List of Language Spotlight Boxes	xvi
List of Classic Research Boxes	xvii
List of Research DIY Boxes	xviii
Preface	xix
Acknowledgments	xx
Chapter 1: What is Psycholinguistics?	1
Why Study Language?	3
Diagnosing and Treating Language Disorders	3
Facilitating Communication	3
Language in the Workplace	5
Time out for Review: Key Terms and Review Questions	6
The Historical Roots of Psycholinguistics	6
Language and the Mind in the Ancient World	7
Structuralist Approaches to Language and the Mind	10
Behaviorism and Verbal Behavior	11
The Cognitive Revolution	13
Time out for Review: Key Terms and Review Questions	20
Hot Topics in Psycholinguistics	21
Is Language Special?	21
How Does the Brain Process Language?	22
What Roles do Nature and Nurture Play in Language?	23
What Role do Genes Play in Language?	25
Does Language Influence Thought?	25
Time out for Review: Key Terms and Review Questions	27
Summary	28
Recommended Books, Films, and Websites	28
Chapter 2: How Does Language Differ From Communication in Other Species?	29
Can Animals Acquire Language?	30
Chimpanzees, Gorillas, and Bonobos	32
Alex, the African Gray Parrot	34
Dolphins	36
Dogs	37
Time out for Review: Key Terms and Review Questions	38

What are the Distinctive Characteristics of Human Language?	38
Semanticity	39
Arbitrariness	40
Displacement	41
Discreteness	42
Productivity	43
Time out for Review: Key Terms and Review Questions	45
How do Human and Non-human Minds Differ?	45
Theory of Mind	46
Deceptive Communication	47
Self-awareness	49
Time out for Review: Key Terms and Review Questions	50
How Did Language Evolve?	51
Theories of How Language Evolved	51
Anatomy and Speech	52
The Fossil Record	52
Time out for Review: Key Terms and Review Questions	53
Summary	53
Recommended Books, Films, and Websites	53
Chapter 3: How is Speech Perceived?	55
Speech Perception is Easy, but Hard to Understand	57
Perceiving Speech	57
Age-related Changes in Hearing	60
The Building Blocks of Speech	61
Time out for Review: Key Terms and Review Questions	67
Models of Attention and Speech Perception	68
Theories of Selection Attention: Listening and Ignoring	68
Studies of Attention during Listening	68
Motor Theory of Speech Perception	71
Morton's Logogen Model	74
The Cohort Model	75
The TRACE Model	78
Time out for Review: Key Terms and Review Questions	82
The Link between Speech Perception and Music Processing	82
Time out for Review: Key Terms and Review Questions	85
Summary	85
Recommended Books, Films, and Websites	85
Chapter 4: How is Speech Planned and Produced?	87
Naturalistic Studies of Speech Production	88
Speech Errors	89
Speech Disfluencies	93
Time out for Review: Key Terms and Review Questions	97
Laboratory Studies of Speech Production	98
Word Production	99
Sentence Production	101
Phonological Processes	101
Morphological and Syntactic Processes	104
Time out for Review: Key Terms and Review Questions	107
Models of Speech Production	107
Serial Processing Models	108
Parallel Processing Models	112
Time out for Review: Key Terms and Review Questions	113

Handwriting and Other Forms of Language Production	113
Time out for Review: Review Questions	115
Summary	115
Recommended Books, Films, and Websites	115
Chapter 5: How are Written Words Recognized?	116
The Invention of Writing	118
Types of Writing Systems	118
Writing and Culture	120
The Perplexing Orthography of English	121
Time out for Review: Key Terms and Review Questions	124
Recognizing Written Words	125
Visual Attention and Visual Sensory Memory	125
Orthographical and Other Visual Form Processes	128
Morphological Processes	131
Phonological Processes	133
Semantic Processes	135
Time out for Review: Key Terms and Review Questions	138
Contemporary Models of Visual Word Perception	139
Morton's Logogen Model	139
Forster's Autonomous Serial Search Model	139
Interactive Activation Models	140
Time out for Review: Key Term and Review Questions	141
Summary	141
Recommended Books, Films, and Websites	142
Chapter 6: How are Sentences Comprehended?	143
Syntactic Processing	145
Syntax-first Approaches	145
Interactive Approaches	155
Unrestricted Race Model	156
Good Enough Processing	156
Time out for Review: Key Terms and Review Questions	158
Semantic Processing	158
Semantic Versus Syntactic Representation	159
Thematic Roles	159
Time out for Review: Key Terms and Review Questions	163
The Role of Working Memory	163
Baddeley's Working Memory Model	164
Phonological Processes	165
Long Distance Dependencies	167
Individual Differences	168
Time out for Review: Key Terms and Review Questions	171
Summary	171
Recommended Books, Films, and Websites	171
Chapter 7: How Do We Comprehend Discourses?	173
Discourses and their Characteristics	175
Types of Discourses	175
Coherent Discourses	177
Memory for Discourses	183
Time out for Review: Key Terms and Review Questions	187

