

# CONTENTS

Preface xv  
About the Companion Website xxi

## SECTION I | Introduction 1

1. Fundamental Principles 3
  - Hypothesis Testing 3
  - Measures of Central Tendency 8
  - Measures of Variability 14
  - Error 18
  - Types of Variables 20
  - Types of Data 20
  - Types of Statistical Procedures 22
  - Significance 24
  - Degrees of Freedom 25
  - Moving Forward 29
2. Descriptive Statistics 31
  - Use of Descriptive Statistics 31
  - Assumptions of Descriptive Statistics 34
  - Research Design and Descriptive Statistics 34
  - Setting Up a Database for Descriptive Statistics 35
  - Examining the Normality of Descriptive Statistics 36
  - Analyzing Nominal or Categorical Descriptive Statistics 38
  - Analyzing Ratio or Scaled Descriptive Data 39
  - Reporting Descriptive Statistics 42

	Writing Hints for Descriptive Statistics	42
	Final Thought on Descriptive Statistics	43
	Descriptive Statistics Exercises	43
SECTION II	Parametric Statistical Procedures	45
3.	Pearson Product-Moment Correlation	47
	Use of Pearson Product-Moment	
	Correlation Tests	47
	Assumptions of Pearson Correlation	50
	The Null Hypotheses for the Pearson Product-	
	Moment Correlation	51
	Research Design and Pearson Correlation	52
	Setting Up a Database for a Pearson Correlation	52
	Conducting a Pearson Correlation in SPSS	52
	Final Thought on Pearson Correlation	56
	Reporting a Pearson Correlation	57
	Writing Hints for a Pearson Product-Moment	
	Correlation	57
	Pearson Product-Moment Correlation Exercises	58
4.	One-Sample T-Test	59
	Use of the One-Sample T-Test	59
	Assumptions of One-Sample T-Tests	60
	Research Design and the One-Sample T-Test	61
	The Null Hypothesis for the One-Sample T-Test	62
	Setting Up a Database for the One-Sample	
	T-Test	63
	Conducting a One-Sample T-Test in SPSS	63
	Reporting a One-Sample T-Test	65
	Writing Hints for a One-Sample T-Test	65
	One-Sample T-Test Exercises	66
5.	Dependent-Samples T-Test	67
	Use of the Dependent-Samples T-Test	67
	Assumptions of the Dependent-Samples T-Test	69
	Research Design and Dependent-Samples T-Test	70
	The Null Hypothesis for a Dependent-Samples	
	T-Test	70
	Setting Up a Database for a Dependent-Samples	
	T-Test	71
	Conducting a Dependent-Samples T-Test in SPSS	71

Reporting a Dependent-Samples T-Test	77
Writing Hints for Dependent-Samples T-Test	77
Final Thought of Dependent-Samples T-Test	78
Dependent-Samples T-Test Exercises	78
<b>6. Independent-Samples T-Test</b>	<b>79</b>
Use of the Independent-Samples T-Test	79
Assumptions of the Independent-Samples T-Test	80
Research Design and Independent-Samples T-Test	82
The Null Hypothesis for an Independent-Samples T-Test	84
Setting Up a Database for an Independent-Samples T-Test	85
Conducting the Independent-Samples T-Test in SPSS	85
Reporting an Independent-Samples T-Test	90
Writing Hints for Independent-Samples T-Tests	90
Final Thought on Independent-Samples T-Test	91
Independent-Samples T-Test Exercises	92
<b>7. Univariate Analysis of Variance (ANOVA)</b>	<b>93</b>
Use of the Analysis of Variance	93
Post Hoc Tests for ANOVA	94
Assumptions of Univariate ANOVA	95
Research Design and the Univariate ANOVA	97
The Null Hypothesis for the Univariate ANOVA	100
Setting Up a Database for the Univariate ANOVA	100
Conducting a Univariate ANOVA in SPSS	101
Reporting a Univariate ANOVA	109
Writing Hints for Univariate ANOVA	110
Univariate ANOVA Exercises	111
<b>8. Factorial Analysis of Variance (ANOVA)</b>	<b>113</b>
Use of the Factorial ANOVA	113
Post Hoc Tests for Factorial ANOVA	115
Reporting Factorial Analysis of Covariance in Table Format	116
Assumptions of the Factorial ANOVA	117
Research Design and the Factorial Analysis of Covariance	118

