Introduction	VII
--------------	-----

## PART I

### Exploring variation in the use of linguistic features

1. Cross-disciplinary comparisons of hedging: Some findings from the Michigan Corpus of Academic Spoken English <i>Deanna Poos and Rita Simpson</i>	3
2. <i>Would</i> as a hedging device in an Irish context: An intra-varietal comparison of institutionalised spoken interaction <i>Fiona Farr and Anne O’Keeffe</i>	25
3. Good listenership made plain: British and American non-minimal response tokens in everyday conversation <i>Michael McCarthy</i>	49
4. Variation in the distribution of modal verbs in the British National Corpus <i>Graeme Kennedy</i>	73
5. Strong modality and negation in Russian <i>Ferdinand de Haan</i>	91
6. Formulaic language in English academic writing: A corpus-based study of the formal and functional variation of a lexical phrase in different academic disciplines <i>David Oakey</i>	111
7. Lexical bundles in Freshman composition <i>Viviana Cortes</i>	131
8. Pseudo-Titles in the press genre of various components of the International Corpus of English <i>Charles F. Meyer</i>	147

9. Pattern grammar, language teaching, and linguistic variation:  
Applications of a corpus-driven grammar 167  
*Susan Hunston*

## PART II

### Exploring dialect or register variation

10. Syntactic features of Indian English: An examination of written  
Indian English 187  
*Chandrika K. Rogers (formerly Balasubramanian)*
11. Variation in academic lectures: Interactivity and level of  
instruction 203  
*Eniko Csomay*

## PART III

### Exploring historical variation

12. The textual resolution of structural ambiguity in  
eighteenth-century English: A corpus linguistic study of patterns  
of negation 227  
*Susan M. Fitzmaurice*
13. Investigating register variation in nineteenth-century English: A  
multi-dimensional comparison 249  
*Christer Geisler*
