKONOS-2 ..... 122  
 ORBVVIEW-1 ..... 122

ORBVIEW-2.....	122
ORBVIEW-3.....	123
GeoEye-1 .....	123
India .....	124
IRS Series .....	124
IRS-P4 (Oceansat-1).....	125
Technology Experiment Satellite .....	126
IRS-P6.....	126
IRS-P5.....	127
IRS-P7.....	127
Indian Micro Satellite-1 .....	127
Oceansat-2 .....	127
RISAT 2 .....	127
CARTOSAT 2B .....	128
ResourceSat-2 .....	128
RISAT-1.....	128
Indonesia .....	128
Lapan-TUBsat.....	128
ImageSat International.....	128
Earth Resources Observation Satellite .....	128
Earth Resources Observation Satellite B.....	129
Japan.....	129
Geostationary Meteorological Satellite Series.....	129
Marine Observation Satellite-1 and -1b.....	130
Advanced Earth Observing Satellite Series .....	130
JERS-1 .....	132
Multifunctional Transport Satellites Series.....	132
Advanced Land Observing Satellite.....	133
Greenhouse Gases Observing Satellite.....	135
Korea .....	135
Korea Multipurpose Satellite-1.....	136
Korea Multipurpose Satellite-2.....	136
Korea Multipurpose Satellite-3 .....	136
Soviet Union/Russian Federation .....	136
KOSMOS Series .....	138
ETALON Series.....	138
ALMAZ-1 .....	138
Monitor-E.....	138
Resurs-DK1.....	138
Meteor-M-1 .....	140
Electro-L .....	140
Singapore.....	140
X-Sat.....	141
Surrey Satellite Technology Limited.....	141
Disaster Monitoring Constellation .....	141
Alsat-1 and Alsat-2 .....	142
Bilsat-1 .....	142
NigeriaSat-1 and NigeriaSat-2.....	142
NigeriaSat-X .....	143

- U.K. DMCSat-1 ..... 143
- Beijing-1 ..... 143
- Deimos-1 ..... 143
- THEOS ..... 143
- Future Satellite Systems ..... 143
  - Swarm Series ..... 144
  - LDCM (Landsat-8) ..... 144
  - ATTREX ..... 145
  - GeoEye-2 ..... 145
  - CBERS Series ..... 145
  - Sentinel Series ..... 145
  - Atmospheric Dynamics Mission (ADM-Aeolus) ..... 146
  - SPOT-7 ..... 146
  - Global Precipitation Measurement ..... 146
  - Worldview-3 ..... 147
  - National Polar-Orbiting Operational Environmental Satellite System ..... 147
  - SAOCOM Series ..... 147
  - OceanSat-3 ..... 147
  - International Space Station (ISS) ..... 148
  - Jason-3 ..... 148
  - Orbiting Carbon Observatory-2 ..... 148
  - EarthCARE ..... 149
  - GOES NEXT Series ..... 149
  - HyspIRI ..... 149
  - ResourceSat-3 ..... 149
  - CartoSat-3 ..... 150
  - Soil Moisture Active-Passive ..... 150
  - Geosat Follow-On-2 ..... 150
  - Ice, Cloud, and Land Elevation Satellite-2 ..... 150
  - Joint Polar Satellite System ..... 151
  - RADARSAT-3, -4, and -5 ..... 151
  - ASCENDS ..... 151
  - Deformation, Ecosystem Structure, and Dynamics of Ice ..... 152
- References ..... 152
- Additional Reading ..... 163

**Section II Remote Sensing in Geologic Mapping and Resource Exploration**

- Introduction ..... 165
  - Geologic Mapping ..... 166
  - Frontier Area Analysis ..... 166
  - Lease Evaluation ..... 167
  - Established Concessions ..... 168
  - The Field Check ..... 168
- 4. Recognizing Rock Types** ..... 171
  - Chapter Overview ..... 171
  - Igneous Rocks ..... 171

