CONTENTS

Series Editor's Introduction 5

Acknowledgments 6

1. Introduction 7

Terminology 8

2. Illustrative Application of INDSCAL 12

Design of Rosenberg and Kim's (1975) Experiment 12
The Data 13
Interpretation of the Results 14

3. The INDSCAL Model 17

Inherently Unique Orientation of an INDSCAL Object Space 21
Noteworthy Patterns of Source Weights 24
A Second Example: The Miller and Nicely (1955) Data 25
Interpretation of Miller-Nicely Object Space 27
Interpretation of Miller-Nicely Source Space 29
The Role of Source Weights in Presenting an INDSCAL Analysis 32

4. Decisions to Be Made in Running SINDSCAL Analyses 33

Matrix (Un)conditionality 33
Dimensionality and Required Amounts of Data 35
Number of Iterations 37
Initial (or "Starting") Configuration 39
Constrained Solutions 40
Variance Accounted For (VAF) 40
Additional Points Concerning SINDSCAL's Output 42
Diagnostics 43

5. Other Three-Way MDS Spatial Representations 44

The IDIOSCAL Model and Some Special Cases 44
PARAFAC-1 45
MULTISCALE 46
ALSCAL 48
TUCKALS3 50

6. Three-Way ("Individual Differences") Clustering 53

Choosing a Method of Clustering 54
The (Two-Way) ADCLUS Model for Overlapping, Nonhierarchical Clustering 55
INDCLUS: A Clustering Counterpart to INDSCAL 57
Fitting the INDCLUS Model 59
Example: Rosenberg and Kim's (1975) Data 61
Future Prospects 64

7. Software for Three-Way MDS 64

Appendix A: Control Parameters for a SINDSCAL Analysis of Miller-Nicely Data 66

Setting Up Control Cards for SINDSCAL 68
Optional Configuration for Objects' Coordinates 70

Appendix B: The Carroll-Chang-Pruzansky Approach to Fitting the INDSCAL Model 71

Converting the Proximities to Estimated Distances 71
Conversion of Estimated Distances to Estimated Scalar Products 72
The INDSCAL Model in Scalar Product Form 75
An Algorithm for Fitting the CANDECOMP Model in the Three-Way Case 76
Direct Scalar Products Data (Called "Correlations or Covariances") in SINDSCAL 77

Appendix C: The Multiscale II Procedure for Fitting the INDSCAL Model 78

Appendix D: The ALSCAL Procedure for Fitting the INDSCAL Model 80

Initialization Phase 81
Optimal Scaling Phase 81
Termination Phase 83
Model Estimation Phase 83
Estimate W 83
Estimation Procedure for X 83