	The Null Hypotheses for the Factorial ANOVA	118
	Setting Up a Database for the Factorial ANOVA	120
	Conducting a Factorial ANOVA in SPSS	120
	Reporting a Factorial ANOVA	126
	Writing Hints for Factorial ANOVA	127
	Factorial ANOVA Exercises	128
9.	Multivariate Analysis of Variance (MANOVA)	129
	Use of the Multivariate Analysis of Variance (MANOVA)	129
	Assumptions of MANOVA	131
	Research Design and the MANOVA	134
	The Null Hypotheses for MANOVA	135
	Setting Up a Database for a MANOVA	136
	Conducting a MANOVA in SPSS	136
	Reporting a MANOVA	144
	Writing Hints for MANOVA	144
	MANOVA Exercises	146
10.	Repeated-Measures Analysis of Variance	147
	Use of Repeated-Measures ANOVA	147
	Assumptions of the Repeated-Measures ANOVA	150
	Research Design and the Repeated-Measures ANOVA	151
	The Null Hypotheses for the Repeated-Measures ANOVA	152
	Setting Up a Database for a Repeated-Measures ANOVA	153
	Conducting a Repeated-Measures ANOVA in SPSS	153
	Reporting a Repeated-Measures ANOVA	159
	Writing Hints for Repeated-Measures ANOVA	159
	Repeated-Measures ANOVA Exercises	160
11.	Univariate Analysis of Covariance (ANCOVA)	163
	Use of the Analysis of Covariance	163
	Post Hoc Tests for ANCOVA	165
	Assumptions of ANCOVA	165
	Research Design and the ANCOVA	166
	The Null Hypothesis for the ANCOVA	168
	Setting Up a Database for the ANCOVA	169

	Conducting an ANCOVA in SPSS	170
	Reporting an ANCOVA	174
	ANCOVA Writing Hints	175
	ANCOVA Exercises	175
12.	<b>Multivariate Analysis of Covariance (MANCOVA)</b>	177
	Use of the Multivariate Analysis of Covariance (MANCOVA)	177
	MANCOVA Assumptions	179
	MANCOVA Research Design	180
	The Null Hypotheses for the MANCOVA	182
	Setting Up a Database for a MANCOVA	183
	Conducting a MANCOVA in SPSS	184
	Reporting a MANCOVA	190
	MANCOVA Writing Hints	190
	MANCOVA Exercises	190
13.	<b>Regression Analysis</b>	193
	Use of Regression Analysis	193
	Regression Analysis Assumptions	196
	Understanding Some of the Math Used in Regression Analysis	197
	Null Hypothesis of the Regression Analysis	198
	Regression Analysis Research Design	198
	Understanding All of the Symbols	199
	Setting Up a Database for a Multiple Regression	199
	Conducting a Regression Analysis in SPSS	200
	Reporting a Regression Analysis	204
	Regression-Analysis Writing Hints	204
	Regression-Analysis Exercises	205
14.	<b>Data Reduction: Factor and Principal Component Analysis</b>	207
	Use of Data Reduction Techniques	207
	Data Reduction Terminology	209
	Clarifying the Uses of Data Reduction	210
	Potential Limitation of Data Reduction	211
	Assumptions of Data Reduction	211
	Research Design and Null Hypothesis of Data Reduction	212

- Setting Up a Database for Data Reduction 212
- Conducting a Data Reduction Technique in SPSS 212
- Reporting a Data Reduction Technique 219
- Data Reduction Writing Hints 221
- Data Reduction Exercises 221
- 15. Discriminant Analysis 225
  - Use of Discriminant Analysis 225
  - Model Development in Discriminant Analysis 225
  - The Assumptions of Discriminant Analysis 228
  - Research Design and Null Hypothesis  
of Discriminant Analysis 228
  - Setting Up a Database for a Discriminant  
Analysis 229
  - Conducting a Discriminant Analysis in SPSS 230
  - Reporting a Discriminant Analysis 233
  - Discriminant Analysis Writing Hints 234
  - Discriminant Analysis Exercises 235

