Dinh Van Tuan

## Charge and Spin Transport in Disordered Graphene-Based Materials

Doctoral Thesis accepted by Autonomous University of Barcelona, Spain

## Contents

1	Intr Refe	oduction erences	on	1 3
2	Elec	ctronic	and Transport Properties of Graphene	5
	2.1	Introd	uction	5
	2.2	Graph	ene and Dirac Fermions	6
		2.2.1	Graphene	6
		2.2.2	Low-Energy Dispersion	9
	2.3	Electr	onic and Transport Properties of Disordered Graphene	12
	2.4	Spin 7	Fransport in Graphene.	20
		2.4.1	Spin-Orbit Coupling in Graphene.	20
		2.4.2	Spin Transport in Graphene.	27
	Refe	erences		32
3	The	Dool S	Space Order $Q(N)$ Transport Formalism	25
5	31	Flectri	ical Transport Formalism	22
	5.1	311	Electrical Desistivity and Conductivity	33 25
		312	Semiclassical Approach	33
		313	The Kubo Greenwood Formula	30
		314	Three Transport Degimes	40
		315	The Kuba Formalism in Paul Space	44