Intrusive Igneous Rocks.....	171
Extrusive Igneous Rocks.....	173
Metamorphic Rocks.....	175
Sedimentary Rocks.....	176
Sandstones .....	176
Shales .....	176
Carbonates .....	177
Evaporites.....	178
References .....	180
<b>5. Recognizing Structure.....</b>	<b>181</b>
Chapter Overview .....	181
Undeformed Terrain.....	181
Recognizing Dip .....	183
Anticlines, Domes, and Uplifts.....	188
Surface Folds.....	190
Buried Folds.....	191
Topographic Expression of Folding.....	192
Color Anomalies Indicating Folds.....	192
Vegetation Anomalies Suggesting Folds .....	193
Fracture Patterns Indicating Folds .....	194
Buried Folds in Glacial Terrain .....	200
Folds beneath Drifting Sand .....	200
Folds Revealed by Drainage Patterns .....	201
Channel Width/Depth Adjustment and Incision .....	202
Compressed Meanders.....	202
Drainage Texture.....	203
Radial and Concentric (Annular) Drainage .....	203
Braided Stream Segments .....	204
Double Drainage Deflection .....	204
Change in Strike of Bedding .....	204
Parallel Drainage Deflection.....	205
Levee Preservation.....	205
Topographic Profiles.....	206
Trend Surface Analyses.....	206
Surface Features Offset from Subsurface Structure.....	207
Circular Features .....	207
Fractures and Lineaments .....	208
Propagation Mechanisms .....	208
Joints.....	211
Faults.....	216
Normal, Reverse, and Listric Faults .....	219
Strike-Slip Faults .....	228
Thrust Faults .....	231
Case History: Structure and Geomechanics of	
Active Fault Zones .....	239
Fault Zone Mapping.....	241
Fault Zone Complexity .....	241
Lateral Displacement of Geomorphic Markers.....	242

Geomechanical Modeling .....	245
Earthquakes and Tectonics.....	247
Case History: Measuring Earthquake Deformation Using Differential Lidar .....	248
El Mayor-Cucapah Earthquake Deformation .....	248
Remote Sensing and Earthquake Forecasting .....	251
Timing of Structural Development .....	252
References .....	253
Additional Reading .....	261
<b>6. Stratigraphic and Compositional Mapping .....</b>	<b>263</b>
Chapter Overview .....	263
Rock Spectra .....	263
Mineral Spectra .....	264
Hyperspectral Imagery .....	268
Mineral Mixing and Unmixing .....	269
Atmospheric Corrections.....	272
Ground-Penetrating Radar.....	272
Lithologic Mapping .....	274
Using Radar to Map Stratigraphy.....	279
Hyperspectral Outcrop and Core Analysis .....	279
Source Rock Mapping .....	283
Seeps Mapping .....	283
Stratigraphic Traps.....	285
Stratiform Deposits.....	287
Coal, Phosphate, Potash, and Uranium–Vanadium Deposits.....	287
Base Metal Sedimentary Deposits and Chemical Precipitates.....	287
Disseminated Sedimentary Ores and Replacement Mantos.....	289
Fluvial and Marine Placer Deposits .....	290
Laterites .....	292
References .....	292
Additional Reading .....	296
<b>7. Remote Geochemistry .....</b>	<b>297</b>
Chapter Overview .....	297
Altered Rock and Soil Related to Hydrocarbon Seepage.....	297
Altered Rock and Soil Related to Mineral Deposits .....	304
Remote Sensing of Gases, Radiation, and Aerosols.....	309
Case History: Sniffing the Air.....	309
Detection of Gases, Radiation, and Aerosols Associated with Mineral Deposits .....	311
References .....	312
<b>8. Modern Analogs .....</b>	<b>317</b>
Chapter Overview .....	317
Depositional Environments .....	317
Storm Deposits .....	322
Erosional Environments .....	323
Structural Analogs.....	324