Linking Discourse Elements	187
Pronouns	188
Noun Descriptions	189
Inferencing	190
Time out for Review: Key Terms and Review Questions	193
Theories of Discourse Comprehension	193
Knowledge Structure Approaches	194
Processing Approaches	196
Time out for Review: Key Terms and Review Questions	200
Summary	201
Recommended Books, Films, and Websites	201
Chapter 8: How Does Language Develop?	202
Theoretical Approaches to Language Development	204
Generative Grammar Approach	204
Alternative Approaches	206
Time out for Review: Key Terms and Review Questions	207
What Methods are used to Study Language Development?	207
Observational Methods	208
Experimental Methods	208
Standardized Assessments	210
Time out for Review: Key Terms and Review Questions	211
The First 30 Months	212
Before Birth	212
The First Year	213
First Words	215
Building a Lexicon	216
Building Sentences	219
The Role of Parents and Other Caregivers	222
How Do Children Become Effective Communicators?	223
Time out for Review: Key Terms and Review Questions	225
Private Speech	226
Conversations	226
Narratives	227
Time out for Review: Key Terms and Review Questions	228
Summary	228
Recommended Books, Films, and Websites	229
Chapter 9: Social Aspects of Language Use	230
Conversations	231
Traditional Perspectives	232
Small Talk, Humor, and Cursing	234
Social Relationships and Grammar	236
Common Ground	240
Time out for Review: Key Terms and Review Questions	241
Group Differences in Language Use	242
Jargon	242
Slang	243
Geographical Dialects	244
Genderlect	245
African American Vernacular English (AAVE)	249
Lavender Linguistics	250
Time out for Review: Key Terms and Review Questions	251

Nonverbal Communication	251
Body Language	252
Facial Expressions	253
Gestures	254
Time out for Review: Key Terms and Review Questions	256
Summary	257
Recommended Books, Films, and Websites	257
Chapter 10: How are Two or More Languages Processed?	258
Bilingualism and Other Forms of Multilingualism	259
Trilinguals and Polyglots	264
Becoming Multilingual	265
Time out for Review: Key Terms and Review Questions	267
Developmental Perspectives on Bilingualism	268
The Critical Period Hypothesis	268
Age and Proficiency	269
Bilingualism across the Lifespan	270
Language Effects on Thought in Bilinguals	274
Time out for Review: Key Terms and Review Questions	277
Bilingual Language Processing	277
Language Transfer	278
Organization of Bilingual Memory	278
Code-switching	281
Time out for Review: Key Terms and Review Questions	282
Summary	283
Recommended Books, Films, and Websites	283
Chapter 11: How Do We Become Skilled Readers and Writers?	284
The Development of Reading	285
Learning to Read: A Global Perspective	286
Stages of Learning to Read	288
Methods of Reading Instruction	290
Learning to Write	294
Time out for Review: Key Terms and Review Questions	296
Measuring and Predicting Reading Proficiency	296
Health Problems during Childhood	297
Poverty	298
Genetics	299
Time out for Review: Key Terms and Review Questions	303
The Work of the Eyes and Mind during Reading	303
The Perceptual Span	305
Models of Reading	308
Time out for Review: Key Terms and Review Questions	310
Summary	310
Recommended Books, Films, and Websites	310
Chapter 12: What is the Brain's Role in Language?	312
The Localization Hypothesis	314
Broca's and Wernicke's Areas	315

Four Lobes and Two Hemispheres	317
What are the Brodmann Areas?	319
Time out for Review: Key Terms and Review Questions	325
Language and the Left Hemisphere	325
Evidence for Lateralization	326
Individual Differences	329
Time out for Review: Key Terms and Review Questions	333
Language and the Right Hemisphere	334
Prosody	334
Figurative Language	336
Humor	336
Pragmatic and Narrative Processing	337
Time out for Review: Key Terms and Review Questions	338
Brain Plasticity	338
Cortical Reorganization	338
Recovery from Hemispherectomy	339
Brain Changes across the Lifespan	340
Time out for Review: Key Terms and Review Questions	340
Summary	341
Recommended Books, Films, and Websites	341
Chapter 13: What are Sign Languages and How are they Used?	342
Historical Perspectives	344
The Origins of Modern Sign Language	344
Sign Language in 20th-century Deaf Education	348
Time out for Review: Key Terms and Review Questions	354
Linguistic Analysis of Sign Languages	354
Phonology	355
Syntax	356
Morphology	357
Dialects and Social Registers	358
Time out for Review: Key Terms and Review Questions	360
Sign Language Processing	360
Acquisition	360
Comprehension	363
Production	366
Time out for Review: Key Terms and Review Questions	367
Summary	368
Recommended Books, Films, and Websites	368
Chapter 14: How can Language Become Disordered?	369
Speech versus Language Disorders	371
Prevalence of Language Disorders	371
The Professional Labyrinth	372
Obstacles to Diagnosis	374
Treatments	375
Time out for Review: Key Terms and Review Questions	376
Syntactic Language Disorders	376
Agrammatism	376
Parkinson's Disease	377
Huntington's Disease	378
Specific Language Impairment	379

Other Developmental Disorders	380
Time out for Review: Key Terms and Review Questions	384
Non-syntactic Language Disorders	384
Lexical Disorders	384
Phonological Disorders	386
Semantic/Pragmatic Disorders	387
Time out for Review: Key Terms and Review Questions	391
Summary	392
Recommended Books, Films, and Websites	392
Glossary	393
References	417
Subject Index	517
Name Index	521
