CONTENTS

Editors' Introduction 5

1. Introduction to Structured Interviewing 6

Plan of the Book 8

2. Defining a Domain and Free Listing 9

How to Do It 11
Tabulation 14
Strengths and Weaknesses of Free Listing 16
An Example 16

3. Pile Sort I: Single Sorts 20

Examples 20
How to Do It 21
Tabulation 22
Variations 22
Strengths and Weaknesses 25

4. Pile Sort II: Successive Sorts and the Construction of Taxonomies and Trees 26

Examples 26
How to Do It 27
Tabulation 28
Variations 29
Strengths and Weaknesses 31

5. Triadic Comparisons 31

Examples 32
How to Do It 32
Tabulation 36
Variations 36
Strengths and Weaknesses 37

6. Rating Scales 38

Examples 38
How to Do It 40
Tabulation 42
Variations 42
Strengths and Weaknesses 43

7. Rank Order Methods: Complete and Partial Techniques **43**

Full Rank Order Data Collection 44
Partial Methods: Paired Comparisons 45
Triads and Balanced Incomplete Block Designs 46
Quicksort and Merge Sort 47
Strengths and Weaknesses 49

8. Balanced-Incomplete Block Designs **49**

Examples 50
How to Do It 53
Tabulation 54
Strengths and Weaknesses 54

9. Sentence Frame Formats **55**

Examples 55
How to Do It 59
Variations 61
Strengths and Weaknesses 61

10. Other Common Structured Formats: Dichotomous, Multiple Choice, Fill-in-the-Blank, Matching, Direct Estimation, and Pick N **64**

The Dichotomous Format 64
Multiple-Choice Format 66
Fill-in-the-Blank Type Formats 66
Matching Formats 68
Estimation Formats 68
The Pick N Format 69

11. Reliability, Consensus, and Sample Size **69**

Item Reliability 71
Consensus Theory 73
Summary 78

12. Validity and Replication with Variations **78**

Traditional Approaches to Validity 79
Some Final Remarks on Replication Studies 82
Summary 84

Appendices **86**

References **91**

About the Authors **96**
