Entertainment Computing – ICEC 2016

15th IFIP TC 14 International Conference
Vienna, Austria, September 28–30, 2016
Proceedings

Springer

Contents

Games for Health, Learning, and Social Change

Using Gamification Mechanisms and Digital Games in Structured and Unstructured Learning Contexts 3
Ioana Andreea Stanescu, Antoniu Stefan, and Jannicke Madeleine Baalsrud Hauge

The Challenge to Nurture Challenge: Students' Perception of a Commercial Quiz App as a Learning Tool 15
Heinrich Söbke and Laura Weitze

Game System of Coordination Skills Training for Elderly People 24
Nobumitsu Shikine, Yuki Hayashi, Takeshi Akiba, Mami Tanasaki, and Junichi Hoshino

A Grammar-Based Framework for Rehabilitation Exergames 38
Victor Fernandez-Cervantes, Eleni Stroulia, and Benjamin Hunter

Two Experimental Virtual Paradigms for Stress Research: Developing Avatar-Based Approaches for Interpersonal and Evaluative Stressors 51
Oswald D. Kothgassner, Helmut Hlavacs, Leon Beutl, Lisa M. Glenk, Rupert Palme, and Anna Felnhofer

Success Factors for Applied Game Projects - An Exploratory Framework for Practitioners 63
Ralf Schmidt, Mirco Zick, Burkhard Schmidt, and Maic Masuch

Use and Evaluation of Digital Entertainment

Integrating and Inspecting Combined Behavioral Profiling and Social Network Models in *Destiny* 77
André Rattinger, Günter Wallner, Anders Drachen, Johanna Pirker, and Rafet Sifa

How Playstyles Evolve: Progression Analysis and Profiling in *Just Cause 2* . . . 90
Johanna Pirker, Simone Griesmayr, Anders Drachen, and Rafet Sifa

EyeCo: Effects of Shared Gaze on Social Presence in an Online Cooperative Game. 102
Bernhard Maurer, Michael Lankes, Barbara Stiglbauer, and Manfred Tscheligi

Evaluating Experiences in Different Virtual Reality Setups 115
Volker Settgast, Johanna Pirker, Stefan Lontschar, Stefan Maggale, and Christian Gütl

Proposing a New Conceptual Model Predicting Consumer Videogame Engagement Triggered Through Playful-Consumption Experiences 126
Amir Zaib Abbasi, Ding Hooi Ting, and Helmut Hlavacs

Entertainment Technology

Avatar Density Based Client Assignment 137
Lutz Behnke, Sven Allers, Qi Wang, Christos Grecos, and Kai von Luck

A Hybrid Game Contents Streaming Method: Improving Graphic Quality Delivered on Cloud Gaming 149
Kar-Long Chan, Kohei Ichikawa, Yasuhiro Watashiba, Uthayopas Putchong, and Hajimu Iida

Anyboard: A Platform for Hybrid Board Games 161
Simone Mora, Tomas Fagerbekk, Matthias Monnier, Emil Schroeder, and Monica Divitini

Accelerating the Physical Experience of Immersive and Penetrating Music Using Vibration-Motor Array in a Wearable Belt Set 173
Tomoko Yonezawa, Shota Yanagi, Naoto Yoshida, and Yuki Ishikawa

The Concept of Pervasive Virtuality and Its Application in Digital Entertainment Systems 187
Luis Valente, Bruno Feijó, Alexandre Ribeiro, and Esteban Clua

Short Papers

Metry Mouse Missions: An Interactive, Geometric Obstacle Course of Daredevil Proportions 201
Günter Wallner, Lauri Galbreath, and Simone Kriglstein

Little Fitness Dragon: A Gamified Activity Tracker 205
Isabelle Kniestedt and Marcello A. Gómez Maureira

Promoting Stretching Activity with Smartwatch - A Pilot Study 211
SinJae Lee, SangBin Kim, and JungHyun Han

Evaluation and Redesign of a Curriculum Framework for Education About Game Accessibility 217
Thomas Westin and Jerome Dupire

Mindtraining: Playful Interaction Techniques for People with Dementia 223
Elisabeth Hackner and Michael Lankes

User Interface Prototyping for Handheld Mobile Augmented Reality Applications 229
Antonia Kampa, Kathrin Stöbener, and Ulrike Spierling

Designing Shared Virtual Reality Gaming Experiences in Local Multi-platform Games 235
Stefan Liszio and Maic Masuch

Identifying Onboarding Heuristics for Free-to-Play Mobile Games: A Mixed Methods Approach 241
Line E. Thomsen, Falko Weigert Petersen, Anders Drachen, and Pejman Mirza-Babaei

A Revisit of the Measurements on Engagement in Videogames: A New Scale Development 247
Amir Zaib Abbasi, Ding Hooi Ting, and Helmut Hlavacs

Geometric Representations for Subjective Time in Digital Narratives 253
Nikitas M. Sgouros

Productive Gaming 260
Ulrich Brandstätter and Christa Sommerer

Solving the Sophistication-Population Paradox of Game Refinement Theory 266
Shuo Xiong, Parth Pankaj Tiwary, and Hiroyuki Iida

Cultural Visualisation of a Cultural Photographic Collection in 3D Environments – Development of 'PAV 3D' (Photographic Archive Visualisation) 272
Artur Lugmayr, Adam Greenfeld, Andrew Woods, and Pauline Joseph

Posters

Enrichment of Story Reading with Digital Media 281
Pedro Ribeiro, Ido Iurgel, Wolfgang Müller, and Christian Ressel

Vancouver Maneuver: Designing a Cooperative Augmented Reality Board Game 286
Alexander Golombek, Michael Lankes, and Jürgen Hagler

Author Index 291
