

TRENDS IN FOOD SCIENCE AND TECHNOLOGY

Proceedings of the Third International Food Convention (IFCON '93)

held during 7th to 12th September 1993
at Mysore

Editors

**C.P. Natarajan
S. Ranganna**

1995

**Association of Food Scientists and Technologists (India)
Central Food Technological Research Institute
Mysore - 570 013**

CONTENTS

I.	POLICY ISSUES	Page
	Food Security in the Twenty-first Century- The Challenge to Asian Food Scientists <i>Joseph H. Huls</i>	3
	Potentials for Increasing Agricultural Productivity in India: Towards Changing the Economic Scenario and Wiping out Unemployment and Poverty <i>G. Rangaswamy</i>	15
	Arid Food Crops to Meet Future Human Needs: Production, Processing and Nutritional Quality <i>Umaid Singh</i>	21
	Can We Meet the Needs of Oils and Fats in India? <i>K.T. Achaya</i>	29
	Combating Third World Hunger <i>V.K. Natraj</i>	35
	Opportunities for Food Processing Industry and Food Technology Development <i>S. Varadarajan</i>	40
II.	AGRO DEVELOPMENT	
	Agro-business for Development of Agriculture <i>Won-Kae Choi</i>	45
	Status of Agro-food Industries in Taiwan <i>Robin Y.-Y. Chiou</i>	54
	Meeting the Challenge of Small-scale Food Processing in Developing Countries <i>Madhavi Malalgoda Ariyabandhu</i>	58
	Non-tariff Technical Barriers to Trade in Foods <i>Rao N. Maturu</i>	65
	The State of Fermentation Technologies and Their Utilization for the Development of Agro-based Industries in Papua New Guinea <i>Alfred Ihekoronye</i>	68

III.	RESEARCH AND DEVELOPMENT AND TECHNOLOGY TRANSFER	Page
	Role of an Industrial R&D Organization in a Changing Economic Climate - A Case Study <i>P.M. Jayatissa</i>	81
	Food Research and Development in Africa - Status and the Approach <i>A.O. Olorunda</i>	85
	Management of Research and Development in Industries <i>R.C. Chandan</i>	92
	Action Research and Technology Transfer <i>Vishaka Hidellage and Kithsiiri Dharmapriya</i>	97
	Information : A Key to Technology Transfer <i>Vishaka Hidellage</i>	102
IV.	EMERGING TECHNOLOGY	
	The Application of the APV Ohmic Heating Process for the Production of High Quality Ambient-Stable Particulate Food Products <i>Paul J. Skudder</i>	113
	High Pressure Technology in the Food Industry <i>D. Farr</i>	122
	Membrane Processes Applied to Fruit Juices <i>Steve Morris</i>	127
	Australian Advances in Membrane Processing of Foods <i>M.H. Nguyen</i>	132
	Applications of Hurdle Technology in Developing Countries <i>L. Leistner</i>	137
	Membrane Processes for Non-alcohol and Low-alcohol Beer Production <i>I. Leskosek</i>	141
V.	BIOTECHNOLOGY	
	Biotechnological Approaches to Fruit and Vegetable Crop Improvement <i>R.M. Pandey</i>	153

	Page
Biomass Conversion for Effective Utilization of Food Resources <i>S. Ueno</i>	161
Genetically Engineered Food Enzymes <i>Richard Joseph</i>	167
Commercializing Plant Tissue Culture Products in India <i>G.A. Ravishankar and L.V. Venkataraman</i>	175
Performance of Tissue Culture Plants under Field Conditions - Small Cardamom <i>R. Naidu, J. Premkumar, M.R. Sudarshan, P. Natarajan and M. Narayanaswamy</i>	184
Microbial Polysaccharides and Their Commercial Feasibility as Compared to Natural Polysaccharides <i>M.S. Prasad</i>	189
Detoxification of Toxic Metabolites Generated in Cells <i>Akira Kimura and Yoshiharu Inoue</i>	200

