About the Author	xv
About the Technical Reviewer	xvii
Disclaimer	xix
Foreword: Product Management Essentials	xxi
Acknowledgments	xxiii
Introduction	xxv
■ Part I: Introduction: Getting Started	1
■ Chapter 1: Introduction	3
What are the learning goals for this book?	4
Technical Foundations	4
Design Foundations	4
Product / Business Strategy Foundations.....	5
Small Steps to Mastery	5
What the %&!# is product management?	5
Project vs. program vs. product management	8
The big fundamentals.....	8
■ Chapter 2: Guiding Principles.....	11
Kill your ego	11
You're not the expert	12
Make decisions	12
Become comfortable with ambiguity	12
Ask the right questions	12

- Chapter 3: The End-to-End Product Journey 13**
 - Step 1: Ideation 14
 - Step 2: Create a product requirements document (PRD) 14
 - Step 3: Assemble the right team 14
 - Step 4: Create a Minimum Viable Product (MVP)..... 15
 - Step 5: Establish product-market fit 15
 - Step 6: Don't discount design 16
 - Step 7: Source feedback 16
 - Step 8: Obsess over metrics..... 17
 - Step 9: Win or Learn 17
- Chapter 4: Industry Spotlight: Q&A with Umesh Unnikrishnan 19**
 - What does the term “product manager” mean to you? 19
 - What interested you initially about product management? 19
 - How do you deal with failure as a PM? 19
 - What tools help make your life easier as a PM? 20
 - How is product management different between enterprise and consumer products? 20
- Part II: Technical Foundations 21**
- Chapter 5: Understand the software stack..... 23**
 - Why cover web instead of other technologies? 23
 - The question..... 23
 - Step 1: WWW . amazon . COM is typed into the web browser 24
 - Step 2: DNS (Domain Name Server / System) 24
 - Step 3: TCP (Transmission Control Protocol)..... 26
 - Step 4: HTTP (Hypertext Transfer Protocol)..... 26
 - Optional Step 5: Load balancing 27
 - Optional Step 6: CDNs (Content Delivery Network)..... 27
 - Step 7: Web server response 27
 - Step 8: Browser generates content 28
 - Software Engineering: Through the lens 28

The web stack	28
Front end vs. Back end.....	29
Getting started with front-end development	30
HTML (Hypertext Markup Language)	30
Tags, tags, and more tags.....	31
CSS (Cascading Style Sheets)	34
JavaScript.....	35
Additional Resources.....	36
Final Thoughts.....	37
■ Chapter 6: SQL Quickstart	39
CREATE, DELETE, and SHOW database.....	40
SELECT statements	40
SELECT statements with conditions.....	42
UPDATE table with new data	43
DELETE table rows	44
ORDER BY	44
JOINS.....	45
LEFT JOIN (also called LEFT OUTER JOIN)	46
RIGHT JOIN (also called RIGHT OUTER JOIN)	46
INNER JOIN	47
OUTER JOIN (also called FULL OUTER JOIN).....	48
Advanced topics	48
Informative...but why is this useful to me as a PM?	49
■ Chapter 7: Industry Spotlight: Q&A with Vivek Bhupatiraju	51
What does the term product manager mean to you?.....	51
Can you break down a “day-in-the-life” of a TUNE PM?.....	51
What interested you initially about product management?	52
How do you deal with failure as a PM?	52
What emerging technologies excite you most for the next five years?	52

How do you avoid burnout and keep a healthy balance between work and personal life? 52

What tools make your life easier as a PM? 53

What advice do you have for readers who want to get into product but have no prior experience? 53

■Chapter 8: Analytics are everything 55

 Analytics vs. Metrics 55

 Selecting metrics for measurement..... 56

 Types of metrics 56

 Metrics that matter 57

 A/B Testing 58

 Multivariate testing 59

 Analytics: Through the lens 60

 Drilling Deep with Google Analytics 61

 Google Analytics: Advantages 63

 Google Analytics: Disadvantages 64

 Conclusion..... 64

■Chapter 9: Software Development Methodologies 65

 What is waterfall? 66

 Advantages of waterfall..... 66

 Disadvantages of waterfall 67

 Agile 67

 Scrum..... 68

 Structure..... 69

 Roles / Artifacts 70

 User Stories 71

 Scrum Meetings 71

 Work estimation..... 72

Advantages of Scrum	73
Disadvantages of Scrum.....	74
Do I need to religiously follow this framework?.....	74
Final Thoughts.....	74
■ Chapter 10: Industry Spotlight: Q&A with Sean Ammirati.....	75
What does the term “product manager” mean to you?	75
What is one thing that PMs can do immediately that will improve the way they build world-class products?	75
As a venture capitalist, how do you gauge product vision when investing in seed-stage startups?	75
What present technology trend (VR, ML/AI, cryptocurrencies) are you bullish on for the next decade?	76
What advice do you have for a nontechnical founder who wants to raise money and build a tech startup?	76
■ Chapter 11: Deconstructing System Design	77
Probing.....	78
Identify pain points.....	78
Think about requirements	79
Understand the market	79
Arrive at a solution	80
Design a URL shortening service (bit.ly or TinyURL)	81
Background	81
Probing.....	81
High-level design	82
Additional Questions	83

