Research Advances in Industrial Engineering

 Springer

Contents

1	Lean Manufacturing: Recent Trends, Research & Development and Education Perspectives	1
	S. Vinodh and R. Ben Ruben	
2	A Case Study on Lean Product and Process Development	17
	S. Vinodh and A.G. Chethan Kumar	
3	Lean Product Development (LPD) Enablers for Product Development Process Improvement	31
	Guilherme Luz Tortorella, Diego de Castro Fettermann, Giuliano Almeida Marodin and Flávio Sanson Fogliatto	
4	Discussing and Evaluating the Green Environmental Performance of Manufacturers	59
	Sang-Bing Tsai, You-Zhi Xue, Quan Chen and Jie Zhou	
5	A Simulation Study on Bullwhip Effect in Supply Chain Based on Theory of Constraint	77
	Amir Hossein Azadnia, Mazaher Ghorbani and Seyed Mohammad Arabzad	
6	Mathematical Modelling with an Application to Nuclear Power Plant Reliability Analysis	89
	Mangey Ram, Kuldeep Nagiya and Nupur Goyal	
7	Gas Turbine Assimilation Under Copula-Coverage Approaches	103
	Mangey Ram and Nupur Goyal	
	Index	117