VI. HUMAN NUTRITION

Food Consumption and Nutrition Trends in India <i>Vinodini Reddy</i>	207
Possibilities for Application of Proteins in Food Systems as a Nutritional Supplement <i>G. Muschiolik</i>	214
Nutritional Benefits and Production of Cow-soy Milk Blend (Vegemil C) <i>C.W. Chung</i>	221
Protein-rich Flour in Human Diet, Their Acceptability and Commercial Viability <i>G. Ramanatham</i>	225
Trace Elements and Heavy Metal Contaminants in Food and Their Implications on Human Health <i>K.S. Jagannatha Rao</i>	231
Mineral Availability of Home Processed Legumes <i>B.M. Chauhan</i>	238
Advances in Biophysical Research on Functional Properties of Proteins and Their Relevance to Food Processing <i>V. Prakash</i>	245
Highlights of Balanced Nutrition: Whose Time Has Come! <i>Hitesh H. Vyas</i>	249

VII.	FOODGRAIN STORAGE	Page
	Industrial Entomology for Food and Protection of Foods <i>S.K. Majumder</i>	257
	Perspectives of Controlled Atmosphere Storage of Foodgrains <i>K.S. Narasimhan and S. Rajendran</i>	265
	Quality Control in Fumigation <i>M. Muthu</i>	269
	Use of Pyrethroids on Food Materials - Status in Other Countries and Scope in India <i>G. Shankar and M.S. Mithyanantha</i>	275
VIII.	A. FOODGRAIN PROCESSING - WHEAT	
	Modern Concept in Layout and Designing of Roller Flour Mills <i>T. Kolb</i>	293
	Critical Appraisal of Quality Requirements of Milled Products of Wheat for Indigenous Foods <i>P. Haridas Rao</i>	297
	Flour Mix for Bakery Products <i>C.P.S. Menon</i>	305
	Traditional Wheat Products <i>Hamed Faridi and Jalal Qarooni</i>	310
	Developments in <i>Pasta</i> and Special Food Products <i>P. Giger</i>	319
	B. FOODGRAIN PROCESSING - RICE	
	Introduction to the Rice Processing Complex (RPC) as a New Post-harvest System for Small Farms <i>D.C. Kim and T.W. Kwon</i>	331
	Industrial Development in Milling of Rice <i>P. Pillaiyar</i>	335
	Current Trends in Rice Technology <i>S Zakiuddin Ali</i>	342
	Processing of Coarse and Minor Cereals for Food and Industrial Uses <i>N.G. Malleshi</i>	349
	Production Trends and Processing Pulses : Problems and Prospects <i>B.P.N. Singh, Maharaj Narain, R.P. Saxena and G.K. Saxena</i>	358

IX. FRUIT AND VEGETABLE TECHNOLOGY	Page
Post-harvest Handling of Fruits and Vegetables in Developing Countries <i>Christopher Yuen</i>	379
Science and Technology of Handling, Packaging and Transport of Fresh Fruits and Vegetables <i>Jorge Macondes</i>	386
Development of Transport Packaging of Fresh Fruits and Vegetables <i>Anchalee Kamolratanakul</i>	393
The Transport of Vegetables in Papua New Guinea <i>Kevin J. Scott</i>	399
Post-harvest Handling, Storage, Packaging and Marketing of Horticultural Products in Taiwan <i>Jui-Sen Yang</i>	402
Development of Horticulture in Karnataka and Marketing of Horticultural Produce <i>B.A. Chennappa Gowda</i>	408
Developmental Needs of Post-harvest Handling, Storage and Transportation of Fresh Fruits and Vegetables <i>Susanta K. Roy</i>	411
Is There Scope for Low Temperature Transport of Horticultural Produce in India? <i>P. Narasimham</i>	417
Methods of Prolonging Shelf-life of Fresh Fruits and Vegetables <i>P.S. Raju, K.S. Jayaraman and B.L. Mohan Kumar</i>	422
Recent Developments in Post-harvest Technology of Grapes in India <i>P.N. Pandey</i>	428
Post-harvest Technological Studies on Nagpur Mandarins <i>D.P. Ukey, R.D. Sherker, H.P. Singh and P.N. Pandey</i>	432
Impact of Introduction of Hybrid Tomato and Other Vegetables on Farm Production and Processing Industries <i>S.K. Berry</i>	435
How the Scientific Post-harvest Handling Methods Developed for the Fruits and Vegetables Could be Made Commercially Viable to Give Quality Product to the Consumer? <i>K.V.R. Ramana</i>	446

