

Technological Trajectories, Markets, Institutions.
Industrialized Countries, 19th–20th Centuries

From context dependency to path dependency

Trajectoires technologiques, Marchés, Institutions.
Les pays industrialisés, 19^e–20^e siècles

De la dépendance du contexte
à la dépendance de sentier

Laurent Tissot & Béatrice Veyrassat

CONTENTS

INTRODUCTION

<i>Laurent Tissot, Béatrice Veyrassat</i>	11
---	----

PART I: TECHNOLOGY AND MACRO-HISTORY

Chapter I: Theoretical and Methodological Approches

The Decisive Importance of Organizational Models to Understand Technological Revolutions <i>Jacques Perrin</i>	37
--	----

Rhetorical and Theoretical Devices in the Economic History of Technology: A Discussion Based on Deconstructive Method and on the Historical Example of Mechanical Engineering <i>Jan Pedersen</i>	53
---	----

Chapter II: Regional and National Trajectories

Transfert de technologies en matière de travaux publics en Russie: quête aux innovations et choix politiques, 1800-1850 <i>Dmitri Gouzévitch, Irina Gouzévitch</i>	91
---	----

Railways on Swiss Mountains: A Demonstration of an Agency-Structure-Concept of Technological Development <i>Wolfgang König</i>	103
--	-----

Technological Pathways, Modes of Development, and the British National Innovation System. Examples from British Industry, 1880-1914 <i>Roger Lloyd-Jones, Mervin J. Lewis</i>	117
The Harz Charcoal Ironworks in Search for New Products Enabling to Compete on Markets in Change, 19th Century <i>Michael Mende</i>	155
Technological Trajectory in a " Forced Industrialization ". An Example in Romania, 1946-1990 <i>Liviu A. Sofonea, Victor M. Sofonea</i>	181

PART II: TECHNOLOGY AND MICRO-HISTORY

Chapter III: Trajectories of Products and Industries

The Path Dependence of Technological Trajectories. The Battery Electric Vehicle <i>James S. Foreman-Peck</i>	203
The Birth of Motoring out of Sport: Car Racing as a Public Relations Strategy, 1894-1905 <i>Christoph Maria Merki</i>	227
Development of the Acid and Fertiliser Industry in 19th Century New Zealand: Business Networks and Government Rewards <i>Ian D. Rae, John Lack</i>	251

Chapter IV: Trajectories of Firms

Un leadership fondé sur l'innovation, Colas: 1929-1997 <i>Dominique Barjot</i>	273
Patterns of Technical Innovation, Market Relationships, and Institutional Change During the Interwar Period <i>Margrit Müller</i>	297

L'électromécanique genevoise des années 1880
à la Seconde Guerre mondiale. Le lent apprentissage
de l'industrie des machines