### SECTION III | Reliability Analysis 237

- 16. Cronbach's Alpha 239
  - Use of Reliability Analysis 239
  - Assumptions of Reliability Analyses 240
  - Cronbach's Alpha 240
  - Setting Up a Database to Compute Cronbach's  
Alpha 241
  - Conducting Cronbach's Alpha in SPSS 241
  - Reporting Cronbach's Alpha 244
  - Cronbach's Alpha Writing Hints 245
  - Cronbach's Alpha Exercises 245
- 17. Split-Half Reliability 247
  - Use of Split-Half Reliability 247
  - Assumptions of Reliability Analyses 247
  - Setting Up a Database for a Split-Half Reliability  
Analysis 249
  - Conducting a Split-Half Reliability Analysis in  
SPSS 249
  - Reporting a Split-Half Reliability Analysis 253
  - Split-Half Reliability-Analysis Writing Hints 253
  - Split-Half Reliability Exercises 254

SECTION IV | Nonparametric Tests 255

- 18. Chi-Square 257
  - Use of Chi-Square Tests 257
  - Assumptions of Chi-Square Tests 258
  - Research Design and the Chi-Square Test 259
  - The Null Hypothesis for the Chi-Square Test 259
  - Setting Up a Database for the Chi-Square Test 259
  - Conducting a Chi-Square Test in SPSS 259
  - Reporting a Chi-Square Test 266
  - Chi-Square Writing Hints 266
  - Chi-Square Exercises 267
- 19. Mann-Whitney U Test 269
  - Use of the Mann-Whitney U Test 269
  - Assumptions of the Mann-Whitney U Test 270
  - Research Design and the Mann-Whitney U Test 271
  - The Null Hypothesis for Mann-Whitney U Test 272
  - Setting Up a Database for a Mann-Whitney U Test 272
  - Conducting the Mann-Whitney U Test in SPSS 273
  - Reporting a Mann-Whitney U Test 276
  - Mann-Whitney U Test Writing Hints 276
  - Mann Whitney U Test Exercises 277
- 20. Kruskal Wallis H Test 279
  - Use of the Kruskal Wallis H Test 279
  - Post Hoc Tests for the Kruskal Wallis H Test 280
  - Assumptions of the Kruskal Wallis H Test 280
  - Research Design and the Kruskal Wallis Test 282
  - The Null Hypothesis for the Kruskal Wallis H Test 284
  - Setting Up a Database for a Kruskal Wallis H Test 285
  - Conducting a Kruskal Wallis H Test in SPSS 285
  - Reporting a Kruskal Wallis H Test 288
  - Kruskal Wallis H Test Writing Hints 288
  - Kruskal Wallis H Test Exercises 289
- 21. Spearman Correlation 291
  - Use of Spearman Correlation 291
  - Assumptions of Spearman Correlation 292
  - Research Design and Spearman Correlation 293
  - The Null Hypotheses for the Spearman Correlation 294

Setting Up a Database for a Spearman Correlation	294
Conducting a Spearman Correlation in SPSS	295
Reporting a Spearman Correlation	296
Spearman Correlation Writing Hints	296
Spearman Correlation Exercises	297
22. Wilcoxon Test	299
Use of the Wilcoxon Test	299
Assumptions of the Wilcoxon Test	300
Research Design and Wilcoxon Test	301
The Null Hypothesis for a Wilcoxon Test	301
Setting Up a Database for a Wilcoxon Test	302
Conducting a Wilcoxon Test in SPSS	303
Reporting a Wilcoxon Test	305
Wilcoxon Writing Hints	305
Wilcoxon Test Exercises	306
23. Friedman's Test	307
Use of Friedman's Test	307
Assumptions of Friedman's Test	308
Research Design and Friedman's Test	308
The Null Hypotheses for Friedman's Test	310
Setting Up a Database for a Friedman's Test	311
Conducting a Friedman's Test in SPSS	311
Reporting a Friedman's Test	313
Friedman's Test Writing Hints	314
Friedman's Test Exercises	315
Appendix	317
References	321
Index	325
