## I

### THE CONDUCT OF POLITICAL INQUIRY: AN OVERVIEW

2

- The Study of Politics 3
- Behavioral Political Inquiry 7
- Methods of Political Inquiry 12
- Conceptual Frames of Reference 17

## II

### POLITICS AS A FIELD OF INQUIRY

20

#### **The Scope of Political Science**

The Scope of Political Science, Vernon Van Dyke 27

#### **The Purpose of Political Inquiry**

Values in Political Inquiry, Charles S. Hyneman 36

#### **The Development of a Science of Politics**

The "Behavioral-Traditional" Debate in Political Science, Albert Somit and Joseph  
Tanenhaus 45

### III

#### THE NATURE OF BEHAVIORAL POLITICAL INQUIRY

56

##### **Scientific Methods of Inquiry**

Scientific Operations and Scientific Justification, Arnold Brecht 60

##### **Implementing Scientific Inquiry**

Problem Formation and Hypothesis Generation, Fred. N. Kerlinger 64

Concepts in Empirical Research, Carlo Lastrucci 72

The Translation of Concepts into Indices, Paul F. Lazarsfeld 78

##### **Goals of Inquiry: Explanation, Prediction, Causation, and Theory Building**

Explanation and Scientific Investigation, Warren Weaver 81

Predicting Future Events, Irwin D. Bross 86

Causation in Social Research, R. M. MacIver 89

Empirical Theory: Explanation in the Social Sciences, Eugene J. Meehan 93

Research and Theory Building, Robert K. Merton 99

### IV

#### METHODS AND TECHNIQUES FOR BEHAVIORAL INQUIRY

104

##### **Data Collection: Observation**

Roles in Social Field Observation, Raymond L. Gold 109

##### **Interviewing and Survey Research**

The Interview: A Data Collection Technique, William J. Goode and Paul K. Hatt 115

Survey Research in Political Science, Herbert McClosky 120

##### **Experiments**

The Social Science Experiment, Barry Anderson 127

Data Generation Through Simulation, Richard E. Dawson 132

##### **Data Analysis: Measurement**

Levels of Measurement, S. S. Stevens 141

##### **Quantification**

Quantitative Descriptions of Data, Clair Seltiz, Marie Jahoda, Morton Deutsch, and Stuart W. Cook 145

Problems in Statistical Analysis, Leslie Kish 153

##### **Machines in Data Analysis**

Computers: Their Built-in Limitations, Max Gunter 158

# V

## CONCEPTUAL FRAMES OF REFERENCE

168

### **Unit Focus: The Individual**

Role: A Basic Unit for Analyzing Political Behavior, Heinz Eulau 173

Individual Socialization: Maintaining the Political System, William C. Mitchell 177

### **The Group**

The Group in Political Science, Charles B. Hagan 187

### **The Society**

An Approach to the Study of Politics: The Analysis of Political Systems, David Easton 197

The Political Culture Approach, Sidney Verba 208

### **Process Focus: Communications**

Political Communications and the Political System, Karl W. Deutsch 216

### **Power**

Power and Influence, Robert A. Dahl 222

### **Decision-Making**

A Decision-Making Approach to the Study of Political Phenomena, Richard C. Snyder 233

### **Political Change**

The Concept of Political Development, Lucian W. Pye 241

### **Functionalism**

Functionalism in Political Science, William Flanigan and Edwin Fogelman 248