Technology of Fruit Juice and Pulp Concentrates <i>B.S. Luh and C.P. Natarajan</i>	452
Technology of Aroma Recovery for Fruit Juices <i>Martin J. Kern</i>	460
Post-harvest of Fruits and Vegetables-Problems and Perspectives <i>Adimilson B. Chitarra</i>	469

X. PLANTATION PRODUCTS

Quality of Herbs and Spices <i>W.D. Koller</i>	477
Biotechnological Advances in Coffee By-products Utilization <i>S. Roussos, I. Gaime-Perraud, S. Denis, B. Martin, S. Marakis, G. Viniestra-Gonzalez, M.R. Trejo, A. Aquiahuati and M.Gutierrez</i>	487
Health Aspects of Tea Polyphenols <i>Yukihiko Hara</i>	496
Spices Exports : Present Status and Future Outlook <i>C.K. George and B. Sreekumar</i>	505
Future of Plant Technology in Spice Crops <i>K.V. Peter</i>	512
Value-added Products from Spices <i>A.G. Mathew</i>	516

XI. OILSEEDS

Palm Oil Processing and Product Utilization in India- Current Status and Future Perspectives <i>C Arumughan, A. Sundaresan and A.D. Damodaran</i>	523
Improvements in Coconut Processing in the South-east Asia <i>U. Samarajeewa</i>	535
Future of Non-conventional Edible Oils in India <i>G. Azeemoddin</i>	540
Protein Foods from Oilseeds <i>Danji Fukushima</i>	547
Application of Lipases in Food Industry <i>Subhash Chand and Jasmedh Kaur</i>	561

XII. ANIMAL PRODUCTS	Page
What is Ahead of Meat Business in India? <i>N.P. Dani</i>	573
The Necessity of Modern Abattoirs in India <i>D. Narasimha Rao</i>	579
Food Technology for Health and Prosperity: Meat Hygiene- A Science under New Appreciation <i>Niels Skovgaard</i>	585
Microbiological Ecology of Meat and Poultry <i>G.H. Grau</i>	593
Modern Development in Livestock Feed Technology <i>P. Anand Menon</i>	599
Post-harvest Technology of Prawn-An Indian Scenario <i>M. Chandrasekaran</i>	603
 XIII. MILK PRODUCTS	
Research Needs in Dairy Products with Changing World Order <i>N.C. Ganguli</i>	611
Fermented Milk and Lactose Intolerance <i>E. Renner</i>	616
Lactic Bacteria in Quality Product Making and in Human Health <i>H.K. Desai, J.M. Dave and J.B. Prajapati</i>	625
Commercial Mass Production of Soy Milk for Adults (Vegemil A) and for Babies (Vegemil B)-Korean Experience <i>C.W. Chung</i>	633
New Technology for the Production and Processing of Full Fat Soya <i>Paul Giger</i>	637
 XIV. TRADITIONAL FOODS	
Introduction to Hurdle Technology <i>L. Leistner</i>	643
Some Commercially Viable Processes for Traditional Indian Foods <i>H.S.R. Desikachar</i>	648

