

# Table of Contents

Preface .....	vii
1. Introduction .....	
Aims and content .....	1
The Terminology of Modelling .....	7
2. Description and Results of the Studies .....	
The Limits to Growth .....	11
The Strategy for Survival .....	13
The Latin American World Model .....	16
Global Constraints and a New Vision for Development .....	18
The United Nations World Input-Output Model .....	20
3. Comparison of the Model Results .....	23
The Structure of the Models .....	26
Regionalisation in the Models .....	26
Trade and Aid .....	32
Levels of Regional Investment .....	38
Assumptions about Demand .....	40
(i) Population .....	40
(ii) Patterns of Expenditure and Consumption .....	42
Assumptions about Overall Supply .....	45
(i) The Availability of Natural Resources .....	45
(ii) Technological Change .....	51
(iii) Employment .....	56
4. Methodological Considerations—The Limits to Modelling .....	59
Structure, Detail and Feedback .....	60
Data .....	64
Calibration .....	66
Sensitivity and Scenario Analysis .....	70
Optimising Models .....	72
5. Conclusions—Where Do We Go from Here? .....	74
Selected Bibliography and References .....	79
