Preface xi

Part I Theory

1 Organizations and Social Structure 3

- Organizational Diversity 7*
- Perspectives on Organizational Change 10*
- The Demography and Ecology of Organizations 13*
- Population Thinking 15*
- Evolution of Organizational Forms 17*
- Dynamic and Comparative Analysis 24*

2 Theoretical Background 28

- Organization Theory and Sociology: Missing Connections 28*
- Comparison of Contemporary Approaches 33*
- Controversies and Misunderstandings 35*
- Managerial Implications and Applications 40*

3 Boundaries of Forms and Populations 45

- Approaches to Defining Forms 48*
- A Focus on Boundaries 53*
- Boundary Dynamics and Diversity 60*
- Implications for Research 62*

4 Structural Inertia and Organizational Change 66

- Structural Inertia* 70
- A Hierarchy of Inertial Forces* 77
- Variations in Strength of Inertia* 80

5 Competition and the Niche 91

- The Principle of Isomorphism* 93
- The Niche* 95
- Classical Competition Theory* 97
- Niche Overlap and Competition* 103

6 Modeling the Dynamics of Organizational Populations 117

- Variations in Intrinsic Founding Rates* 117
- Effects of Environments on Carrying Capacities* 123
- Conceptualizing the Size of Populations* 129
- Carrying Capacities and Density Dependence* 131
- Rate Dependence and Diversity Dependence* 141
- Dynamics of Selection* 143

Part II Methods

7 Designs of Empirical Studies 147

- Defining Events* 147
- National Labor Unions* 153
- Semiconductor Merchant Producers* 164
- Newspaper Publishers in San Francisco* 175
- Comparison of Data Sets* 176

8 Models and Methods of Analysis 178

- Describing Organizational Histories* 179
- Models for Transition Rates* 184
- Counting Process Models* 192
- Estimation and Testing* 194

Part III Empirical Findings

9 The Population Ecology of Founding and Entry 201

Core Questions 201

Founding Rates of Labor Unions 207

Entry Rates of Semiconductor Manufacturing Firms 224

Founding Rates of Newspaper Firms 238

Comparisons and Contrasts 243

10 Age Dependence in Failure Rates 244

The Liability of Newness 245

National Labor Unions 247

Exits of Semiconductor Manufacturing Firms 267

11 The Population Ecology of Organizational Mortality 271

Disbanding Rates of Labor Unions 273

Exit Rates of Semiconductor Firms 293

Failure Rates of Newspaper Firms 305

Comparisons and Contrasts 308

12 Dynamics of Niche Width and Mortality 310

Niche Width and Mortality of Restaurants 314

Niche Width and Exit Rates of Semiconductor Firms 323

Comparisons and Contrasts 329

13 Conclusions 331

Implications of the Research 332

Problems for Analysis 336

References 343

Name Index 359

Subject Index 363
