Volume 53 Supplement 2 May 2018

Minimally Invasive Techniques and Outcomes in Surgical Aortic Valve Replacement
Guest Editor: Michael Borger

EDITORIAL

Introduction: minimally invasive aortic valve surgery supplement
M.A. Borger

ii1

REVIEWS

Planning for minimally invasive aortic valve replacement: key steps for patient assessment
P. Klein, I.D.G. Klop, G.L.T. Kloppenburg, and B.P. van Putte

ii3

Knowledge transfer and quality control in minimally invasive aortic valve replacement
H.A. Vohra, E.M. Ahmed, A. Meyer, and J. Kempfert

ii9

Ultra fast-track minimally invasive aortic valve replacement: going beyond reduced incisions
M. Di Eusanio, W. Vessella, R. Carozza, F. Capestro, A. D'Alfonso, C. Zingaro, C. Munch, and P. Berretta

ii14

Outcomes of minimally invasive aortic valve replacement surgery
C.P. Young, S. Sinha, and H.A. Vohra

ii19

SURGICAL TECHNIQUE

Technical points for aortic valve replacement through right anterior minithoracotomy
O. Bouchot, A. Petrosyan, M.C. Morgant, and G. Malapert

ii24

Minimally invasive aortic valve replacement techniques using endoscopic surgery: 'must dos' and 'preferences'
T. Hinna Danesi and L. Salvador

ii27

Minimally invasive aortic valve replacement through an upper hemisternotomy: the Vienna technique
A. Kocher, I. Coti, G. Laufer, and M. Andreas