- Part III: Design Foundations 85**
- Chapter 12: Mindful UX..... 87**
 - User Experience (UX) vs. User Interface (UI) design 87
 - UX principles to live by 88
 - Affordance 88
 - UX Research Techniques 89
 - Personas 89
 - Diary study..... 90
 - Surveys..... 90
 - Additional UX research and information gathering methods..... 90
 - Accessibility 91
 - Bad UX examples 91
 - Conclusion..... 91
- Chapter 13: Industry Spotlight: Q&A with Leslie Shelton 93**
 - What does the term “product manager” mean to you? 93
 - What is the best way to rebound from failure as a PM? 94
 - How has your background contributed to your success as a PM? 94
 - How would you go about hiring product managers on your team?
Any specific skills that you’d look for? 94
 - Can you give us an example of one of your favorite products and why? 95
 - What’s your approach for defining a long-term product strategy? 95
 - How do you coordinate the balance between product and engineering? 95
- Chapter 14: Rapid Prototyping 97**
 - What is rapid prototyping? 97
 - Why should we create prototypes? 98
 - Low-fidelity vs. high-fidelity vs. mocks vs. interactive prototypes 98
 - High-fidelity UI development with Balsamiq 99

Developing UI mocks with Sketch.....	106
Example #1: Login screens UI kit.....	122
Example #2: Analytics dashboard UI kit.....	123
Conclusion.....	123
■ Chapter 15: The Good, The Bad, and The Unusable	125
The Good	126
The Bradley Timepiece	126
Early prototype vehicle - Waymo	127
Square Cash app	129
The Bad	133
Hotel shower handle (Wroclaw, Poland)	133
Confusing street signs.....	136
The Unusable.....	137
(Bad) Digital Advertising	137
How can we do better?	138
■ Chapter 16: Industry Spotlight: Q&A with Daniel Csonth	139
What does the term product manager mean to you?	139
What are some of the hardest challenges to overcome as a product manager?	139
How do you know if a product is well designed?	140
What metrics do you use to track product success?	140
How will the practice of building products change in the next 5–10 years?	141
Tell me about a product you stopped using because it failed to meet your needs / solve a problem.....	141
What is your vision for the future? Where do you think technology will take us?	142

■Part IV: Business & Management Foundations..... 143

■Chapter 17: Playing the part..... 145

 Leading without authority 146

 Tips to lead effectively 147

 Learn to communicate ideas 147

 Communication: Upper Management..... 147

 Communication: Users 148

 Communication: Team Members 149

 The Art of Negotiation..... 150

 Personal Development 150

 Conclusion..... 151

■Chapter 18: Product Strategy 153

 Forecasting the unknown..... 153

 Budgeting & Estimation..... 154

 Vendor management 154

 Studying the competition 155

 Marketing 101 156

 The 4 Ps..... 156

 Go-to-market strategy 157

 Product Requirements Document (PRD)..... 158

 Product Roadmap..... 159

 Conclusion..... 159

■Chapter 19: Industry Spotlight: Q&A with Amelia Crook..... 161

 What does the term “product manager” mean to you? 161

 What’s the best piece of advice you have for new product managers?..... 161

 What misconception do people generally have about the product manager role? 161

What’s your favorite interview question for a product manager? 162

Describe your process for prioritizing requirements..... 162

What’s the best way to validate an idea with users before moving forward with development?..... 162

■ Chapter 20: Crossing the finish line 163

 Abandon Fear 163

 Think like Spock, lead like Kirk 163

 Don’t ask permission, just ask forgiveness..... 164

 Don’t always rely on “best practices” 164

 Embrace exponential thinking..... 164

 Dealing with failure 164

 Never underestimate the power of luck..... 164

 10 Q’s 165

 How do I hire a product manager? 165

 What if the organization I join doesn’t understand the product role? 165

 What if I have a limited budget for product development and engineering? 165

 What if I’m not respected? 165

 What can I start doing today to flex my product management muscles? 165

 Is an MBA required to be a product manager? 166

 What are the growth opportunities for a product manager? 166

 Join a startup as PM #1 or an established company as PM #1000? 166

 Is it detrimental to my career to join a product team at a non-tech company? 166

 I’ve heard PMs work 80-100 hour weeks. How do I avoid this? 167

 Additional Resources..... 167

 A call to action..... 167

 Commencement 168

Chapter 21: Industry Spotlight: Q&A with Romy Macasieb	169
What does the term “product manager” mean to you?	169
How does the role of product manager differ between a startup and an established firm?	169
How has your role changed as you’ve gone up the ranks to VP of Product? Can you describe your day-to-day?	170
What is your biggest fear as a PM?	170
What is an underrated skill or quality of a world-class PM?	170
What’s your approach for crafting a product requirements document (PRD)?	170
Index	171