	Page
Traditional Fermented Foods and Beverages in Nigeria and Africa <i>Mrs. A.O. Kuboye</i>	652
Need for Modernization of the Traditional Fruit and Vegetable Preserve (Murabba) and Candy Industry in India <i>J.S. Pruthi</i>	661
Processing of Acid Fermented Vegetables <i>Aslan Azizi and S. Ranganna</i>	668
Traditional Food Products-The Way Ahead <i>Mike Battcock</i>	675

XV. CONVENIENCE FOODS

Catering the Defence Forces during Peace Time, Forward Areas and War Fronts: Current Trends and Future Prospectives <i>Brig. V.S. Joshi</i>	683
Criteria for the Development of Space Foods and Their Acceptability <i>Mrs. D. Vijaya Rao</i>	690
Convenience Foods for Specialised Situations <i>S.S. Arya</i>	703
Speciality Foods for Meeting Nutritional Requirements <i>S. Venkat Rao</i>	714
Evolution and Perspectives Catering in Cargo Ships <i>Leo Barnes</i>	720
In-flight Catering in International Flights <i>Jagdish Sethi</i>	732
Hotels Catering to Common Man <i>A.S. Kamat</i>	738
Mass Feeding Programme-A Conspectus <i>Sreemathi Hariprasad</i>	740

XVI. STREET FOODS

Global Perspectives of Street Foods <i>E. Boutrif</i>	753
Street Foods : A Latin American Perspective <i>Primo Arambuo III. Juan Cuellar, Jaime Estupinan and Alfonso Ruiz</i>	760

	Page
Street Foods in Nepal <i>Mrs. Urmila Joshi</i>	771
The Present Status and Control of Microbial Food-borne Diseases in Street Foods of Calcutta <i>Indira Chakravarty, C. Canet and D.R. Roy</i>	777
Microbiological Safety of Street Foods <i>P.R.Kulkarni</i>	790
 XVII. PACKAGING MATERIAL	
Packaging of Food Interaction between the Food and Package Predicting Shelf-life of Food <i>L. Varsanyi</i>	805
Monitoring Distribution Environments for Packaging Design <i>Jorge Marcondes and S. Paul Singh</i>	813
Scope for Aluminium Containers for Thermally Processed Foods <i>A.N. Srivatsa, S. Nadanasabapathy and Rugmini Sankaran</i>	818
Food Packaging Films <i>Mrs. M.C. Dordi</i>	826
Flexible Packaging Materials, Their Composites and Their Application in Relation to Critical Functional Characteristics of Indigenous Foods <i>K.R. Kumar</i>	833
Merits and Ills of Different Packaging Materials for Processed Food Products <i>M. Mahadevaiah</i>	845
Food Packaging Machinery-- Present Status and Development Needs <i>V.D. Gupte</i>	851
 XVIII. THERMAL PROCESSING	
Evolution of Thermal Process Schedule for Canned Acid Foods <i>Nirankar Nath</i>	857
Trends of Aseptic Packaging in Japan <i>Kentaro Ono</i>	867
The Role of Computers in the Food Industry <i>Isreal Sam Saguy and Dennis C. Pedersen</i>	875

	Page
Computer Applications in Thermal Processing <i>Hosahalli Ramaswamy</i>	884
XIX. FOOD ADJUNCTS AND ADDITIVES	
Starch to Alcohol : A Case Study and Its Economics <i>Ashok Pandey</i>	895
Brewing Industry in India <i>S. Cariappa, V.S. Ravichandran and R.R. Ashok</i>	899
Status of the Natural Food Colours <i>P.J. Dubash</i>	909
Silicas for the Food Industry <i>Uwe Schweitzer</i>	913
XX. FOOD FLAVOUR AND SENSORY EVALUATION	
Flavours for Food Industry <i>B. Raghuramaiah</i>	919
Trends in Encapsulation of Flavours <i>B. Raghavan and M.L. Shankaranarayana</i>	924
Data Analysis in Flavour Research <i>Tetsuo Aishima</i>	932
Sensory Methods for Quality Assurance Programme in Food Industry <i>D. Rajalakshmi</i>	939
XXI. FOOD ENGINEERING	
Technological Aspects of Integrated Mechanization of Fruit, Vegetable and Grapes Processing <i>Edwar S. Gorenkov</i>	947
Machinery for Modernising Food Industry to Meet Global Competitiveness <i>G.K. Nambiar and Amol Pendharkar</i>	950
What is Needed for Developing Design and Fabrication of Equipment for Processing Fruits and Vegetables Products to Compete in Global Markets <i>A. Devariya</i>	955

