Environmental Technology in the Oil Industry

Third Edition

 Springer

Contents

1	General Introduction	1
	A. Ahnell and Peter Evans	
2	Environmental Control Technology for Oilfield Processes	25
	A.K. Wojtanowicz	
3	Environmental Control of Well Integrity	61
	A.K. Wojtanowicz	
4	Environmental Control of Drilling Fluids and Produced Water	101
	A.K. Wojtanowicz	
5	Oilfield Waste Disposal Control	167
	A.K. Wojtanowicz	
6	Environmental Impacts of Hydraulic Fracturing	199
	Danny D. Reible, Soraya Honarparvar, Chau-Chyun Chen, Tissa H. Illangasekare, and Margaret MacDonell	
7	Drilling and Production Discharges in the Marine Environment	221
	S.S.R. Pappworth and D.D. Caudle	
8	Decommissioning of Offshore Oil and Gas Installations	257
	M.D. Day and A. Gusmitta	
9	Tanker Design and Safety: Historical Developments and Future Trends	285
	Apostolos Papanikolaou	

10 Pipeline Technology and the Environment	321
A.A. Ryder, S.C. Rapson, and R.A. Domeney	
11 Environmental Management and Technology in Oil Refineries	375
Michelle Grist	
12 The Marketing, Distribution and Use of Petroleum Fuels	393
Malcolm F. Fox	
13 Lubricants	439
C.I. Betton	
14 Climate Change Scenarios and Their Potential Impact on World Agriculture	457
Craig Wallace, M. Hemming, and D. Viner	
Index	477
