

Contents

1	Notes on the Geometric Satake Equivalence	1
	Pierre Baumann and Simon Riche	
2	Distinguished Representations of Reductive p-Adic Groups	135
	Fiona Murnaghan	
3	Period Integrals of Automorphic Forms and Local Distinction	159
	Omer Offen	
4	The Trace Formula and the Proof of the Global Jacquet-Langlands Correspondence	197
	A. I. Badulescu	
5	Distinction of Representations via Bruhat-Tits Buildings of p-Adic Groups	251
	Paul Broussous	
6	Towards Generalized Prehomogeneous Zeta Integrals	287
	Wen-Wei Li	
7	Functoriality and the Trace Formula	319
	James Arthur	
8	Sur les paquets d'Arthur des groupes classiques et unitaires non quasi-déployés	341
	Colette Moeglin and David Renard