Analog for Hazards Planning .....	326
Planetary Analogs .....	327
References .....	328
<b>9. Remote Sensing in Petroleum Exploration .....</b>	<b>331</b>
Chapter Overview .....	331
Frontier Petroleum Exploration .....	331
Case History: Offshore Barbados Petroleum Exploration .....	331
Case History: Unraveling the Trap at Trap Springs, Nevada .....	333
Mature Basin Petroleum Exploration.....	336
Case History: An Integrated Approach Brings New Life to an Old Basin.....	336
Case History: Stratigraphic Traps in the Paradox Basin, Utah.....	340
Resource Plays.....	343
Case History: Niobrara Fractured Carbonate–Shale Reservoir, Denver Basin, Colorado–Wyoming.....	343
Case History: The Marcellus Fractured Shale Play.....	347
References .....	349
Additional Reading .....	351
<b>10. Remote Sensing in Mineral Exploration .....</b>	<b>353</b>
Chapter Overview .....	353
Exploration Applications of Alteration Mapping.....	353
Case History: Mapping the Grizzly Peak Caldera, Colorado.....	353
Case History: The Missing Link—Alteration Associated with Gold Mineralization at Goldfield, Nevada.....	357
Exploration Applications of Structure Mapping.....	361
Case History: Structure Mapping as a Guide to Porphyry Copper Deposits, Northeast China .....	361
Exploration Applications of Hyperspectral Mapping.....	362
Case History: Exploration for Diamond-Bearing Kimberlites and Diatremes, Utah, Colorado, and Wyoming .....	362
Case History: Mineral Exploration in Northern Chile.....	365
References .....	370
Additional Reading .....	371
 <b>Section III Exploitation, Hydrologic, and Engineering Remote Sensing</b>	
Introduction.....	373
Exploitation Applications .....	373
Hydrologic Applications.....	374
Engineering and Logistical Applications.....	375
<b>11 Remote Sensing in Resource Exploitation Projects.....</b>	<b>377</b>
Chapter Overview .....	377
Choosing Infill and Stepout Well Locations.....	377
Case History: Developing the Bravo Dome CO <sub>2</sub> Field, New Mexico .....	378
Case History: Developing a Fractured (Conventional) Reservoir, Austin Chalk, Texas.....	381

- Coalbed Methane..... 387
  - Case History: Developing Coal Bed Methane, Piceance Basin, Colorado ..... 388
- Secondary Recovery and Waterfloods ..... 389
  - Case History: Understanding a Waterflood at Cottonwood Creek Field, Wyoming ..... 390
- Extending Known Mineral Deposits ..... 393
  - Case History: Extending Known Deposits in the Huancavelica Mining District, Peru ..... 394
- Slope Stability and Mine Safety ..... 397
- References ..... 397
  
- 12. Hydrology..... 401**
  - Chapter Overview ..... 401
  - Locating Sources of Groundwater..... 401
  - Soil Moisture Determination ..... 405
  - Surface Waters and Bathymetry ..... 407
    - Bathymetric Mapping and Ocean Floor Topography ..... 409
  - Sub-Glacial Water ..... 411
  - Geothermal Resources ..... 413
  - References ..... 415
  - Additional Reading ..... 418
  
- 13. Logistics and Engineering ..... 419**
  - Chapter Overview ..... 419
  - Site Selection ..... 419
    - Geologic Structure ..... 420
    - Surface Materials..... 421
    - Subsidence..... 421
    - Surface Slope..... 422
    - Permafrost..... 422
    - Expanding Clays ..... 424
  - Generating Appropriate Base Maps..... 424
  - Reconnaissance ..... 425
  - Transportation..... 427
  - Construction Projects ..... 432
    - Case History: Site Selection for the Kakrapar Atomic Power Project, India ..... 432
  - References ..... 433
  - Additional Reading ..... 434

**Section IV Environmental Remote Sensing**

- 14 Environmental Baselines and Monitoring..... 437**
  - Chapter Overview ..... 437
  - Environmental Audits..... 437
    - Hazardous Waste ..... 438
    - Terrestrial Hydrocarbon Leaks and Spills ..... 438

