The Development of Eco Cities in China

Weiguang Wang, Dadao Lu, Jingyuan Li

 Springer

Contents

Part I Exploring the Theory and Practice of Ecological City Construction in China

- 1 The Principle of “Following the Way the Human Body Works” in the Construction of an Eco City** 3
Juke Liu and Tao Liu
- 2 Construction of Eco Cities in China in an Information Age** 25
Weiping Sun and Mingshi Liu
- 3 Economic Development and Environmental Protection of the Eco City**..... 43
Juheng Li
- 4 The Spatial Layout and Planning and Construction of the Eco City in China**..... 61
Yongzhen Wang
- 5 The Evaluation Report of the Health Conditions of the Eco Cities in China** 83
Tinggang Zhao, Haitao Liu, Jianmin Xie, Xiaojun Zhu, Zhibing Zhang and Tao Liu

Part II Development Pattern of Chinese-Style Eco City Construction

- 6 Evaluation Report on the Construction of Environmentally Friendly Cities**..... 191
Guohua Chang, Qing Zhang and Xiaoni Shi
- 7 The Development Mode of the Resource-Saving City**..... 209
Lingfen Kang and Kaiming Li
- 8 Evaluation Report on the Construction of the Circular Economy Oriented City**..... 229
Guoquan Qian and Cuiyun Wang

9	Development Model of Landscape and Leisure Oriented Cities	259
	Xisheng Tai and Mingtao Li	
10	Distribution Pattern and Practical Exploration of the Green Consumption City in China	277
	Tianpeng Gao, Wenxiu Yao and Xiangwen Fang	
11	The Development Mode of the Comprehensive Innovative City ...	287
	Gang Zeng, Tangwei Teng, Yongmin Shang, Yiwen Zhu, Junjiao Hai, Zefeng Mi and Hongting Chen	
	Appendix A: Memorabilia of Eco City Construction in China (November 2012–September 2015)	303
	Appendix B: Cases of Eco City	317
	Appendix C: Cases of New Energy Development	323
	Appendix D: Case Studies of Ecological Engineering	327
