<i>List of figures</i>	ix
<i>List of tables</i>	xiii
<i>About the authors</i>	xvi
<i>Foreword</i>	xvii
<i>Preface to the third edition</i>	xix
<i>Acknowledgements</i>	xxi
1 Advancement of the air transport industry	1
<i>The airline industry</i>	2
<i>Financial condition of the airline industry</i>	6
<i>Consolidation and bankruptcies</i>	9
<i>Factors affecting world air traffic growth</i>	15
<i>Economic impact of the air transport industry</i>	17
<i>Outlook for the air transport industry</i>	20
<i>Summary</i>	21
<i>Discussion questions</i>	21
2 Principles of economics with applications in the air transport industry	24
<i>Basic economics</i>	25
<i>Scope of economics</i>	25
<i>The role of economic systems</i>	35
<i>Economic failures</i>	38
<i>Summary</i>	43
<i>Discussion questions</i>	43
3 Supply, demand, and elasticity: analysis in the airline industry	46
<i>Basic elements of demand</i>	47
<i>Derived demand</i>	50
<i>Direct demand</i>	51
<i>Demand function</i>	51
<i>Basics of supply</i>	72
<i>Market equilibrium</i>	78

	<i>Consumer and producer surplus</i>	85
	<i>Disequilibrium</i>	89
	<i>Price sensitivity and elasticity</i>	90
	<i>Summary</i>	101
	<i>Discussion questions</i>	101
4	Cost and production analysis: the general concepts	106
	<i>Cost classification</i>	107
	<i>Components of cost</i>	111
	<i>Cost functions</i>	115
	<i>Economies of scale, scope, and density</i>	122
	<i>Operating leverage</i>	126
	<i>Airline industry cost structure</i>	129
	<i>Airline economies of scale, scope, and density</i>	139
	<i>Airline breakeven analysis</i>	142
	<i>Airline operating leverage</i>	144
	<i>Summary</i>	145
	<i>Discussion questions</i>	145
5	Operations and ownership	151
	<i>Air traffic control system</i>	152
	<i>Institutional problems in US air traffic control</i>	157
	<i>Air traffic control in a government corporation</i>	158
	<i>Solutions to air traffic control problems in the US</i>	158
	<i>Airport ownership and management</i>	161
	<i>Summary</i>	168
	<i>Discussion questions</i>	169
6	International economics and aviation	173
	<i>Trade globalization</i>	174
	<i>International economics and trade</i>	177
	<i>Why nations trade</i>	184
	<i>Aircraft manufacturing and governmental subsidies</i>	192
	<i>International trade policy in air travel: optimality versus political realities</i>	193
	<i>Foreign currency and exchange rates</i>	196
	<i>Summary</i>	198
	<i>Discussion questions</i>	199
7	Open skies and global alliances	207
	<i>Chronology of international air transport agreements</i>	208
	<i>Bilateral and multilateral air service agreements</i>	210
	<i>Open skies in Europe</i>	216
	<i>Open skies in Asia and the Pacific</i>	218
	<i>Global airline strategic alliances</i>	219

	<i>Summary</i>	228
	<i>Discussion questions</i>	228
8	Competitive market structure and monopolistic markets	232
	<i>Introduction</i>	233
	<i>Perfect (pure) competition</i>	233
	<i>Monopoly</i>	242
	<i>Monopoly market power in aviation</i>	254
	<i>Monopsony and bilateral monopoly</i>	260
	<i>Summary</i>	261
	<i>Discussion questions</i>	262
9	Hybrid market structure and the aviation industry	265
	<i>Monopolistic competition</i>	266
	<i>Oligopolies</i>	271
	<i>Contestability theory</i>	279
	<i>Kinked demand curve theory</i>	281
	<i>Cournot theory</i>	282
	<i>Price–output determination under hybrid market structure</i>	285
	<i>Profitability issues</i>	289
	<i>Competition and anti-trust issues</i>	291
	<i>Industry consolidation</i>	296
	<i>Beyond market concentration considerations</i>	300
	<i>Anti-trust, market evolution, and cooperation</i>	301
	<i>Summary</i>	302
	<i>Discussion questions</i>	302
10	Forecasting in the air transport industry	306
	<i>Application</i>	308
	<i>Qualitative forecasting methods</i>	309
	<i>Data analysis</i>	315
	<i>Descriptive statistics</i>	316
	<i>Time-series analysis</i>	320
	<i>Time-series forecasting</i>	324
	<i>Forecast accuracy</i>	331
	<i>Regression analysis</i>	334
	<i>Data sources</i>	349
	<i>Summary</i>	352
	<i>Discussion questions</i>	352
11	Dynamic pricing policy and revenue management	358
	<i>Dynamic pricing policy</i>	359
	<i>Cost-based pricing</i>	360
	<i>Markup and price elasticity of demand</i>	362
	<i>Bundling</i>	364

	<i>Unbundling and airline ancillary revenue</i>	365
	<i>Market skimming and penetration pricing</i>	365
	<i>Peak-load pricing</i>	366
	<i>Price discrimination in the airline industry</i>	367
	<i>Consumer surplus</i>	367
	<i>Necessary conditions for price discrimination</i>	369
	<i>Degrees of price discrimination</i>	370
	<i>Uniform pricing versus price discrimination</i>	372
	<i>Uniform versus multiple pricing</i>	373
	<i>Airline revenue management</i>	376
	<i>Revenue management "fences"</i>	377
	<i>Revenue management control types</i>	380
	<i>Spoilage and spillage</i>	382
	<i>Leg-based expected marginal seat revenue model</i>	384
	<i>Overbooking</i>	391
	<i>Other issues associated with revenue management</i>	398
	<i>Summary</i>	399
	<i>Discussion questions</i>	399
12	Ultra-low-cost and low-cost airlines: paradigm shifts	406
	<i>Introduction</i>	407
	<i>Evolution of low-cost business model</i>	408
	<i>Characteristics of low-cost carriers</i>	412
	<i>Cost structure comparison</i>	422
	<i>Ancillary revenue</i>	425
	<i>Incumbent carriers' response to low-cost carriers</i>	426
	<i>Ultra-low-cost carriers</i>	428
	<i>Summary</i>	429
	<i>Discussion questions</i>	430
13	Economics of aviation safety and security	433
	<i>The basics of aviation safety</i>	434
	<i>The history of aviation safety</i>	435
	<i>Incentives for aviation safety</i>	439
	<i>Causes of aviation accidents</i>	443
	<i>Basic economics of safety</i>	451
	<i>Politics and safety regulation</i>	452
	<i>Accident prevention</i>	454
	<i>Summary</i>	455
	<i>Discussion questions</i>	455
	<i>Glossary of terms</i>	459
	<i>Abbreviations</i>	466
	<i>Answers to selected questions and problems</i>	470
	<i>Index</i>	485