Habitat Mapping.....	439
Surface Disturbance and Change Detection.....	441
Case History: Using Interferometric Synthetic Aperture Radar (InSAR) to Monitor Surface Deformation over a Steam-Assisted Gravity Drainage Project, Christina Lake, Alberta.....	445
Coal Mine Fires.....	446
Case History: Monitoring the Jharia Coal Fire, India.....	449
Mine Reclamation.....	451
Case History: Mine Reclamation in the Couer d’Alene Mining District, idaho....	451
Water Quality.....	456
Rivers, Lakes, and Ponds.....	456
Case History: Acid Rock Drainage, Upper Arkansas River, Colorado.....	457
Case History: Monitoring Algal Blooms and Toxins, Nebraska.....	459
Groundwater Quality.....	463
Estuaries and Wetlands.....	466
Marine Environment.....	466
Algae.....	466
Discharges, Spills, and Seeps.....	467
Coastal Change Mapping.....	469
Atmospheric and Air Pollution Monitoring.....	470
Gas and Aerosol Detectors.....	473
Satellite and Airborne Atmospheric Monitoring.....	476
References.....	478
Additional Reading.....	483
<b>15. Geobotanical Remote Sensing.....</b>	<b>485</b>
Chapter Overview.....	485
Geobotany and Geological Mapping.....	486
Vegetation Suppression Techniques.....	491
Botanical Indicators of Mineralization and Alteration.....	492
Botanical Responses to Hydrocarbons.....	494
Vegetation as a Groundwater/Geothermal Resource Indicator.....	499
References.....	500
Additional Reading.....	502
<b>16. Environmental Hazards and Global Warming.....</b>	<b>503</b>
Chapter Overview.....	503
Monitoring the Effects of Global Warming.....	505
Landslides and Avalanches.....	508
Earthquakes and Tsunamis.....	513
Flooding.....	516
Erosion.....	520
Volcanoes.....	521
Case History: Monitoring Volcanic Unrest in Kenya.....	523
Subsidence and Sinkholes.....	525
Case History: Subsidence over Abandoned Coal Mines, Colorado Springs, Colorado.....	526

Marine Hazards .....	528
Shoals .....	529
Shoreline Change .....	530
Submarine Slumps .....	530
Sea Ice and Sea Ice Scour .....	530
Hydrates, Gas Vents, and Craters .....	532
References .....	533
Additional Reading .....	536

## Section V Astrogeology

References .....	538
<b>17. Mapping Planetary Structure .....</b>	<b>539</b>
Chapter Overview .....	539
Faulting .....	539
Folding .....	545
Impact Structures .....	548
References .....	555
Additional Reading .....	556
<b>18. Mapping Planetary Stratigraphy .....</b>	<b>559</b>
Chapter Overview .....	559
Erosion and Deposition .....	559
Eolian Erosion and Deposition .....	559
Oceans and Lakes .....	562
Rivers and Deltas .....	562
Mass Wasting .....	567
Glaciation .....	568
Volcanism .....	569
Composition and Mineral Mapping .....	572
References .....	577
Additional Reading .....	577
<b>19. Planetary Resources .....</b>	<b>579</b>
Chapter Overview .....	579
Water .....	579
Minerals and Metals .....	582
Hydrocarbons .....	583
References .....	585
Additional Reading .....	585

## Section VI Remote Sensing, Geoscience, and the Public

<b>20. Public Relations, the Media, and the Law .....</b>	<b>589</b>
Chapter Overview .....	589
Public Relations .....	589
Media .....	592

Remote Sensing and the Law .....	593
Regulations .....	593
Law Suits .....	594
References .....	596
<b>21. Geographic Information Systems and Online Remote Sensing Resources.....</b>	<b>597</b>
Chapter Overview .....	597
Geographic Information Systems and Mapping.....	598
Case History: Mine Management Using a Geographic Information System.....	598
Case History: Pipeline Routing Using Remote Sensing and a Geographic Information System .....	600
Online Resources for Remote Sensing.....	601
Data Repositories .....	602
NASA Reverb (reverb.echo.nasa.gov) .....	602
Rapid Response (lance.nasa.gov/imagery/rapid-response/) .....	602
USGS EarthExplorer (earthexplorer.usgs.gov) .....	602
USGS GloVis (glovis.usgs.gov) .....	603
ESA EOli (eoli.esa.int) .....	603
Community Remote Sensing .....	603
Ongoing Research.....	604
Publishing Data.....	605
Standards.....	605
Software Tools .....	605
Geographic Information Systems .....	606
Virtual Globes.....	606
Google Earth .....	606
NASA World Wind .....	607
OpenWebGlobe.....	608
Image Analysis.....	610
ESA BEAM (www.brockmann-consult.de/cms/web/beam).....	610
GDAL (gdal.org) .....	611
GeoTools (geotools.org) .....	611
OSSIM (www.ossim.org).....	611
Networks .....	611