	Page
Unit Operation Equipment Needs for Processing Indigenous Fruits and Vegetables <i>P.V.Suryaprakasa Rao</i>	962
Equipment for Cleaning, Grading and Packaging of Farm Produce in Rural Areas <i>Nawab Ali</i>	965
Preparatory Equipment Needs of Large Scale Fruit and Vegetable Processing Industry <i>A, Ramesh</i>	970
Application of Heat Pumps for Energy Conservation in Drying of Food and Agricultural Products <i>S.Srinivasa Murthy</i>	977
Potentials for Solar Energy Application in Fruit Processing <i>C. Palaniappan and S. Kumar</i>	988
The Choice of a Hygienic Heating System in Food Industry <i>J.P. Kapadia</i>	994

XXII. FOOD QUALITY ASSURANCE, SAFETY AND STANDARDS

Quality System in Food Industry-Role of Bureau of Indian Standards <i>A. Govindan</i>	999
Coming of Age with Quality in Processed Foods Export <i>K.C. De</i>	1006
Food Standards and Regulations, Protection of the Health of the Consumer and Facilitation of Food Trade <i>Rao N. Maturu</i>	1011
Chemicals with Applications in the Food System-Benefits and Hazardous Effects <i>D. Rajagopal Rao</i>	1017
Methodology for Pesticide Residue Decontamination of Soil, Water and Foods <i>N.G.K. Karanth and P.G. Deo</i>	1024
Effectiveness of Control Methods of Aflatoxin <i>T.Shantha</i>	1031
Effect of Gamma-radiation and <i>Streptococcus thermophilus</i> Milk Extracts on the Survival of <i>Salmonellae</i> in Chicken Meat <i>D.R. Rao and D.W. Thayer</i>	1042

	Page
What Are the Impediments in the Commercial Application of Irradiation of Food for Daily Use <i>P.M. Nair</i>	1049
Contaminants in Foods : How to Monitor and Control <i>K.V. Nagaraja</i>	1057
Development and Implementation of Data Quality in Chemical Measurements and Laboratory Accreditation <i>M.N. Krishnamurthy</i>	1062
ISO 9000 and Hazard Analysis Critical Control Points (HACCP)-A Define Role in the Indian Food Industry <i>J.J. Dick</i>	1065
XXIII. HUMAN RESOURCES DEVELOPMENT	
Food Science and Technology Education in India-The Future Challenge <i>B.K. Mital</i>	1073
Curriculum Development in Food Science and Technology- Past and Present <i>Sunit Mukherjee</i>	1080
Trend in Food Science and Technology Teaching <i>K.K. Sakariah</i>	1084
Technology-based Training as a Tool for Human Resource Development <i>Kithsiri Dharmapriya</i>	1088
XXIV. WASTE DISPOSAL AND CONTROL OF ENVIRONMENTAL POLLUTION	
Waste Disposal in Fermentation Industry <i>G. Rangaswami</i>	1097
Pollution Control in Food Processing Industries <i>S.K. Nimbhorkar</i>	1101
Characterisation and Treatment Methodology for Wastes from Food Processing Industries <i>R. Pitchai and G.B. Jaiprakash Narain</i>	1107
Biogas from Food Wastes <i>Krishna Nand</i>	1113
