Preface vii

## PART I The Origin of Strength

- 1 Muscle Anatomy 101 3**  
Muscle Organization 3 • Muscles of the Body 9 • Muscle Actions 13 •  
Motor Unit Recruitment: The Size Principle 18 • Types of Muscle Actions 22
- 2 How Muscle Grows 29**  
Muscle Growth 31 • Magnitude of Skeletal Muscle Growth 32 •  
Disruption, Damage, and Injury Signals for Hypertrophy 43
- 3 Types of Muscle Training 49**  
Acute Program Variables 50 • Muscle Training Programs 56 •  
Training Modalities 68
- 4 Nutrition for Muscle Growth 75**  
Muscle Metabolism 76 • Macronutrients 81 • Water 88 •  
Micronutrients 89 • Supplements 89

## PART II Resistance Training Guidelines

- 5 Strength Assessment 97**  
Setting Goals 97 • Assessing Strength 98 • Assessing Power 106 •  
Interpreting the Results 114
- 6 Types of Strength and Power Training 115**  
Isometric Training 115 • Isotonic Training 118 • Isokinetic Training 122 •  
Plyometric Training 123 • Medicine Ball Training 127 • Kettlebell  
Training 129 • Suspension Training 130 • Resistance Band Training 132
- 7 Workout Schedule and Rest 135**  
Adjusting Training Variables to Goals 136 • Organizing Workouts 140
- 8 Safety, Soreness, and Injury 147**  
Lifting Safely 147 • Injury 154 • Identifying and Treating Injuries 156

## PART III Exercise Technique

- 9** **Upper-Body Exercises** 161  
Shoulders 163 • Chest and Shoulders 174 • Upper Back 186 •  
Upper Arms 193
- 10** **Lower-Body Exercises** 207  
Upper Legs and Gluteals 209 • Upper Legs 219 • Lower Legs 238
- 11** **Torso Exercises** 241  
Abdominals 243 • Lower Back and Abdominals 259 • Lower Back 260
- 12** **Explosive Movements** 267  
Full Body 268 • Upper Body 290 • Upper and Lower Legs 293

## PART IV Sample Programs

- 13** **Beginner Programs** 301  
Program Design Considerations 302 • Suggested Beginner Program 306
- 14** **Intermediate Programs** 313  
Program Design Considerations 313 • Suggested Intermediate  
Programs 317
- 15** **Advanced Programs** 327  
Chronic Program Adaptations 327 • Periodized Programs 330
- 16** **Youth Programs** 341  
Benefits of Strength Training for Youths 342 • Risks and Concerns 345 •  
Program Design Considerations 346 • Age- and Skill-Appropriate  
Programming 353
- 17** **Senior Programs** 357  
Benefits of Strength Training Older Adults 358 • Program Design  
Considerations 360 • Safety Considerations 360 • Programs for Older  
Adults 365
